Section 2: Project Overview

General Project Information

Project Title: NORTH PORT POLICE DEPARTMENT - SRT
Subgrant Recipient: City of North Port
Implementing Agency: North Port Police Department
Project Start Date: 10/1/2020 **End Date:** 6/1/2021

Problem Identification

The North Port Police Department's Special Response Team (SRT) is a highly trained unit that is deployed to coordinate and execute high-risk search warrants, assist with high-risk critical incidents, and to apprehend violent criminal offenders. The SRT team is divided into different components during their deployment which often consist of the following: Incident Command; Exterior Perimeter; Hostage Negotiation; sUAV Operator; Entry Team; Arrest Team; and Search Team. All SRT team members are currently issued lifesaving equipment as well as various use of force tools that include a department approved Colt AR 15 .223 caliber rifle. The North Port Police Department does not currently have a smaller rifle in size and in caliber to issue the members of the Entry Team. A smaller rifle size and caliber would increase the effectiveness of this unit during potential close-quarter encounters when there is an increased risk of confrontation with violent criminal offenders. It is the goal of the North Port Police Department to ensure the tools are provided to achieve the highest level of effectiveness during critical incidents. Therefore, mitigating this area of opportunity will increase safety to the officers, residents, and any potential innocent bystanders.

Project Summary (Scope of Work)

The North Port Police Department is seeking to purchase (6) Sig Sauer MPX 9mm rifles. These rifles have a 4.5-inch barrel length compared to the 10.5-inch barrel length of the Colt AR 15 rifle. Additionally, the Sig Sauer MPX requires a smaller caliber round compared to the Colt AR 15. These rifles will be issued to Entry Team members of the Special Response Team. The purpose of issuing these rifles to Entry Team members is due to the fact the size of the rifle is more effective when clearing the close confines within a residence as compared to a longer-barreled rifle. They provide for an increased maneuverability which increases the level of safety for the officers, residents, and innocent bystanders during a search of a residence. The Sig Sauer MPX 9mm rifles have been tested by members of the Special Response Team (SRT), and team leadership approves of their use. These rifles have a consistent nomenclature with the rifles that are currently issued so officers would not have to learn a new type of weapon system. Lastly, this is a commonly issued tool for SRT Entry Teams and dignitary protective units nationwide.
