**Re: Request for Bid: RFB 2019-70**  
**Biosolids Hauling, Disposal and Back-up De-Watering**

Dear Ladies and Gentlemen:

Synagro South, LLC (Synagro) is pleased to respond to the City of North Port's Request for Bid for the hauling, disposal and temporary de-watering of biosolids. We have enclosed for your review our completed bid forms and requested information.

Synagro, through our long term relationship, is intimately familiar with the Waste Water Treatment Plant operations for the City and believes strongly that we would be the best choice to provide the requested services. **Synagro firmly believes that no other proposer to the City of North Port can match the overall depth of financial strength, personnel and equipment capabilities of Synagro in Florida.** In addition to the eight (8) Centrifuges, and numerous trucks and trailers Synagro has available in Florida the company has additional resources throughout its operating area (36 States) that can be mobilized to provide services if required.

In addition to our equipment capabilities our Charlotte County Bio Recycling Center (CCBRC) offers a totally "green solution" through beneficial reuse of your biosolids. In the 5 years we have been in operation we have experienced no public adversity or FDEP violations. We believe that this gives the City of North Port a high level of comfort and confidence that your biosolids are being managed in an appropriate and environmentally sound manner. Given the current regulatory environment regarding biosolids in Florida today that is a definite strong point to our offer.

We are very proud of the past record of performance with the City of North Port and look forward to continuing the partnership that we have developed over the years.

Our philosophy through our years of experience of providing biosolids services to over 600 municipal and industrial customers is building and maintaining strong partnering relationships

and providing quality, safe, compliant services at reasonable and competitive prices. We trust that our response to your Request for Bid will evidence our commitment to that philosophy.

At present Synagro maintains over 35 contracts in the State of Florida with Cities, Counties and Industrial customers providing a wide array of biosolids services that include dryer operations, dewatering, hauling, land application and disposal. We place a high value on customer satisfaction as well as safety and environmental compliance. We pride ourselves in the levels of success we have achieved in these areas throughout our years of operations in the State of Florida.

Our commitment to the Florida market has been long standing. We were the first company to introduce mobile centrifuges to the challenge of reducing volumes and reducing transportation costs. Synagro maintains its fleet of eight (8) mobile centrifuges in the State of Florida to insure that we can respond to the total needs of all our valued customers. Competitors over the years have attempted to provide similar services only to fall short in the execution due to limited financial strength, quantity and quality of equipment and highly trained personnel resources. Synagro is ready now and will be ready in the future to meet the needs of the City of North Port.

We thank the City of North Port for its consideration of Synagro for this important task. We are committed to maintaining and continuing our strong partnering relationship with the City and providing the quality services you've come to expect.

If you have any questions regarding our submittal or require any additional information, please feel free to contact me at (813) 285-0680 or [mwolfe@synagro.com](mailto:mwolfe@synagro.com). We look forward to hearing from you soon.

Sincerely,

*Michael Wolfe*
