Discussion ensued: (1) it was suggested that the Price Boulevard or River Road project should be the first priority; (2) the tentative list of staff recommended priorities was given to Metropolitan Planning Organization (MPO) in December and listed the I-75 and Yorkshire Boulevard interchange as the first priority; (3) it was explained that staff must submit project applications to MPO in December, the prioritized order of projects is to be confirmed by the Commission in January; (4) concern was expressed that the priority of the items listed may hinder other financial assistance if certain projects aren't deemed as a number one or two priority when submitted to MPO; (5) the state ranks each project and assigns their own criteria for consideration; (6) staff suggests first priority of the Price Boulevard and Myakkahatchee Creek Bridge projects for MPO funding, these two projects were separated to obtain additional funding for the bridge; (7) a list of projects with recommended prioritization by staff is provided in the legislative text, Commission is asked to endorse a list of priorities that can be sent with a copy of today's meeting minutes to MPO staff; (8) it was clarified that a written request for changes is to be submitted to MPO by 5:00 p.m. January 30, 2019; (9) a suggestion was made to include an updated picture of the Price Boulevard widening project when the updated priority list is submitted; (10) an email regarding MPO ranking of projects was sent to the City Manager, it was suggested that he distribute the information to the Commission; (11) an MPO application was not submitted for the Price Boulevard project from Sumter Boulevard to Toledo Blade Boulevard due to timelines, stipulations and regulations required to receive state and federal funding, these additional compliance requirements would also increase construction costs; (12) sidewalk projects may be submitted for MPO funding; (13) it was noted that the only North Port item listed on the MPO project sheet is reimbursement for traffic signals.

There was a unanimous consensus in one of the upcoming workshops to have a presentation with instruction on the process of MPO priorities.
