

Price Boulevard Resurfacing Project

Price Boulevard resurfacing scheduled for Spring of 2018

The City of North Port's Department of Public Works, would like for you to be aware that Price Boulevard, between Sumter Boulevard and Toledo Blade Boulevard, is going to be resurfaced in the coming months. Work will take place during the overnight hours (7:00pm-6:00am). This is not part of the Price Widening Project.

You are receiving this postcard because you live close to Price Boulevard and may experience noise impacts throughout the resurfacing. Work is anticipated to last 7 business days. Crews will not be working on the weekend. Impacts from the resurfacing operation include prolonged overnight noise between 66-100 decibels, vibrations from machinery and idling dump trucks. If your family or pets are easily affected by loud noise, please make arrangements to have alternate overnight accommodations during the resurfacing project. You will receive a letter before work begins, providing more detailed information about the project and when the resurfacing will be taking place in your immediate vicinity.

Residents who have questions or concerns can call the Department of Public Works at 941-240-8050 or email pwcustservice@cityofnorthport.com. You can also sign up to receive frequent email updates about the project on our website: www.cityofnorthport.com/price.
