

Six Month Impact Statement

Define your non-profits missions/goals?

To provide a safe haven and promote empowerment, awareness, and social change to end domestic and sexual violence. Our organization aims to:

- Create safe environments for survivors of domestic and sexual violence
 - Empower individuals affected by violence through comprehensive support services
 - Raise community awareness about domestic and sexual violence
 - Drive social change to prevent violence and foster a culture of safety and respect
- Align with North Port's strategic pillar of creating and sustaining a safe community.

The Dell workstation funded through this grant has enhanced our ability to serve the North Port community. It has not only allowed our advocate to maintain high levels of service delivery. We are deeply grateful for this support, which has directly contributed to creating a safer community for all residents of North Port.

Thank you for your investment in our mission and the safety of the North Port community.

Indicators or methods used to measure impact?

To evaluate the effectiveness of the new Dell workstation for the North Port Victim Advocate, we utilized the following measurements:

1. Service Provision Metrics:

- Total number of services provided to survivors
- Number of individual survivors served
- Types of services delivered (advocacy, peer counseling, accompaniment, client intakes)

2. Outreach and Education Data:

- Number of community education and outreach activities conducted
- Community engagement through presentations

3. Operational Efficiency:

- Enhanced ability to access real-time shelter bed availability
- Improved data collection and documentation
- Streamlined coordination with community partners

Since receiving the grant funding and implementing the new Dell workstation, our North Port Victim Advocate has achieved the following results:

Service Delivery:

Provided 341 services to 80 individuals in North Port. Services included critical support such as: Advocacy (200); Peer counseling (87); Accompaniment in hospital setting (1); Intakes (53).

Community Education:

- Conducted 7 community education/outreach activities
- Enhanced presentation quality and effectiveness through improved technology

Operational Improvements:

- Streamlined documentation process has improved case management efficiency
- Enhanced technology has supported more effective coordination with community partners
