DEPARTMENT/DIVISION Public Works / Road and Drainage

NAME OF REQUESTOR Garrett Woods

NAME OF PREPARER Garrett Woods

DATE COMPLETED 10/17/2022

The City shall not be bound by any transactions made contrary to procurement procedures.

For the Procurement Official to process a requisition or visa purchase request related to an **emergency or exigent purchase**, this form must be completed and submitted by the requesting party to Purchasing with the request. **THE CITY MANAGER MUST BE NOTIFIED IMMEDIATELY (VIA EMAIL/PHONE), FOLLOWED BY THE PURCHASING DIVISION.**

*When referring to procurement activity, FEMA defines both **exigency and emergency** as situations that demand immediate aid and action. The difference between the two is as follows:*

*In the case of an **exigency**, there is a need to avoid, prevent or alleviate serious harm or injury, financial or otherwise, to the applicant, and use of competitive procurement proposals would prevent the urgent action required to address the situation. Thus, a noncompetitive procurement may be appropriate.*

*In the case of an **emergency**, a threat to life, public health or safety, or improved property requires immediate action to alleviate the threat.*

**Emergency or Exigency** (in accordance with FEMA guidelines, must specify, see definitions above):

EMERGENCY

Name of Event (if applicable): Hurricane Ian

Project Number for Event (if applicable): IAN22

- A. Description of Item(s) Purchased and Detailed Circumstances of the Emergency or Exigency Purchase/Service:** Must answer who, what, when, where, why and how in the box below or separate memo. (Attach quote back-up).

The Department of Public Works Infrastructure and Facilities Division is in need of emergency services to repair a damaged infrastructure asset in response to Hurricane Ian. A road segment located on Chancellor Blvd has experienced significant damage leading to the closure of this vital arterial roadway. The repair has a direct immediate impact to the health, safety and welfare for our occupants and visitors that travel on Chancellor Blvd. In summary, this road segment supports traffic on Chancellor Blvd and has developed emergency reconstruction needs due to damaged infrastructure which is undermining the structural integrity of the asset. Staff did reach out to another Emergency contractor who does local earthwork, pipe, and transportation contracting but they were not able to provide an estimate or mobilize to address this emergency repair.
