CAPITAL IMPROVEMENTS ELEMENT

The Five-Year Schedule of Capital Improvements is revised annually and adopted by the City Commission, by ordinance. The document addresses the facility types required by the Level of Service provisions of Florida Statutes. The Capital Improvements Projects list is also updated annually to reflect a rolling five-year schedule of capital improvements by incorporating the previous year as part of the prior funding and by replacing the last fiscal year with a future fifth year. As new projects are added to the CIP project list during the annual update, adjustments may be made in the funding or timing of projects already in the project list, thereby permitting continual adjustment to changing conditions and needs.

The most recently adopted Capital Improvement Project list of the CIP is shown in the following Table 10-1, and will be renewed annually. Policy 1.1 (criteria for CIP projects) and Policy 1.2 (regulatory Level of Service (LOS) standards) used by the City to evaluate projects during the annual update.
