Where are we now?

- *24, Five-year-old Panasonic Toughbook convertibles exceeding life cycle*
- *Limited spare units, must go to Station 81 or Battalion Office at 84, increases down-time*
- *Emergency Dispatch, Routing, Automated Vehicle Locating, and Electronic Patient Care Reporting*

Proposed replacements

- *30 ruggedized, modern Panasonic laptops with detachable tablet*
- *Fire Rescue evaluated several units from different manufacturers*
- *Five-Year warranty and accidental damage support and all peripheral equipment is included*
- *Cost for all units and accessories is under budget*
- *Plan in-place for trade-in of old computers*

What are the Benefits?

- *Provides spare units for each station for quicker turnaround on down-time*
- *Thinner, lighter and dual purpose laptop/tablet functionality*
- *Improved reliability and performance*
