Subject: Info for Commission - Revision to Water Treatability Grant Application

Good morning!

When you have a chance, could you let Commission know that as we further developed the Water Treatability CDBG-MIT application for submission last week, we reduced the grant scope from adding two wells and changes to the water

treatment process to only changes to the water treatment process? This reduced the total project amount to \$6,000,000 (\$4,500,000 from the grant and \$1,500,000 match from the city).

Thank you! Have a good day today.

Val
