### [Donations Decision](#)

The Retired Law Enforcement Association of S.W. Florida have invested in a program of raising funds to provide Police K-9 units with protective ballistic vests, Roca Bite training suits as well as the Ace K-9 Temperature Alarm Deployment System at no cost to the law enforcement agencies.

It is the decision of the executive board and rank and file that our organization will donate 1 AceK9 watch dog system to the Noth Port Police Department's K9 unit. The Ace K9 Temperature Alarm Deployment System is state-of-the-art protection for the K9 if left in the vehicle and an unforeseen mechanical error occurs and the vehicle shuts off leaving the dog in danger of overheating or worse.

As with our 2024 donation of the Roca Bite suit to your K9 unit all we ask is that our organization get the media attention you afforded us with this donation. It's only with recognition from the Departments we donate to that we can raise fund and continue to support the K9 units with the equipment needed to further serve their communities.

We have found it necessary to setup mandatory guidelines for this program which will be supplied upon request. The main requirement is that departments being supplied equipment in support of their K-9 units have working dogs certified by the state.

Fraternally.
