WITNESSETH

WHEREAS, section 163.01, Florida Statutes, permits public agencies to provide services and facilities in a manner that will best accord with the needs of local communities; and

WHEREAS, the Florida Constitution and section 30.15, Florida Statutes, authorizes SCSO to provide law enforcement services throughout the geographic limits of Sarasota County, Florida ("COUNTY"), including within each municipality of the COUNTY; and

WHEREAS, the COUNTY and SCSO manage the Public Safety Communications Center ("PSC") located at 6050 Porter Way, Sarasota, Florida 34232 which is the primary 911 public safety answering point ("PSAP") for all 911 calls within the COUNTY; and

WHEREAS, PSC takes all cellular and landline 911 calls within the jurisdictional boundaries of the COUNTY; and

WHEREAS, CITY and NPPD operate a secondary PSAP which receives transferred law enforcement service calls within the jurisdictional boundaries of CITY from PSC; and

WHEREAS, immediate and un-delayed law enforcement and first responder response is an essential component of effective public safety and that seconds matter in the response to a call for help involving an active and imminent threat to life or great bodily harm; and

WHEREAS, section 365.179, Florida Statutes, provides for the development and implementation of dispatch and communications protocols to effect direct radio communication between PSC and the PFRA by executing a written interlocal agreement; and

WHEREAS, in accordance with section 365.179, Florida Statutes, SCSO, CITY, NCFCPD, and AIRPORT (collectively, the “Parties” or individually, the “Party”), desire PSC to have direct radio contact with the on-duty law enforcement personnel of the PFRA without having to first transfer a 911 call via telephone or other law enforcement non-radio communication device to secondary PSAPs for dispatch; and

WHEREAS, PSC, unless incapacitated due to emergency or unforeseen technological reasons, is the recipient of all 911 calls originating within the COUNTY and therefore reasonably receives all 911 calls within the jurisdictional boundaries of the COUNTY.

NOW THEREFORE, the Parties agree as follows:

SECTION I: DEFINITIONS

1. **“E911”** – the short title for section 365.172, Florida Statutes.
2. **“Public agency”** – as defined in E911, means the state and any municipality, county, municipal corporation, or other governmental entity, public district, or public authority located in whole or in part within the State of Florida which provides, or has authority to provide, firefighting, law enforcement, ambulance, medical, or other emergency services.
3. **“Public safety agency”** – as defined in E911, means a functional division of a public agency which provides firefighting, law enforcement, medical, or other emergency services.

5. **“Public safety emergency incident”** means an incident involving an imminent threat to life or great bodily harm or any other emergent situation where a delayed response is detrimental to public and/or officer safety.
6. **“First responder agency”** – as defined in section 365.179, Florida Statutes, includes each law enforcement agency and fire service agency, other than a state agency, and each emergency medical services provider, that is designated as a primary first responder for the service area in which a 911 PSAP receives 911 calls.

1. Pursuant to section 365.179(4), Florida Statutes, the Parties shall authorize all requesting first responder agencies within the COUNTY to install all other first responder agency’s primary

dispatch channel or channels in the requesting agency's PSAP, non-primary dispatch, and/or mobile or portable radios.

2. If any Party to this Agreement receives information regarding an active public safety emergency incident and is unsure of the public agency to which such incident should be directed, such Party shall broadcast the incident location, nature, and any other relevant information to SCSO's primary radio dispatch channel designated pursuant to the terms of this Agreement.
3. Each Party shall train all applicable personnel regarding the procedures and protocols specified in this Agreement. The training shall include radio functionality and how to readily access the necessary dispatch channels in accordance with this Agreement. Training and implementation for existing parties shall be an on-going process and any new officers, deputies, employees, agents, representatives, contractors, or subcontractors whose work relates to this Agreement shall be trained as they are hired.

SECTION III: OBLIGATIONS OF SCSO

1. As the sole provider of law enforcement dispatch within PSC, SCSO shall have all COUNTY PFRA dispatch channels installed within all SCSO dispatch consoles.
2. SCSO shall immediately broadcast 911 communications or any other public safety information over the primary radio dispatch channels of each PFRA under the conditions agreed to by the Parties as set forth herein.
3. SCSO shall, on the patrol dispatch channel designated by each PFRA, broadcast information received via 911 or ten-digit line to the dispatcher of the PFRA, the location, nature, and any other relevant information regarding a public safety emergency incident.
4. Notifications by SCSO on the PFRA designated patrol dispatch channel should be concise and directed to the dispatcher. SCSO may supplement the original information as needed so that responding units have the most current and accurate information to promote public and/or officer safety. SCSO shall maintain primary dispatch functions for all public safety emergency incidents.
5. SCSO, upon notification of a public safety emergency incident occurring within a PFRA's jurisdiction shall immediately consolidate and/or patch the primary talk/dispatch channels designed for such communications to the first responders and dispatchers within said jurisdiction over the service area where the public safety emergency incident is occurring.

6. SCSO shall process all incoming 911 communications to the PSC without transferring to a secondary PSAP during any active public safety emergency incident.

SECTION IV: OBLIGATIONS OF THE PFRA

1. Each PFRA shall designate a channel for SCSO to broadcast notification of all emergencies within the PFRA's jurisdiction, regardless of the location of the emergency in the PFRA's jurisdiction.
2. Upon receiving notification of a public safety emergency incident from the PSC, all PFRA shall dispatch on-duty personnel to the incident (based on the initial notification) as soon as possible.
3. If a PFRA receives information in its dispatch center that meets the criteria in Section III of this Agreement through a ten-digit line or other non-911 source and the incident is located outside of the PFRA's jurisdiction, the PFRA shall provide the information via radio transmission to the SCSO or the PFRA with jurisdiction under the criteria set forth in Section II of this Agreement.

SECTION V: OBLIGATIONS OF NPPD AS THE BACKUP PSAP TO THE PSC.

1. If the PSC shall become disabled, NPPD shall assume the role of the Primary PSAP for the COUNTY.
2. NPPD shall assume SCSO's duties outlined in Section III of this Agreement.

SECTION VI: PSC ROLLOVER CALL PROCEDURES

1. If the PSC is unable to answer incoming 911 communications and the 911 calls become rollover calls that are re-routed to the NPPD, the following shall occur:
 - a. Upon NPPD receiving the 911 call, they shall ascertain the address, nature of the emergency, and phone number of the caller.
 - 1). If the rollover call is for law enforcement services in the jurisdiction of NPPD, NPPD shall retain the rollover call for further processing.
 - b. NPPD shall then attempt to transfer the 911 call to the PSC using the 911 line. If NPPD is unable to transfer the 911 call to the PSC after one minute, NPPD shall notify an NPPD supervisor of the inability to reach the PSC.
 - c. NPPD shall then attempt to contact the PSC over the designated interoperability channel.
 - d. Upon contacting the PSC, NPPD shall provide the PSC with the address, nature of the emergency, and phone number of the caller.
 - e. After the call has ended, the NPPD supervisor shall notify a PSC supervisor within a reasonable amount of time about the rollover call that was received by NPPD and any issues regarding that call.
