CAPITAL IMPROVEMENTS ELEMENT

The Five-Year Schedule of Capital Improvements is revised annually and adopted by the City Commission, by ordinance. The document addresses the facility types required by the Level of Service provisions of Florida Statutes. The Capital Improvement Projects list is also updated annually to reflect a rolling five-year schedule of capital improvements by incorporating the previous year as part of the prior funding and by replacing the last fiscal year with a future fifth year. As new projects are added to the CIP project list during the annual update, adjustments may be made in the funding or timing of projects already in the project list, thereby permitting continual adjustment to changing conditions and needs.

The most recently adopted Capital Improvement Project list of the CIP is shown in the following Table 10-1, and will be renewed annually. Policy 1.1 (criteria for CIP projects) and Policy 1.2 (regulatory Level of Service (LOS) standards) used by the City to evaluate projects during the annual update.

CAPITAL IMPROVEMENTS ELEMENT GOALS, OBJECTIVES & POLICIES

Objective 5: Public School Facilities

The City shall ensure that future needs are addressed consistent with the adopted level of service standards for public schools.

Policy 5.1: Consistent with subsection 4.2 of the Amended Interlocal Agreement for Public School Facility Planning, as it may be amended, the LOS standards shall be applied consistently by all the local governments within Sarasota County and by the School Board district-wide to all schools of the same type. However, within designated concurrency service areas for identified backlogged facilities, interim standards shall apply. The level of service standards within these designated areas, over the period covered by the 10-year schedule of improvements, will be improved to the district-wide standard. The level-of service standards are initially set as follows:

DISTRICT-WIDE				
TYPE OF SCHOOL	ADOPTED LEVEL OF SERVICE			
Special Purpose	100% of total program capacity (including relocatables) or 90% of Florida Inventory of School Houses (FISH) utilization.			
BY STUDENT ATTENDANCE ZONE				
TYPE OF SCHOOL	ADOPTED LEVEL OF SERVICE			
Elementary Schools	Initial: 115% of permanent program capacity			
	By 2012: elementary schools, with the exception of backlogged facilities, will achieve a level of service standard of 105% of permanent program capacity			
	By 2017: all All elementary schools will achieve a level of service standard of 105% of permanent program capacity or 85% of FISH.			
Middle Schools	Initial: 100% of permanent program capacity			
	By 2012: middle schools, with the exception of backlogged facilities, will achieve a level of service standard of 100% of permanent program capacity			

Exhibit A to Ordinance 2017-43

Policy 5.2: The City shall ensure that future development pays its share of the costs of capital facility capacity needed to accommodate new development and to assist in maintaining adopted level of service standards, via impact fees and other legally available and appropriate methods in development conditions.

Policy 5.3: The City hereby incorporates by reference the Sarasota School District Five Year Capital Facilities Plan, dated June 7, 2016—July 19, 2017, that includes school capacity sufficient to meet anticipated student demands projected by the City, Sarasota County, and other Sarasota County municipalities based upon identified improvements over the short-term and long-term planning periods, in consultation with the School Board's projections of student enrollment, based on the adopted level of service standards for public schools.

The School Board, in coordination with the City, shall annually update its Five-Year Capital Facilities Plan, to ensure maintenance of a financially feasible capital improvements program and to ensure level of service standards will continue to be achieved and maintained during the planning period.

Policy 5.4: The City will update its Capital Improvements Schedule on an annual basis to incorporate by reference the upcoming Sarasota School District Five Year Capital Facilities Plan. The City and the Sarasota County School Board will coordinate during updates or amendments to the City's Comprehensive Plan and updates or amendments for long-range plans for School Board facilities.

Policy 5.5: Sarasota County adopts Tables PSFE 19B and 21 of the Data and Analysis for Public School Facilities as the 10-year long term schedule of improvements for the purpose of correcting existing deficiencies and setting priorities for addressing backlogged facilities within the designated concurrency service areas. The long-term schedule includes capital improvements and revenues sufficient to meet the anticipated demands for backlogged facilities within the 10-year period. The long-term schedule improves interim levels of service for backlogged facilities and ensures the district-wide standards, as established in Policy 5.1

Exhibit A to Ordinance 2017-43

are achieved by 2017. The long-term schedule will be updated, by December 1st of each year, in conjunction with the annual update to the Five-Year Capital Facilities Plan.

Policy 5.6: The City's strategy, in coordination with the School Board, for correcting existing deficiencies and addressing future needs includes:

- 1. implementation of a financially feasible Five Year Capital Facilities Plan to ensure level of service standards are achieved and maintained;
- 2. implementation of interim level of service standards within designated concurrency service areas with identified backlogged facilities in conjunction with a long-term (10-year) schedule of improvements to correct deficiencies and improve level of service to the district-wide standards;
- 3. identification of adequate sites for funded and planned schools; and
- 4. the expansion of revenues for school construction from updated impact fees.
