SPECIFICATION #11**

2018 Ford Expedition 4WD (U1G/102A)

The Ford Expedition 4WD (U1G/102A) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$36,140.00	\$36,244.00	\$35,700.00	\$35,997.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

TREM ²	<i>Product Specifications The Anti-Theft system will turn on automatically every time the vehicle shift lever is placed in the "park" position. The system shall not require a key or switch to activate, since quick departures are common in police procedures. This technology enhances 100% usage. With the motor running and the Anti-Theft system activated, the automatic transmission shift lever won't move out of the "park" position. The motor of a parked vehicle with the Anti-Theft system will be capable of starting, but the shift lever won't move out of the "park" position as in #2. The Anti-Theft system shall be deactivated by means of a not easily identifiable covert hidden floor switch system made of rubber material that has no electrical wires to sustain water damage.</i>

FUEL SAVER ¹ BLACRAC ²	Optional equipment - specify <i>Derive Efficiency's fuel economy program is developed to maximize the fuel economy of your fleet. This program contains hundreds of precise changes in key areas of the vehicle calibration. By optimizing these parameters, you can reduce your vehicle's average fuel consumption by up to 12% annually. Speed Limiter: The speed limiter option allows you to set a vehicle's maximum speed. Idle RPM: Idle RPM levels can be reduced by 10%, 20% or 30%. Throttle Response: Optimize the electronic throttle control to moderate acceleration levels. Active Fuel Management: Optimize the various stages of active fuel management (also called displacement on demand), which will active and deactivate cylinders on the fly based on the vehicle's power requirements. Transmission: Optimize the transmission shift points by shifting the transmission at lower engine speed levels and lock the torque converter to rear-wheels at lower vehicle speeds</i> ¹ SETINA BLAC-RAC SINGLE MOUNT: Firearms mounting systems provide easy, quick access to your firearms or less than lethal guns. The modular "T-Rail" technology allows the weapon systems to be easily converted from partition mount to a stand-alone mount by simply adding a base.
