

Order of Ranking, Parcel Size, and Area Number

Score	Notable Feature	Size	# of Parcels covered	Zone
71.26	Wetlands, within the floodplain, are connected to the Mykaahatchee Creek preserve.	Small		2
70.11	Large area of wetlands, low invasives, Adjacent to city conservation land, within floodplain	Medium		2
70.11	Within the floodplain, Wetlands present, large mature heritage trees, adjacent to the Cosmic waterway	Small		2
68.96	Adjacent to waterway, wetlands, floodplain, potential collaboration with Public Works	Medium		5
67.82	Wetlands are present, adjacent to Myakkahatchee Creek, within the floodplain	Large		2
67.82	Within the floodplain, Wetlands are present, and a neighborhood green space is needed. adjacent to the city retention ditch	Small		2
67.18	Large area of wetlands, Connectivity to NP lake, and waterway	Large		5
65.52	Heritage Oaks, Floodplain, Wetlands, Near Myakkahatchee Conservation Area	Medium		2
64.37	Wetlands, Spring, Historic site	Medium		4
63.22	Within mapped scrub jay habitat- lots of heritage trees	Small	12 Parcels total	1
63.22	Wetlands and floodplain	Medium	2 Parcels	1
60.92	Parcel to connect already city-owned land to the lakes and the Myakkahatchee preserve	Large		2
60.92	Low invasives, Near NP Conservation land and waterway, heritage oaks	Medium		3
59.77	Within mapped scrub jay habitat- lots of heritage trees	Medium	35 Parcels	1
59.77	Wetlands present, need for neighborhood greenspace, close proximity to Blue Ridge Lake	Medium	2 Parcels	3
58.62	Floodplain, Heritage Oaks, habitat connectivity	Medium		2
58.62	Floodplain, Heritage Oaks, habitat connectivity	Medium		2
58.62	Wetlands and floodplains are present. Adjacent to Snover Waterway with hydrological connectivity	Large	2 Parcels	5
58.62	A large pond/wetland is great for wading birds and wildlife. Within the floodplain	Medium		5
57.47	Wetlands and heritage trees	Large		5
57.47	Adjacent to Creighton Waterway, low invasives, neighborhood greenspace, potential gopher tortoise habitat	Large		3
56.32	Significant depression/ wetland connection to conservation land	Small		1
55.17	Wetlands present, adjacent to Littlefield Waterway and retention ditch	Medium		5
50.57	Wetland connection to Deer Prairie Creek and within the floodplain	Medium		1

Order of Ranking, Parcel Size, and Area Number

50.57	Low invasives, within mapped scrub jay habitat	Small		1
48.27	Wetland connectivity to Mykaahatchee	Small	7 Parcels	1
48.27	Many large heritage trees, potential wetlands, gopher tortoise habitat	Small		5
47.13	Functions as a natural green way along the Cocoplum waterway, existing trails	Large		5
47.13	Adjacent to a retention ditch, potential wetland habitat	Small	5 Parcels	5
45.98	Low invasives, potential wetlands, neighborhood greenspace, gopher tortoise habitat	Large	2 Parcels	3
44.83	Heritage trees, Invasives	Large		5
41.38	Heritage trees and Confirmed presence of Historical resources (Midden)	Small		4
40.42	Potential wetlands, adjacent to retention ditch, heritage oak, greenspace.	Small	4 Parcels	5
40.23	Known wetlands, nearby city-owned property, low invasives, Near waterway	Small		5
Definitions of Parcel Size				
Small	0-5 Acres			
Medium	5-10 Acres			
Large	>10 Acres
