The current market value of the subject property was estimated.

COMMENTS ON SALES COMPARISON APPROACH

The appraiser located 6 sales of vacant lots which transpired over the past ten months. The sales are located in what is considered comparable market area. The best units of comparison for vacant land is considered to be either the price per lot or price per square foot. In this case, the price per lot is considered the best indicator of value. These sales have an unadjusted range from \$16,200 to \$24,000 per lot.

Property Rights - The subject property is appraised in fee simple interest. The property rights conveyed for all of the sales are also fee simple and an adjustment for property rights is not warranted.

Financing – All the sales involved cash or cash equivalent. Financing adjustments are not necessary to these sales, since there was no unusual favorable financing.

Conditions of Sale - Adjustments for conditions of sale usually reflect the motivations of the buyer and the seller. Depending on the conditions of sale, the sales price can be significantly affected. Each of the sales included in this analysis were verified to be arm's length transactions.

Market Conditions - The sales occurred over a 10-month period from April 2024 to February 2025. During this time frame and to the date of value for this report, there is no evidence of appreciation in the subject's neighborhood and market area and the general tendency has been for stable land values. No time adjustment is warranted.

Location - The subject is located along Kacher Road. This area is mostly comprised of single family homes. All of the sales are located within similar residential location and similar neighborhood as the subject. Most have similar canal frontage as the subject. All of the sales are located within a 0.83-mile radius of the subject. No adjustment could be abstracted.

Site Size - Utilizing the area provided by the client and/or Public Records, the subject site contains 10,477 square feet. The sales contain from 10,000 to 11,618 square feet in size, which bracket the subject size. No adjustment for size was abstracted.

Topography - The subject is partially cleared and near road grade.

Supplemental Addendum

File No. 2025-NP-2

Client	City of North Port				
Property Address	Kacher Rd @ Jaffe Ln				
City	North Port	County	Sarasota	State	FL Zip Code 34288
Owner	Karen Kingswell				

Zoning - The subject is RSF2, Residential-Single Family. All of the sales are zoned for similar development. The surrounding lots within these sales are improved with similar style single homes. Thus, in the appraiser's opinion, the sales do not require adjustments.

Access - The subject is located along a two-lane, neighborhood secondary road. All of the sales have similar access. Thus, no adjustment for access is warranted.

Opinion of Land Value

In correlating the sales into an estimate of the subject parcel's land value, a conclusion within the range of adjusted sales prices provides the best indication of value. After adjustments, the range is from \$16,200 to \$24,000 per lot. The sales included in this analysis were selected as having the greatest overall degree of similarity to the subject site from among all of the sales considered.

Consideration has been given to each sale in estimating a final value for the subject. In the appraiser's opinion, a conclusion within the upper-end of the range provided by the sales and the most recent sales, or at \$23,000 is the best indication of the land value of the subject property.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, 2010.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.
