Joe,

New Hapco replacement poles and LED lights are \$9041.94 for the pair and are 10-12 weeks out. Note this does not include installation. Figure \$2500 each to install

Thank you,

Ed

2507 North Port light pole repair pdf.pdf;

Hi Joe,

As discussed, I will be working on quoting a couple of different options for this.

1. New poles from Hapco
2. Used poles painted same color and similar height
3. Just deleting the two poles all together which we will need to come down and eliminate wiring and boxes (terminate circuit past the last pole)

Thank you,

Ed
