Good afternoon everyone,

Wanted to provide an opportunity for team members to view the completed LMS Tracking Smartsheet and Project List, as well as to briefly show the functionality of using these tools. Everyone should have access to the Smartsheet Workspace that contains the overall tracking sheet, as well as the new Project List. Both can be accessed via the link below:

<https://app.smartsheet.com/workspaces/HQjGpFQP299MvFPRv4MmVmRqX89rjC2v658Fmpc1>

I have already built in filters for the Project List that allows each agency to filter to their own projects. A key benefit for integrating the project list into Smartsheet will be ease of updating and reporting.

If you have any questions please feel free to reach out to me directly. Also, if you cannot make this Teams Meeting and need a brief demo of the Smartsheets please feel free to reach out.
