Why do you desire to serve on the above Board/Committee? Please list any relative experience, if applicable.

I have served on Boards for a couple of organizations before and I enjoy the process of refining things to improve the function of an organization. I have been in the area for about 37 years and have seen and been a part of the development of the City of North Port as an engineer. I understand numbers as being an engineer that is one of my main jobs.
