

# OPTION A - CITY COMMISSION RECEPTION AREA

**Estimated Installation Cost: \$530**

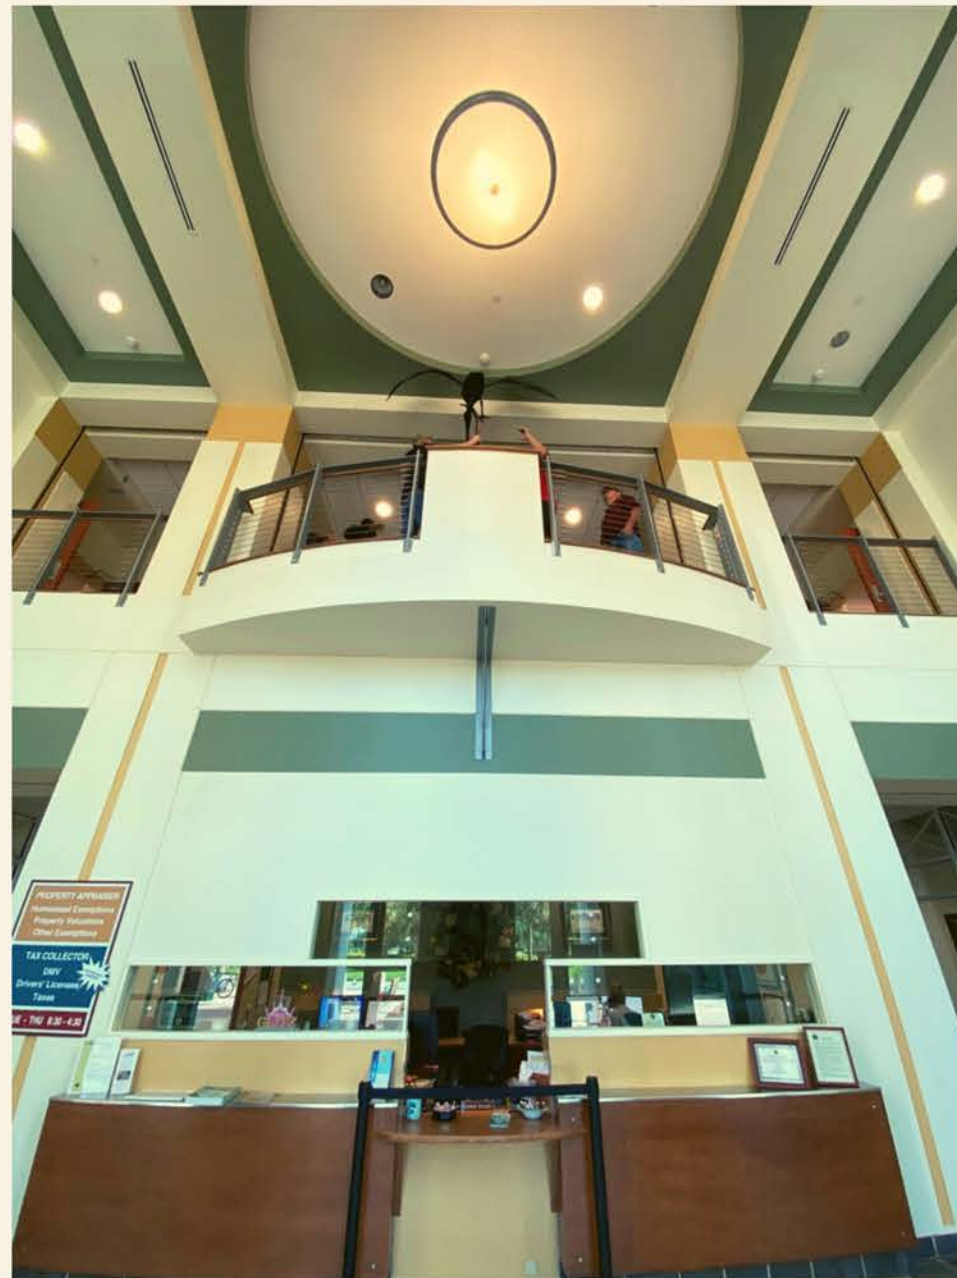

**Considerations:** Low cost, easy to install in this space, multiple locations, cost of installation could be covered by existing facilities budget. Would need to alter height.

# OPTION C - SECOND FLOOR LOBBY 'ARCHED OUT SECTION'

**Facing the Main Building Entrance**

# OPTION C - SECOND FLOOR LOBBY 'ARCHED OUT SECTION', CONT.

**Facing Chambers**

**Estimated Installation Cost: \$1,080**

**Considerations:** No concerns with the fire door clearance. Prominent location on second floor. Not easily visible from main lobby on first floor. Would require alteration to the 'height'. There are multiple access points to lobby, so there isn't an easily identified way that the Spoonbill should 'face'.
