Title: Capture of social media accounts by city

Background Information: The city currently uses multiple social media sites to brand itself and communicate with the citizens of our city. With the average age of our city being just over 40 years old, most of which are on and using some form of social media, it is one of the best resources we as commissioners have to communicate with our constituents.

Recommended Action: Instruct the city manager to begin the process of capturing the commission's social media.

Background Information: Attached is an example of Sarasota County's policy  
Attached is the Florida Attorney General Advisory Legal Opinion of questions  
asked by Coral Springs City Attorney (April 23, 2009)
