

This document certifies Zonar Systems, Inc. is the sole supplier of the Electronic Vehicle Inspection Report (EVIR®) system. EVIR uses RFID technology to verify drivers exit their vehicles and are physically present at each inspection zone around the vehicle, while completing required inspections.

This patented system captures, transmits, and records vehicle inspection, compliance, and maintenance data. Required pre- and post-trip inspections are automated and verified using Zonar's patented EVIR technology. Zonar's EVIR eliminates errors, inefficiencies, and risks inherent in other vehicle inspection methods. The design and engineering of this product was invented by Zonar and has been solely marketed by Zonar since its inception in 2001. EVIR is protected under at least the following U.S. Patents: Patent No. 6,671,646, Patent No. 6,804,626, Patent No. 7,117,121; Patent No. 7,362,229; Patent No. 7,557,696; Patent No. 7,808,369; and Patent No. 7,944,345. These patents are valid and enforceable through at least September 11, 2021. JD

Zonar has approval from the U.S. Federal Motor Carrier Safety Administration for use of this patented electronic inspection system of motor vehicles that require pre- and post-trip safety inspections in accordance with Title 49, CFR, Parts 396.11 and 396.13. Each of the 50 US States has approved the EVIR electronic inspection system for interstate and intrastate motor vehicles and trailers. Zonar has worked closely with both U.S. Federal and State transportation officials, and has certified with other agencies, that Zonar is the only vendor to supply this product. Zonar maintains strict control over the distribution of this product, ensuring no other organization is able to provide a telematics solution integrated with our proprietary EVIR System.
