**PEACE RIVER/MANASOTA REGIONAL WATER SUPPLY AUTHORITY
MASTER WATER SUPPLY CONTRACT**

THIS CONTRACT entered into this 5th day of October 2005 by and between the **PEACE RIVER/MANASOTA REGIONAL WATER SUPPLY AUTHORITY** a regional water supply authority created and existing pursuant to Sections 373.196, 373.1962 and 163.01 Florida Statutes and other applicable law acting by and through its Board of Directors the governing board thereof (Authority') **MANATEE COUNTY** a political subdivision of the State of Florida acting by and through its Board of County Commissioners the governing board thereof (Manatee) **CHARLOTTE COUNTY** a political subdivision of the State of Florida acting by and through its Board of County Commissioners the governing board thereof (Charlotte) **DeSOTO COUNTY** a political subdivision of the State of Florida acting through its Board of County Commissioners the governing board thereof (DeSoto) **SARASOTA COUNTY** a political subdivision of the State of Florida acting by and through its Board of County Commissioners the governing board thereof (Sarasota) and the **CITY OF NORTH PORT** a municipal corporation of the State of Florida acting by and through its Board of City Commissioners the governing board thereof (North Port) (collectively Customers)

WITNESSETH

WHEREAS the Authority was created for the purpose of developing storing and supplying water for county and municipal purposes and exists pursuant to the Second Amended Interlocal Agreement Creating the Peace River/Manasota Regional Water Supply Authority executed concurrent with this Contract and

WHEREAS the Authority has determined that the potable water supply needs for citizens residing within Charlotte Manatee DeSoto and Sarasota Counties and North Port can best be met in whole or in part by expanding the Authority Water Supply Facilities in a cooperative and coordinated manner and

WHEREAS the Authority and the Customers agree it is necessary to expand the Peace River Regional Water Treatment Facility to be known as the Regional Expansion Program (REP) as more specifically set forth in Exhibit G and incorporated herein by reference in order to provide a total of 32.7 MGD of water to meet the water supply needs of the Authority's Customers and

WHEREAS it is the intent of the Parties that this Contract govern the operation maintenance alteration replacement and expansion of the Authority Water Supply Facilities and

WHEREAS the Authority has applied and the Southwest Florida Water Management District (SWFWMD) has provided New Water Source Initiative funds to assist in development and construction of the REP and

WHEREAS the Authority and its Customers recognize that as a result of increased Customers demands the REP will not satisfy all future Customers demands and the Authority has begun developing other water supplies and

WHEREAS Manatee has adopted Resolution No. R 05 108 on June 7 2005 conditionally requesting the development of potable water by the Authority for Manatee beginning January of 2014 and

WHEREAS expansions to the Authority Water Supply Facilities and the design and construction of new Water Supply Sources may be financed for the Customer(s) through the issuance of Authority revenue bonds capital contributions from the Customer(s) capital contributions from SWFWMD or other governmental grants or any combination thereof and

WHEREAS the Customers desire to purchase water from the Authority according to the terms and conditions of this Contract and the Authority desires to provide the Customers water

according to the terms and conditions of this Contract and

WHEREAS recognizing the benefits provided by the REP and future Water Supply Sources the Customers and the Authority agree that the Authority shall implement a common Debt Service Cost for the Water Rate only for the REP and all future Water Supply Source projects of the Authority and

WHEREAS the Customers desire that the Authority facilitate the transfer of Authority water among Customers with such transfers being made through the Authority at the same Water Rate assessed by the Authority and

WHEREAS this Contract is intended to constitute the entire agreement of the Authority Manatee Charlotte DeSoto Sarasota and North Port with respect to the Water Allocations and the terms and conditions contained herein and

NOW, THEREFORE in consideration of the foregoing premises which shall be deemed an integral part of this Contract and of the mutual covenants and agreements hereafter set forth the Authority and the Customers intending to be legally bound hereby agree as follows

7 FUNDING FROM SWFWMD The funding from the SWFWMD New Water Sources Funding Agreements shall be used for the construction of the REP All Parties shall work to obtain the maximum amount of funding from SWFWMD for the REP any future expansion of or addition to the Authority Water Supply Facilities and new Authority Water Supply Sources

8 REPRESENTATION OF THE PARTIES The Authority Manatee Charlotte DeSoto Sarasota and North Port make the following representations

- 8.1 Each Party is duly organized and existing in good standing under the laws of the State of Florida and is duly qualified and authorized to carry on the governmental functions and operations as contemplated by this Contract
- 8.2 Each Party has the power authority and legal right to enter into and perform its obligations set forth in this Contract and the execution delivery and performance hereof by it a) has been duly authorized by its governing board b) does not require any other approvals by any other governmental officer or body c) does not require any consent or referendum of the voters for Authority financed projects d) will not violate any judgment order law or regulation applicable to the Party and e) does not constitute a default under or result in the creation of any lien charge encumbrance or security interest upon the assets of the Party under any agreement or instrument to which it is a Party or by which the Party and its assets may be bound or affected except as provided herein under Sections 16.5 and 16.6
- 8.3 This Contract has been duly entered into and delivered by the respective governing boards and as of the date of its full execution by all Parties constitutes a legal valid and binding obligation of said Party fully enforceable in accordance with its terms provided the enforceability thereof may be limited by any applicable bankruptcy insolvency reorganization or other similar laws affecting creditors' rights generally or by the exercise of

judicial discretion in accordance with general principles of equity

- 8 4 There is no action suit or proceeding at law or in equity before or by any court or governmental authority pending or to the best of the Party's knowledge threatened against the Party which is not resolved by the execution of this Contract wherein any unfavorable decision ruling or finding would materially adversely affect the performance by the Party of its obligations hereunder or the other transactions contemplated hereby or which in any way would adversely affect the validity or enforceability of this Contract or any other agreement or instrument entered into by the Party in connection with the transaction contemplated hereby

9 **REP CONSTRUCTION** In consideration for financial and other commitments made by the Customers herein the Authority agrees to permit and construct the REP as a necessary Water Supply Source for the Water Allocations. The cost of construction and construction schedule are attached as Exhibit G. The Authority agrees to use its best efforts to construct the REP in accordance with the schedule set forth in Exhibit G. The Customers recognize that the construction schedule may be affected by circumstances beyond the control of the Authority including but not limited to weather availability of material and contractors governmental approvals and other force majeure. The Authority agrees to keep the Customers apprised of the progress made in construction of the REP and of any delays that may affect the scheduled completion date

- 9 1 Cost of Construction The Authority will use its best efforts to complete the REP construction project within the budgeted amount shown in Exhibit G. The Authority will comply with its procurement procedures in the construction of the REP

- 9 2 Insurance The Authority shall require suitable payment and performance bonds from all principal contractors working on the construction of the project. The Authority shall further require the provision by the principal contractors of hazard insurance general liability insurance and worker's compensation insurance from such carriers and at such limits as are customary

10 **DELIVERY OF WATER** During each Contract Year the Authority shall deliver water to each Customer in accordance with their Water Allocations and the terms and conditions of this Contract. Customers shall pay for and the Authority shall timely develop and deliver new Water

Supply Sources and facilities to meet the needs of its Customers as set forth in Sections 11 and 12 herein

- 10.1 Allocation The Authority shall be required to deliver water for a Customer's water demand from its Water Allocation. Future Water Allocations will be delivered only in accordance with a Customer's New Water Supply Demands in Exhibit C as modified by projected water demands pursuant to Section 11 herein. If a Customer meets its payment obligations to the Authority, the Authority shall have the absolute and unequivocal obligation to develop and provide for the Customer's permissible future potable water demand in its Water Allocation and New Water Supply Demands.
- 10.2 Limitation of Allocation The Authority shall not be required to deliver water to a Customer if prohibited by any applicable federal, state, regional or local statute, rule, ordinance, law, administrative order or judicial decree or in violation of applicable Permits. If at any time there is insufficient potable water available to fully meet the Water Allocations described above for any reason, then the Customers shall have their Water Allocations reduced on a pro-rata basis.
- 10.3 Delivery Point The Authority shall deliver water through the Regional Transmission System to each Customer only at their respective Delivery Point(s) as identified in Exhibit D. Additional Delivery Point(s) may be added by mutual agreement of the Authority and receiving Customer(s).
- 10.4 Exceedance of Delivery Schedule Subject to Section 10.5 herein, in the event a Customer should receive delivery of water in excess of its Peak Month Average Daily Quantity, its Maximum Daily Quantity, and/or its Annual Average Daily Quantity of its Water Allocation, the Customer shall pay a Conservation Rate as set forth in the Water Rate resolution. During emergency conditions as declared by resolution of the Authority Board, the Authority shall not charge the Conservation Rate for water delivery in excess of the Water Allocation.
- 10.5 Authority Water Transfers Upon execution of this Contract by all Customers, all prior contracts transferring Authority water between any of the Customers shall terminate. All Authority water transfers shall be provided solely through the Authority. Notwithstanding the termination of the Water Sale and Purchase Agreement between Charlotte and Sarasota pursuant to this paragraph, both Charlotte and Sarasota hereby reserve and do not in any

manner waive any rights or causes of action that one may have against the other with regard to any past due obligations or debts arising out of said Water Sale and Purchase Agreement to be resolved pursuant to Section 4.1.6. As part of the New Water Supply Demands process set forth below, each Customer shall annually provide to the Authority its projected Authority Water Demands for the next twenty (20) years. The Authority shall then determine the total Customer demands for Authority Water. The Authority shall determine the difference between each Customer's Water Allocation and projected water demands for the next ten (10) years on an annual basis. By February 15 of each year, the Authority shall provide each Customer with a Notice of Available Water indicating the amount of Water Allocation, if any, above the Authority's projected water demands for each of the next ten (10) years. Each Customer shall file a response with the Authority within thirty (30) days of receipt of the Notice of Available Water, either accepting the Available Water quantities as determined by the Authority or providing alternative Available Water quantities, if any, for each of the next ten (10) years. Failure of a Customer to respond within thirty (30) days shall result in that Customer's Available Water quantity as determined by the Authority being transferred into the Redistribution Pool. Nothing herein shall be construed to require any Customer that timely responds to the Notice of Available Water to provide any of its Water Allocation to the Redistribution Pool. The Redistribution Pool shall be maintained by the Authority to provide the amount of Available Water, by Contract Year, for up to ten (10) years. Each year shall have a separate Redistribution Pool of water quantities designated. A receiving Customer's failure to pay for water transferred from the Redistribution Pool shall be treated as a default of this Contract. The Authority shall not transfer more water than the amount of Available Water placed in the Redistribution Pool. Nothing in this Section shall relieve a Customer from the irrevocable commitment to pay for its Water Allocations in this Contract.

10.5.1 Assignment and Payment The Authority shall assign the Available Water based upon Customer request and written confirmation by their governing body of the corresponding payment obligations under this Contract. Customers may request Available Water from the Redistribution Pool for the corresponding timeframe of their need for additional water. If there is more

demand for water than there is Available Water in a given year the Authority shall distribute the water on pro rata basis based on the proportionate Customer demand in the New Water Supply Demands for the year at issue

10.5.2 Payment Payment adjustments to the Customers supplying Available Water shall be on a pro rata basis based on the percentage of water supplied to the Redistribution Pools for water sold from each Redistribution Pool

10.5.3 Assessment of Conservation Rate Only for purposes of calculating the assessment of the Conservation Rate the Water Allocation of the Customer(s) receiving the Available Water and the Customer(s) providing the Available Water to the Redistribution Pool will be adjusted by the transferred water quantity

10.6 Water Supply Emergency The Authority and its Customers shall seek the interconnection of the Water Supply Facilities with other water supply facilities in the region and the Authority's Water Supply Facilities for the purpose of facilitating the transfer of water among the Authority and the Customers under emergency conditions. The Authority and its Customers shall make available capacity if any in their respective Water Supply Facilities to the Customers experiencing a Water Supply Emergency at the established rate of the supplying entity. In a Water Supply Emergency Conservation Rates including block rates or excess demand charges of any type shall be waived by all Parties to this Contract for the duration of the declared Water Supply Emergency.

11 FUTURE WATER SUPPLY PROCEDURE It is the intention of the Parties that this Section set forth the manner in which each Customer will request and the Authority will provide future water supply from the Authority Water Supply Facilities. The Customers acknowledge that a procedure is necessary to provide the Authority with sufficient lead time for planning and development of new Water Supply Sources to meet New Water Supply Demands.

11.1 No later than January 15th of each Contract Year each Customer shall submit to the Authority a report which identifies the following

- (i) Total projected water demand by Contract Year for the next 20 years (Total 20 Year Demand)
- (ii) That portion of the Total 20 Year Demand the Customer requires the Authority to fulfill (Authority Supplied Water) in terms of Annual Average Daily Quantity Peak Month Average Daily Quantity and Maximum Daily Quantity and
- (iii) The basis for each projection

The Authority shall review coordinate and compile the submitted Total 20 Year Demand and Authority Supplied Water and provide such information to all Customers and the Authority Board. The Authority shall also report to the Customers and Authority Board its estimation of water demand projections to be supplied by the Authority for its Customers on an annual basis for the applicable twenty year planning period. The Authority shall use this data as well as other population and water demand data as a basis for the planning and development of new Water Supply Sources to meet New Water Supply Demands. Each Customer may modify its Total 20 Year Demand and projections for Authority Supplied Water with each subsequent annual filing subject to the provisions in this Section.

11.2 By submitting its projections for Authority Supplied Water each Customer is identifying that quantity of water it shall purchase from the Authority in the designated Contract Year. For the initial time period through Contract Year 2013 the New Water Supply Demands as modified at Exhibit C shall be the water each Customer irrevocably commits to purchase from the Authority and the Authority agrees to supply such water. After Contract Year 2013 by submitting its projection for Authority Supplied Water each Customer agrees to purchase and the Authority agrees to supply that quantity of Authority Supplied Water identified in the first seven (7) Contract Years of the Total 20 Year Demand. Each Customer may annually update its Total 20 Year Demand and its projection of Authority Supplied Water. However unless it otherwise has excess water capacity available the Authority shall not be obligated to accept any change in demand for Authority Supplied Water within the upcoming seven (7) Contract Year period. Annually the Authority shall issue an addendum to the Contract to update the New Water Supply Demands table at Exhibit C for the applicable years beyond Contract Year 2013 to reflect the first seven (7) Contract Years of projected demand for Authority Supplied Water by the Customers.

11.3 The parties acknowledge that the planning, permitting and construction of new Authority Water Supply Sources cannot exactly match the annual New Water Supply Demands. Therefore, the Authority will from time to time develop new Authority Water Supply Sources with water quantities that exceed immediate Customer demands. Upon the Authority's determination to develop a specific Water Supply Source, the Authority shall assign a proportionate share of the new Water Supply Source Water Allocation to the Customers to the extent practicable by applying the new Water Supply Source project quantity to the most immediate New Water Supply Demands. The Authority shall assign Water Allocations to the Customers pro rata based on their proportionate New Water Supply Demands at the time when the new Water Supply Source Water Allocation would be fully utilized by the total New Water Source Demand. For example, in year 2006, the Authority designates a new Water Supply Source project for 6 MGD to provide water by 2008. The total of New Water Supply Demands does not exceed 6 MGD until 2010, when it is 6.7 MGD. The Water Allocation assigned by the Authority to Customer A for the 6 MGD project is calculated by taking Customer A's New Water Supply Demand of 2.3 MGD for 2010 divided by the total of all the Customers' New Water Supply Demands of 6.7 for 2010 to determine the Customer Water Allocation Cost Percentage of 34.33%. When the Authority approves a new Water Supply Source project, it shall issue an addendum to the following: (1) to increase and update the Water Allocation table at Exhibit B; (2) to update the Cost Allocation Percentages table at Exhibit F to show the new project's cost allocation percentages; and (3) to update the table at Exhibit H to show the new project water quantity allocation. The Customers may only be assigned a Water Allocation for their New Water Supply Demands. All costs associated with a new Water Supply Source project, including but not limited to planning, design, and construction, shall be recovered from the Customer receiving the Water Allocations of the new Water Supply Source project.

12. DESOTO DESIGNATION OF THE AUTHORITY AS ITS EXCLUSIVE PROVIDER OF WATER. Notwithstanding the foregoing and pursuant to Section 8.1 of the Second Amended Interlocal Agreement, DeSoto elects to be an Exclusive Provider. Customer DeSoto agrees not to develop any additional Water Supply Sources beyond those currently existing identified in Exhibit I, unless as a joint project with the Authority. If DeSoto meets its payment

obligations to the Authority the Authority shall have the absolute and unequivocal obligation to develop and provide adequate potable water for DeSoto based upon its permissible future potable water demand as outlined herein. The Authority is free to meet DeSoto's water demands by any means it deems fit including but not limited to using water from the Redistribution Pool or assignment of Water Allocation to meet DeSoto's demands and assigning the associated cost of constructing that portion of new Water Supply Sources to DeSoto as outlined herein.

12.1 Exclusive Provider Customer Water Allocation DeSoto and the Authority agree that the current Water Allocation system must be adapted to assure that the Authority maintains its absolute and unequivocal obligation to provide adequate potable water for DeSoto and still assure that DeSoto pays its fair share of new water source development costs. For New Water Supply Demands DeSoto has provided and agrees to continue to provide the Authority water demand projections in the same manner as other Customers pursuant to Section 11; however, the Authority shall use DeSoto's projections as well as other data collected by the Authority to set DeSoto's New Water Supply Demands for each Contract Year. DeSoto shall provide water demand projections in good faith and the Authority shall use its best efforts to match DeSoto's water demand to its assigned Water Allocation. This Water Allocation shall be used to determine DeSoto's Base Rate Charge and other share of costs in the same manner as all other Customers. Nothing in Section 12 shall allow the Authority to assign all or any portion of another Customer's Water Allocation to DeSoto.

12.2 Exclusive Provider Customer Water Allocation for the Redistribution Pool The Authority may designate any portion of the DeSoto's Water Allocation as part of the Redistribution Pool.

13 **ALTERNATIVE DELIVERY** The Authority shall consider alternative delivery such as design build when developing new Water Supply Sources including the REP.

14 **REFUNDING THE PRO BONDS** The Authority shall issue Obligations to refund any and all debt outstanding and provide for the rights of bond holders for the PRO. Such refunding obligations shall be issued in an amount sufficient to provide for the payment of the principal or redemption premium, if any, and interest on the outstanding debt to be refunded.

15 **SUPERSEDING AND REPLACING ALL PRIOR WATER SUPPLY CONTRACTS** Upon full execution of this Contract and payment described in Section 14 this Contract shall supersede and replace the Amended Peace River Option Water Supply Contract dated March 8 1996 Upon full execution of this Contract this Contract shall supersede and replace all other water supply contracts with the Authority including but not limited to the Peace River Option Water Supply Contract dated September 20 1995 the Peace River/Manasota Regional Water Supply Authority/City of North Port Florida dated May 30 1991 Peace River Water Supply Contract dated May 21 1991 and the Acquisition Agreement dated May 15 1991

16 **WATER RATE** For each Contract Year each Customer with a Water Allocation from the Regional Water System shall pay the Authority the Water Rate adopted by resolution of the Authority Board

16.1 **Rate Setting** In conjunction with the Authority's annual budget development and adoption process the Authority shall fix a Water Rate consisting of the Base Rate Charge (adjusted as necessary for customer financing) DeSoto Payment, and Water Use Charge to be paid on a monthly basis by the Customers for water furnished by the Authority The Authority shall charge and collect rates that are reasonable and just for all Customers The rates are not subject to the supervision or regulation by any other commission board bureau agency or other political subdivision or agency of the county or state Unless a common rate is established for all Debt Service Cost components of the Authority Water Supply Facilities in determining a Customer's Water Rate the Authority shall allocate to each Customer a Base Rate Charge as follows (1) the Base Rate Charge for 12 MGD 1991 Facility known as the Peace River Regional Water Treatment Facility pursuant to the 1991 Facility percentages set forth on Exhibit F (2) the 6 MGD PRO shall be allocated pursuant to the PRO percentages

set forth on Exhibit F and (3) the Base Rate Charge for the 14.7 MGD REP shall be allocated pursuant to the REP percentages set forth on Exhibit F. All Debt Service Cost for new Authority Water Supply Sources and other costs associated therewith such as reserves coverages expansion of existing water supply or the fixed water purchase costs associated with a new Water Supply Source shall be combined with the REP Debt Service Cost for the common Debt Service Cost in the Water Rate. Provided however any Customer has the right to carry its own financing or pay in advance for their portion of a new Water Supply Source or expansion of the Authority Water Supply Facility and in such event the Debt Service Costs component of the Water Rate shall be adjusted accordingly.

16.2 Customer Financing Each Customer shall have the option to issue their own debt or pay with its available money with respect to its portion of any new Authority Water Supply Source. The entire payment for a Customer's proportionate share shall be made to the Authority within fourteen (14) days of the Authority bond closing. The Authority shall provide notice to all Customers of the Authority bond closing date thirty (30) days prior to the Authority bond closing. To the extent not inconsistent with the Financing Documents the Base Rate Charge for a Customer who issues its own debt or pays in advance for any such new Water Supply Source (including the REP) shall be adjusted to remove that Customer's Debt Service Costs attributed to the Customer's Water Allocation corresponding to the payment by the Customer for that new Water Supply Source or expansion.

16.3 Accounting, Audits and Adjustments The Authority shall maintain accounts and records for all funds received and disbursed by it with respect to the Authority Water Supply Facilities in accordance with generally accepted accounting practices applicable to governmental owned and operated water utilities. On an annual basis the Authority shall

provide for an audit to be conducted by a recognized certified public accounting firm experienced in water utility audits

16.4 Joint Authority and Customer REP Review and Oversight Each Party shall designate a staff representative for a joint Authority and Customer committee for the review and oversight of the REP design and construction activities. The Executive Director of the Authority shall be the Authority representative on the committee.

16.5 Water Charge to Customers Each Customer shall pay the Authority its invoiced Water Rate and any applicable Conservation Rate charges on a monthly basis following the calendar month in which the charges were incurred and invoiced. The Customers shall submit payment to the Authority for the monthly charges within thirty (30) days of receipt of the invoice. Failure to pay monies shall create a debt with respect to the non-paying Customer's utility system. A Customer that fails to pay within ninety (90) days after the Authority has mailed its invoice shall be in default pursuant to this Contract. Upon thirty (30) days written notice, the Authority may discontinue delivery of water to any Customer in default for nonpayment and/or may transfer the defaulting Customer's Water Allocation in whole or in part to another Customer in good standing for the remaining term of this Contract.

16.6 Source of Payments Each Customer's obligation to pay any monies due under this Contract does not constitute general indebtedness. Neither the Authority nor the holders of any obligations issued by the Authority in order to finance or refinance the expansion, alteration, improvement, replacement or operation of the Authority Water Supply Facilities shall have a right to require or compel any Customer to exercise its ad valorem taxing power to pay its obligations and liabilities under this contract or to compel payment from any source other than as indicated in this Section. Each of the Customers, however, shall and do hereby

covenant to set water rates for its respective customers at a level sufficient to pay all monies due the Authority under this Contract

16.7 DeSoto Payment The Authority shall collect from its Customers in accordance with Exhibit A the DeSoto Payment and remit it to DeSoto. If the quantities of water allocated to the Authority under SWFWMD Water Use Permit Number 2010420-01 issued in 1996 for 32.7 MGD annual average water use are modified or if additional entities become Customers of the Authority, then the amount of the DeSoto Payment to be paid to DeSoto shall be readressed by all Parties to this Contract.

17 **FUNDING FOR MANAGEMENT AND PLANNING** It is acknowledged that Management and Planning Costs of the Authority may be obtained from the Customers in a manner determined by the Authority Board, and that additional funds available for Management and Planning Costs shall be sought by the Authority from the federal and state government, including but not limited to the Florida Department of Environmental Protection, Florida Department of Community Affairs, the Southwest Florida Water Management District, the Basin Boards of the Southwest Florida Water Management District, and appropriate utilities and agencies.

18 **PAYMENT TO CHARLOTTE FOR OVERSIZED FACILITIES** Pursuant to prior contract provisions, payment is due to Charlotte for certain oversized facilities. Any Customer may prepay its portion of the Charlotte Oversized Facilities Payment directly to Charlotte, but must elect to do so on or before October 15, 2005, with immediate notice to the Authority and payment to Charlotte by November 30, 2005.

18.1 Payment for Oversized Facilities for the PRO The PRO oversized facility payment was made to Charlotte in the amount of \$3,191,883.00. When the PRO bonds are refunded, Customers other than Charlotte are to pay the Debt Service Cost on the remaining financed portion of the \$3,191,883.00.

with Sarasota paying 87.5% and DeSoto paying 12.5%

- 18.2 Payment for Oversized Facilities for the REP The Authority shall pay Charlotte all remaining oversized facility charges totaling \$3,287,098.00 upon closing of the bond issuance for the REP. This payment is calculated as the total oversized facility charge of \$4,515,864.00 less Charlotte's portion of 27.21% of the REP allocation percentage from Exhibit F or \$1,228,766.00. All obligations to Charlotte for oversized facilities payment set forth in all previous contracts or agreements including but not limited to the Peace River Water Supply Contract dated May 21, 1991, the Amended Interlocal Agreement creating the Peace River/Manasota Regional Water Supply Authority dated May 21, 1991, and the Acquisition Agreement dated May 21, 1991, shall be satisfied upon receipt of the payment by Charlotte of the \$3,287,098.00. The REP oversized facilities payment is to be paid by Customers other than Charlotte and shall be based on the Debt Service Cost associated with the financed portion of the oversized facilities payment to Charlotte of \$3,287,098.00 for the REP and shall be allocated with Sarasota paying 85.62%, North Port paying 13.28%, and DeSoto paying 1.1%.

19 **PAYMENT TO CHARLOTTE FOR PEACE RIVER REGIONAL WATER TREATMENT FACILITY ("1991 FACILITY")** Upon payment of the \$3,287,098.00 specified above, the Authority's total debt to Charlotte for the transfer from Charlotte of the 1991 Facility shall be \$18,299,274.17 with the Authority annually paying \$1,971,557.00 in equal installments on a monthly basis with the last payment being on October 1, 2021. The redemption of this debt shall be governed by Exhibit J. The Authority's payment to Charlotte for the 1991 Facility shall be allocated among DeSoto, Charlotte, and North Port pursuant to the 1991 Facility cost allocation percentages set forth on Exhibit F. This payment schedule shall supersede and replace any prior agreement, contract, or other document for any payment or obligation to Charlotte for transfer of the

1991 Facility or any other assets real estate facilities or any other property or service to the Authority prior to the date of this Contract

20 NORTH PORT PAYMENT TO CHARLOTTE Pursuant to the Peace River/Manasota Regional Water Supply Authority/City of North Port Florida Water Supply Contract dated May 30 1991 Charlotte reserved water capacity for a period of time for North Port North Port was then obligated to repay the cost of the water reservation to Charlotte Payment by North Port through the Authority to Charlotte has been made since 1992 at a monthly amount of \$398 42 Since the Master Water Supply Contract supersedes the Peace River/Manasota Regional Water Supply Authority/City of North Port Florida Water Supply Contract dated May 30 1991 this North Port obligation is established in this Contract North Port shall pay the Authority \$398 42 monthly with the last payment on October 1 2021 The Authority shall pass through the payment being made to Charlotte each month

21 TRANSFER OF DESOTO FACILITY Provided a transfer agreement is executed by DeSoto and the Authority the Authority shall pay DeSoto \$800 000 00 for DeSoto to transfer to the Authority the real property and water well appurtenances and any necessary permits for use of the water well and specified facilities in place identified in the transfer agreement This payment from the Authority shall be funded from REP Debt Service Cost The payment to DeSoto will be in the form of a credit for DeSoto's payment obligation pursuant to the DeSoto County Regional Pipeline Extension Amended Pipeline Agreement dated June 21 2004

22 DEVELOPMENT OF FUTURE WATER SOURCES The Authority and its Customers shall develop new Water Supply Facilities as follows

22.2.3 If no agreement is reached within forty five (45) days of notification of denial, the Authority and the Customer shall participate in mediation, the costs of which shall be equally divided between them. The Authority and the Customer shall endeavor in good faith to select a mutually acceptable mediator. If the Authority and the Customer are unable to mutually agree on a mediator within fourteen (14) days after the staff meeting held pursuant to paragraph 22.2.2, the Authority and the Customer shall agree to accept a mediator selected by the Florida Conflict Resolution Consortium. Upon the selection of a mediator, the Authority and the Customer shall schedule mediation to occur within fourteen (14) days. Mediation shall be completed within forty five (45) days of the first mediation conference unless extended by mutual written agreement of the Authority and the Customer. Subsections (b), (c), (d), and (e) of Rule 1.720 of the Florida Rules of Civil Procedure are applicable to the mediation proceedings. Designees of the Authority and the Customer attending the mediation shall include a governing body member who has the full authority to negotiate on behalf of its entity and to recommend an agreement to its governing body. In the event of any breach or failure to perform mediation under this section, the Authority or Customer may seek appropriate remedies to mandate this mediation process.

22.2.4 If consent to the Authority by a Customer is not agreed to at the mediation, the Authority shall withdraw the Permit application or request for Permit transfer.

22.3 Procedure for the Authority's Customers Whenever a Customer (Applicant Customer)

intends to apply or seek the transfer of a Permit for Water Supply Facilities located or that will be located within the jurisdiction of another Customer the Applicant Customer shall provide written notification of its intention to apply or seek the transfer of a Permit for Water Supply Facilities to the Customer (Host Customer) in whose jurisdiction the Water Supply Facilities are located or will be located Such notification shall be given no less than sixty (60) days prior to submitting the Permit application or requesting the Permit transfer The Host Customer shall notify the Applicant Customer within sixty (60) days of its decision to grant or deny consent to the Applicant Customer to acquire develop construct or operate the Water Supply Source within its jurisdiction If a Host Customer denies consent the Host Customer s notification shall provide an explanation of the reasons for denial The Applicant Customer shall immediately withdraw its Permit application or request for transfer of a Permit upon notification of denial by the Host Customer

23 HYDRAULIC CAPACITY ENTITLEMENT IN REGIONAL TRANSMISSION

SYSTEM Each Customer shall be provided its respective Hydraulic Capacity Entitlement of the hydraulic capacity in the transmission facilities that has been constructed at the time of execution of this Contract or will be constructed by the Authority during the term of this Contract for the benefit of such Customer(s) to deliver potable water from the Regional Water System to the respective Customer(s) Delivery Point Each Customer s Hydraulic Capacity Entitlement percentage or amount in the current Regional Transmission System is set forth on Exhibit E A Customer s Hydraulic Capacity Entitlement in segments of the Regional Transmission System constructed after the date of this Contract will be determined on a transmission line segment basis by the Authority All Hydraulic Capacity Entitlement Cost of the Hydraulic Capacity Entitlement will be the sole responsibility of the Customer(s) benefiting from such facilities If more than one Customer uses the

same transmission segment as designated by the Authority then each shall pay their proportionate share of the Hydraulic Capacity Entitlement Cost

23 1 In the event a Customer requests capacity in a transmission line segment that is an existing component of the Regional Transmission System and the capacity percentage of which has been fully allocated the Authority shall not grant capacity to the requesting Customer without first obtaining approval from the Customer(s) to whom the hydraulic capacity in that transmission line has previously been allocated In the event the Authority modifies the Hydraulic Capacity Entitlement the application of all future service rates and charges will be adjusted accordingly

The Authority shall own and maintain the meters at all Delivery Point(s). The Authority shall maintain complete and accurate records of its water measurements. Water flow measurements recorded by the Authority shall be the exclusive means of determining the quantity of water delivered to the Delivery Point(s) under this Contract. The metering equipment shall be of standard make and type installed at a readily accessible location and shall record flow with accuracy sufficient to meet all applicable reporting requirements. The Authority will check the accuracy of the meters annually, provide a report regarding the condition, accuracy and state of the meters and provide for a certified calibration test and any appropriate recalibration. Upon request and at the expense of the Customer, the Authority shall make arrangements for a meter test to be conducted by an independent testing facility who shall conform to the manufacturer's standards and where appropriate conduct the test as a field test. The Customers may be present when the meters are checked for accuracy and the test records shall be made available for inspection by the Customers upon reasonable request. If the accuracy of the meter is determined to be at least four (4) percent beyond the limits prescribed by the manufacturer, the meter will be assumed to have been inaccurate from the mid point of the time since the last annual inspection or the last calibration or the last independently certified test or the last six (6) months whichever is less. The following month's billing will be adjusted taking into account the nature of the inaccuracy to show a credit or additional charge to the respective Customer for the metered flow for that period.

24.4 Permits The Authority shall use its best efforts to obtain all Permits necessary to provide

the Customers with water in accordance with the Water Allocations New Water Supply Demands and its duty to its Exclusive Provider Customer(s)

24 5 Financing the Authority Water Supply Facilities The Authority shall use its best efforts to borrow funds and to set adequate reserves and budgeted expenditures necessary to cover costs to be incurred in constructing acquiring operating maintaining repairing replacing or upgrading the Authority Water Supply Facilities

25 7 Cooperation on Issuance of Authority Obligations Each Customer shall cooperate with the

Authority in issuance of the Authority's Obligations. In such connection, each Customer and the Authority shall comply with reasonable requests of each other and will, upon request, do as follows: (i) make available general and financial information about itself; (ii) consent to publication and distribution of its financial information; (iii) certify that its general and financial information is accurate, does not contain any untrue statements of a material fact, and does not omit a material fact necessary to make the statements in the information, in light of circumstances under which they are made, not misleading; (iv) make available certified copies of official proceedings; (v) provide reasonable certifications to be used in a transcript of closing documents; and (vi) provide and pay for reasonable requested opinions of counsel as to the validity of its actions taken in respect to and the binding effect of the Second Amended Interlocal Agreement and this Contract, and pending litigation which could materially affect its performance hereunder. Each Customer shall provide the Authority reasonable assurance that no actions taken by it shall adversely affect the exclusion from gross income of interest on the Authority's Obligations for purposes of federal income taxation. Each Customer covenants to assist the Authority in any reasonable manner with respect to the issuance of such Obligations, including but not limited to participation and assistance with any court proceeding seeking to validate the Obligations pursuant to Chapter 75, Florida Statutes.

- 25.8 Payment for Obligations. If a Customer defaults on the payment of its Water Rate established pursuant to this Contract, each non-defaulting Customer shall have the option to take the defaulting Customer's pro rata share (based on each Customer's percentage of the total Water Allocation of the Authority) and corresponding payment obligation of the defaulting Customer's Water Allocation within sixty (60) days of notice of the defaulting

Customer's Water Allocation from the Authority. If any of the defaulting Customer's Water Allocation remains after the expiration of sixty (60) days notice period, then each non defaulting Customer may by mutual agreement with the Authority take any or all of the remaining Water Allocation and corresponding payment obligation created by the default. Any portion of the defaulting Customer's Water Allocation that remains unallocated shall be added to the Redistribution Pool or designated as Authority water capacity; however, these actions shall not relieve the defaulting Customer of its payment obligation to the Authority.

26 PLEDGE OF CONTRACT REVENUES The Authority may pledge any payments, interest or other income or revenues derived under this Contract for the purpose of securing any revenue bonds issued by the Authority to finance the REP and new water supply projects of the Authority Water Supply Facilities.

27 NORTH PORT'S OPTION TO BECOME A MEMBER If the Authority pursuant to the process set forth in the Second Amended Interlocal Agreement adds a municipality as an Authority Member Government, then North Port at its option may become a member of the Authority upon the same terms and conditions as the new municipality member. North Port must exercise its option within thirty (30) days of the effective date of the amendment to the Second Amended Interlocal Agreement adding the new municipality as a member.

28 IMPLEMENTATION AGREEMENT An Implementation Agreement dated March 8, 1996 was entered into by the Authority and Charlotte that provides, in part, that no further expansion of the Peace River Regional Water Treatment Facility beyond the PRO can be implemented without the Southwest Florida Water Management District setting the Minimum Flow and Levels for the Peace River, Charlotte, without waiving the application of the Implementation Agreement to any further expansion of the Authority Water Supply Facilities beyond the REP, agrees

not to apply the provision of the Implementation Agreement to the development construction or operation of the REP. However, the Implementation Agreement applies to any further expansion of the Peace River Regional Water Treatment Facility beyond the REP, and it requires that before any further expansion is implemented, Minimum Flows and Levels must be set for the Peace River or the Authority must complete a Section 403.412, Florida Statutes, action including an appeal of an adverse ruling of the lower tribunal against the District to require it to set Minimum Flows and Levels for the Peace River.

29 RE-RATING REGIONAL WATER SYSTEM To the extent that any component of the Regional Water System is re-rated or treatment capacity is modified with the appropriate regulatory agencies (either an increase or decrease in capacity), then each Customer's corresponding Water Allocation will be adjusted pro rata on a basis consistent with the Cost Allocation percentage of each Customer. The Authority agrees not to initiate a re-rating process with the intent to reduce System Capacity. For example, a Customer with a Water Allocation of 10% would receive an increase in Water Allocation of 100,000 gallons per day for a 1,000,000 gallon per day re-rating increase. To the extent that the re-rating of the Regional Water System results in the incurrence of additional capital expenditures, the Authority will notify the affected Customers of such expenditures. The expenditures required for and the associated re-rating will be allocated proportionately pursuant to the Water Allocation percentage unless any Customer(s) decide not to participate in the cost and associated benefits of the re-rating. If a Customer does not participate in the re-rating, then the change in Water Allocation and the expenditures will be allocated pro rata to the participating Customers in accordance with their Water Allocation. All expenditures associated with re-rating will be the responsibility of the participating Customers and are to be paid to the Authority in accordance with the Contract. To the extent any increase in Water Allocation is not

allocated to the Customers it shall be transferred to the Redistribution Pool

30 **DEFAULT AND REMEDY** Recognizing the region's paramount need for a safe and dependable source of water supply the Parties agree this Contract may not be terminated prior to the normal expiration date specified in Section 2 and the remedy for a breach of the Contract shall be specific performance injunctive relief and any other equitable relief as well as monetary damages

Regional Expansion Program Proposed Project Plan

Authority Water Supply Facilities Overview

The Authority Water Supply Facilities located in DeSoto County provide public drinking water to residents of Charlotte DeSoto and Sarasota counties. The facilities allow for the use of surface water to alleviate further stress on groundwater supplies and resultant degradation in the Southern Water Use Caution Area (SWUCA).

The Regional Expansion Program (REP) is to build out the Authority Water Supply Facilities to its existing water use permit (WUP) capacity and intended to meet water demand in the Authority's system service area as detailed in Figure A attached. The issuance of the WUP in 1996 provides for expansion of the Authority Water Supply Facilities to meet an anticipated demand of 32.7 million gallons per day (MGD) by the year 2016. The permit includes future water quantities to meet the needs of Charlotte DeSoto and Sarasota counties and the City of North Port.

The Authority Water Supply Facilities have a current delivery capacity to supply 18 MGD of water and is located next to the Peace River in southwest DeSoto County. The Authority Water Supply Facilities utilizes the Peace River as a primary source and integrates the use of an off stream reservoir for raw water storage and aquifer storage and recovery (ASR) wellfield for treated water storage. The reservoir and ASR wellfield are used for source supply when river flow is below minimum limits for withdrawal or when river water quality is poor.

PROJECT Description

The existing water treatment plant capacity is 24 MGD to provide for ASR recharge capacity. The treatment process provides for color removal of surface water including alum coagulation, filtration and disinfection. Build out of the facility to meet projected water demands projected within the WUP of 32.7 MGD by 2016 is proposed by the Authority's Regional Expansion Program. The Southwest Florida Water Management District ('SWFWMD') issued a WUP to the Authority in 1996 that allows for withdrawal from the Peace River to meet a demand of 32.7 MGD. The term of the permit is for 20 years through 2016.

The source of raw water for the Authority Water Supply Facilities is the Peace River. Under the SWFWMD's WUP issued to the AUTHORITY, the AUTHORITY can divert up to 10 percent of the Peace River flow to the Authority Water Supply Facilities when flow exceeds 130 cubic feet per second (cfs). During periods of high flows from the Peace River, raw water is stored in an off stream reservoir and any water after treatment in excess of customers' demand is stored in the ASR wellfield which consists of 21 ASR wells. When the conditions of the Peace River are such that the ability to withdraw from the river is partially or completely eliminated, the off stream reservoir and ASR wellfield are utilized to meet the water supply demands of the Authority's customers.

The Authority's Regional Expansion Program will provide expanded facilities to provide the ability to deliver the total allocation of 32.7 MGD to the Authority's customers. The PROJECT includes expanding the raw water reservoir capacity with a second new off stream reservoir with a capacity of 6 billion gallons, increasing the water treatment plant capacity by 24 MGD and extension of the regional transmission system to serve areas of DeSoto County.

Regional Reservoir Expansion

The existing off stream reservoir capacity is approximately 0.6 billion gallons for the purpose of storing raw water withdrawn from the Peace River. The reservoir is used for raw water supply to the Authority Water Supply Facilities when river flow is below minimum limits for withdrawal or when river water quality is poor. The proposed Regional Reservoir Expansion is to provide approximately 6 billion gallons of additional storage, resulting in a total reservoir storage capacity of approximately 6.6 billion gallons. This storage volume is required to provide a sustainable supply to meet the Authority's customers' demand during dry periods when withdrawal from the Peace River is limited in order to maintain minimum flow to the downstream estuary and Charlotte Harbor.

The new reservoir will be an above-ground basin formed by an engineered earthen embankment approximately 30 feet above existing ground surface. The embankment will consist of compacted fill with a geosynthetic membrane and an impervious water retaining zone within the embankment. A soil bentonite slurry wall will be installed extending from the geosynthetic membrane zone to the underlying clay layer to cut off underseepage beneath the embankment. In addition, an internal chimney drain will be installed to intercept potential seepage through the embankment. A perimeter seepage collection ditch will be constructed at the downstream toe of the embankment to collect and convey seepage. Access to the reservoir will be limited for security reasons.

Mitigation for the reservoir impacts is planned through restoration of the RV Griffin Reserve. This reservoir is the largest surface area that can reasonably be built on the site without the need for off site mitigation of on site wetland impacts.

New piping to pump up to 90 MGD of raw water from the river to the reservoir and piping to transfer water from the new reservoir to the existing reservoir is also included in the project. The PROJECT includes design, permitting and construction of the reservoir expansion, including raw water piping improvement to improve the ability to divert raw water from the Peace River to the Reservoir.

The reservoir expansion will be located on AUTHORITY property and the RV Griffin Reserve owned by the SWFWMD. The land use plan presented in "A Plan for the Use and Management of the RV Griffin Reserve" (SWFWMD November 1996) provides a conceptual siting of a reservoir expansion.

Peace River Water Treatment Plant Treatment Capacity Expansion

The current water treatment plant treatment capacity is 24 MGD. The proposed expansion is anticipated to provide an additional 24 MGD of treatment capacity and result in a total capacity of 48 MGD. The facility expansion is to include raw water pumping (river and reservoir), powder

activated carbon (PAC) contact basins rapid mix flocculation and sedimentation basins filters chlorine contact basins chemical feed systems above ground storage tanks high service pumping backwash recovery basins residual thickening and mechanical dewatering system instrumentation and controls The additional treatment components will be incorporated into the existing treatment scheme and supervisory control and data acquisition (SCADA) system The expansion also includes the construction of an operations center

Improvements to the river raw water pump station will include the addition of new river pumps to increase the installed diversion pumping capacity to 90 MGD consistent with the maximum day withdrawal allowed by the Authority's WUP and construction of a second 48 inch raw water pipeline from the river pumping station to the reservoir site

New pumps will be added to the existing reservoir pumping station to increase the reservoir pumping capacity to a firm capacity of 54 MGD of raw water from the reservoir to the treatment plant A new 30 inch pipeline from the reservoir pump station to the treatment plant is also planned to accommodate the increased capacity of the reservoir pumping station

DeSoto County Regional Transmission System Extension

The DeSoto County Regional Transmission System (RTS) extension will provide transmission of potable water from the Authority Water Supply Facilities to extended areas of DeSoto County The RTS extension consists of approximately 5 miles of 20 inch diameter pipeline from the Peace River Facility to an end point at U S 17 and Enterprise Drive where it connects to the DeSoto County utility system The pipeline route is adjacent to County Road 761 and U S 17 and is entirely within DeSoto County

The RTS is sized beyond DeSoto's need to provide the capacity for potential future expansion of the Authority Water Supply Facilities to locations beyond DeSoto County and future interconnection with other neighboring utilities within DeSoto and Charlotte counties Further interconnection of utility systems would enhance regional supply management and provide the opportunity to rotate and rest sources of supply
