On 02/16/2022 I responded to the above location, Warm Mineral Springs, regarding a trespass warning. When I arrived I met with the caller and manager, Cameron Opelt.

Cameron advised that Ivan Shkrobut was in the gift shop causing a disturbance and refusing to leave. Cameron stated that Ivan was demanding a refund because he did not know the park was closing at 1700 hours. Cameron explained to Ivan that there are no refunds or rainchecks given and wished that he be trespassed. Cameron stated Ivan was never physical with him or his staff, just very verbally abusive.

I then spoke to Ivan who advised he just wished to speak to a manager about the situation and that he was not advised of the closing hours to the park. Ivan was notified that he was trespassed from the property and not to return or else he would face criminal charges.

Ivan was given a copy of the Public Property Trespass and advised on how to appeal this through the City. Ivan stated he understood and stated he would do so and not return to the property.
