RE: Hurricane Ian Roof Response – City of North Port, FL

Target Solutions was engaged for a roof assessment and temp repair estimates for multiple locations for the City of North Port, FL

SCOPE OF WORK:

Target Solutions will furnish and install all material, equipment, and labor to provide temporary roof repairs to the following location. Scopes for each building are provided in the summary.

Al Goll

Main Building: Remove damaged materials, frame, deck and shrink wrap damaged area. – 20sq

Modular Building: Remove damaged material, install PVC temp roof, terminating at the perimeter. – 15sq

Children's Community Closet: Install synthetic felt at damaged areas. – 30sq

The above information is respectfully submitted as an overview of the necessary services required for the temp roofing repairs. Please note the below referenced scope of work is based upon preliminary investigation only. All parties will be advised of deviation to scope and adjustments will be made.

PRICING

TARGET SOLUTIONS proposes to perform the scope of services as outlined above according to the provided rate sheet.

Initial Projected charges upon completion Not to Exceed: **\$39,225.00**

***Once the work is completed, an invoice based on the actual SF of work completed and equipment costs.

It has been *Target Solutions'* pleasure to submit this proposal. Thank you for your consideration.
