The Utility Engineer will advise Developer's engineer of any sizing requirements as mandated by the City's system policies and utility standards for the preparation of plans and specifications of facilities within the Property. If applicable, such detailed plans may be limited to a phase of the Property, and subsequent phases may be furnished from time to time. However, each such phase, if applicable, shall conform to a master plan for the development of the Property and such master plan shall be submitted to the City concurrent with or prior to submission of plans for the first phase. All such plans and specifications shall be submitted to the City and no construction shall commence until the City has approved such plans and specifications in writing. The complete plans and specifications, as to be approved by the City's Utilities Director or designee, for connection to the City's system shall be prepared by Developer's Professional Engineer, who shall be registered in the State of Florida. All construction shall be in strict conformity with the final plans and specifications as approved by the City. The City, its Utilities Director, or other representative, shall have the right to inspect any and all construction, whether in public rights-of-way or on private property. Upon notification of any deviation from the approved plans and specifications, Developer shall immediately make modifications as directed by the City. No construction shall be commenced without final approval of the plans and specifications by the City's Utilities Director. After approval, Developer shall cause to be constructed, at Developer's expense, the water distribution, irrigation and wastewater collection systems as shown on all plans and specifications.

5.3 Developer agrees to the following working hours for any work done by the City in connection with implementation of this Agreement. Normal working hours are defined as Monday through Friday, 7:00 a.m. to 3:30 p.m. Work outside of the normal working hours will constitute an "Overtime" rate, which will be reimbursed to the City. The Overtime rate will be calculated by the City on a time and a half basis plus all overhead fees. Should work be conducted on scheduled holidays, Developer will be responsible to reimburse on a double time and a half rate plus all overhead fees. The City will invoice for such fees and payment must be made by Developer within 30 days.

Developer agrees to upgrade and pay for any and all supporting infrastructure, which is required to support the flows for the said project to include but not be limited to a DATAFLOW SCADA system on any existing or newly constructed lift stations that will serve the project.

5.5 Developer understands the need to support the City's water conservation efforts and, to the extent it is possible shall utilize Florida friendly yards, xeriscape landscaping and agrees to permit, construct and design all irrigation systems to meet the City's reclaimed water standards approved by Staff Development Review (SDR) and to include FDEP Rule 62-610.460. The quality of the reclaimed water shall meet the requirements of FDEP Rule 62-610.460. **The City shall be held harmless and indemnified by Developer for the resulting water quality after mixing in Developer's storage pond, unless reclaimed waters of quality not meeting the requirements of FDEP Rule 62-610.460 is provided by the City.** Developer agrees to connect any existing irrigation distribution systems to the City's reclaimed water system at such time as reclaimed water is made available to the development.

5.6 All costs relating to the construction of the systems by Developer including but not limited to labor, overhead, permits, taxes, licenses, application fees, easement acquisitions, lift stations, backflows, SCADA systems, pumps, pipes, materials, and any other direct or indirect costs related to the construction shall be borne by Developer and shall be fully paid by Developer. Complete as-built plans shall be submitted to the City upon completion of construction. City inspections of the off-site and on-site facilities will not delay the construction schedule.

5.7.1 Developer shall have applied for, and have been issued; all required permits for construction of the facilities described herein and shall have prepared all documents necessary to solicit bids from qualified contractors. Developer acknowledges that the City may request the facilities be oversized and Developer agrees if directed by the City to design such oversized facilities to prepare either separate bid proposals or one bid proposal for the oversizing as the base proposal and Developer required line size as an alternative proposal. Before publication of distribution by Developer, Developer agrees to submit either separate bid proposals or a singular bid proposal to the City for its review and comment which may include, but not limited to, requiring incorporating for provisions for compliance with public project bid requirements. Provided that the City does not reject the bid proposal which

Developer intends to accept, the City agrees to pay Developer the difference of the bid construction cost for the oversizing of the pipeline not later than thirty (30) days following approval by the City of Developer's delivery of its contractually required incremental payment to its construction contractor if the City elects to request Developer to construct any oversized facilities. Developer understands and agrees that the City's share of construction cost shall not include such items as design, insurance, contingency, construction management and administrative fees.

5.8 By these presents, Developer hereby transfers to the City, title to all water distribution and wastewater collection systems installed by Developer's contractor, pursuant to the provisions of this Agreement. Such conveyance is to take effect without further action upon the acceptance by the City of said installation. As further evidence of said transfer to title, and upon the completion of the installation and prior to the rendering of service by the City, Developer shall convey to the City, by bill of sale, or other appropriate documents, in a form satisfactory to the City's counsel, the complete on-site and off-site water distribution and wastewater collection systems as constructed by Developer and approved by the City. Developer shall further cause to be conveyed to the City, all easements and/or rights-of-way covering areas in which water distribution and wastewater collection lines are installed by recordable document in a form satisfactory to the City's counsel. All conveyance of easements and/or rights-of-way shall be accompanied by a title policy or other evidence of title, satisfactory to the City, establishing Developer's rights to convey such continuous enjoyment of such easements or rights-of-way for those purposes set forth in this Agreement to the exclusion of any other person in interest. The use of easements granted by Developer shall include the use by other utilities so long as such uses by electric, telephone, gas utilities, or cable television do not unreasonably and materially interfere with use by the City. The City agrees that the acceptance of the water distribution and wastewater collection systems, installed by Developer, for service, or by acceptance of the bill of sale, shall constitute that assumption of responsibility by the City for the continuous operation and maintenance of such systems from that date forward.

5.9 All installations by Developer or its contractor shall have at least a one-year warranty from the date of acceptance by the City. Mortgagee(s), if any, holding prior liens on such properties shall be required to release such liens, subordinate their position and join in the grant or dedication of the easements or rights-of-way. Any such liens shall remain subordinate to this Agreement. All water distribution and wastewater collection facilities shall be covered by easements if not located within platted or dedicated rights-of-way.

5.10 Whenever the development of the subject Property involves one customer or a unity of several customers, and in the opinion of the City ownership by the City of the internal water distribution and wastewater collection systems is not necessary, then at the sole option of the City, Developer, or its successor or assigns, shall retain ownership and the obligation for maintenance of such on-site facilities.

5.11 Payment of the contribution-in-aid-of-construction does not and will not result in the City waiving any of its rates, rate schedules or rules and regulations, and their enforcement shall not be affected in any manner whatsoever by Developer making the contribution. The City shall not be obligated for any reason whatsoever nor shall the City pay any interest or rate of interest upon the contribution. Neither Developer nor any person or other entity holding any of the Property by, through or under Developer, or otherwise, shall have any present or future right, title, claim or interest in and to the contributions or to any of the water and wastewater facilities and properties

of the City, and all prohibitions applicable to Developer with respect to no refund of contributions, no interest payment on said contributions and otherwise, are applicable to all persons or entities. Any user or customer of water and wastewater services shall not be entitled to offset any bill or bills rendered by the City for such service or services against the contributions. Developer shall not be entitled to offset the contributions against any claim or claims of the City unless specified in the Special Conditions of this Agreement.

5.12 If any use involving commercial kitchen facilities is located on the Property, the wastewater facilities shall include such grease interceptors or grease traps (a "Grease Trap") as may be required by City Standards or by applicable law, codes, rules, regulations and standards pertaining thereto, as the same may from time to time be amended. All wastewater from any grease producing equipment, including floor drains in food preparation areas, must first enter the grease trap for pretreatment before the wastewater is delivered to the City's wastewater system. Provisions for a Grease Trap shall be included in the plans and specifications and shall call for such size, capacity and other specifications as are required by City's Standards and the applicable governmental agencies. The City shall have the right, but not the obligation, to inspect and test any Grease Trap in order to ensure compliance with the terms hereof. **Developer shall indemnify and hold harmless the City from and against any and all liability, cost, expenses and fees, including attorneys' fees and costs, arising or resulting from Developer's failure to install and adequately maintain a Grease Trap including, without limitation, any costs or expenses resulting or arising from damage to the City's wastewater system lines, lift stations and plant facilities caused by grease, oil, fats, prohibited solvents or any other materials entering into or coming in contact with such lines, lift stations and plant facilities because of Developer's failure to adhere to the provisions.**

5.13 Developer shall ensure availability for a conduit and easement if requested by the City for fiber from the circle on City Center Boulevard along Main Street to Price Boulevard.

SECTION 6. EVIDENCE OF TITLE. Prior to the dedication or conveyance of any water or wastewater facilities pursuant to Sections 5 and 7, herein, at the expense of Developer, Developer agrees to either deliver to the City an Abstract of Title, brought up to date, which abstract shall be retained by the City and remain the property of the City, or to furnish the City an opinion of title from a qualified attorney at law or a qualified title insurance company with respect to portions of the Property on which the facilities are, or will be, located, which opinions shall include a current report on the status of the title, setting out the name of the legal title holders, the outstanding mortgages, taxes, liens, and covenants. The provisions of the Section are for the exclusive rights of service contained in this Agreement. Any mortgage or lien holder having an interest in the affected portions of the Property shall be required to join in the grant of exclusive service rights set forth in this Agreement. Any and all such grants of exclusive service rights set forth in the Prior Agreements shall survive through the adoption of this Agreement. Title standards shall be the same as those applicable to real estate generally adopted by the Florida Bar and in accordance with Florida law.

SECTION 8. APPLICATION OF RULES, REGULATIONS, AND RATES. Notwithstanding any provision in this Agreement, the City may establish, revise, modify and enforce rules, regulations and rates covering the provision of water and wastewater services to the Property. Such rules, regulations and rates are subject to the approval of the City of North Port, Florida. Such rules and regulations shall at all times be reasonable and subject to regulations as may be provided by law or under contract. Rates charged to Developer or customers located upon the Property shall be identical to rates charged for the same classification of service. All rules, regulations and rates in effect, or placed into effect in accordance with the preceding, shall be binding upon Developer, upon any other entity holding by, through or under Developer; and upon any customer of the water and wastewater services provided to the Property by the City.

SECTION 9. PERMISSION TO CONNECT REQUIRED. The City of North Port is to specifically be listed / named as an ADDITIONAL INSURED on both the COMPREHENSIVE GENERAL LIABILITY and BUSINESS AUTO POLICIES. All Certificates of Insurance must be on file with and approved by the City before commencement of any work activities. An INDEMNIFICATION & HOLD HARMLESS AGREEMENT must be signed by an authorized representative of the firm and included with the Certificate of Insurance for all contracts for service.

SECTION 15. COVENANT NOT TO ENGAGE IN UTILITY BUSINESS. Developer, as a further consideration for this Agreement, agrees that it shall not (the words "shall not" being used in a mandatory definition) engage in the business of providing water and wastewater services to the Property during the period of time the City, its successors and assigns, provide water and wastewater services to the Property, it being the intention of the parties hereto that the foregoing provision shall be a covenant running with the land and under said provision and also under other provisions of this Agreement the City shall have sole and exclusive right and privilege to provide water and wastewater services to the Property and to the occupants of each residence, building or unit constructed thereon.

SECTION 16. RECORDATION. The parties hereto agree that an executed copy of this Agreement and Exhibits attached hereto shall be recorded in the Public Records of Sarasota County, Florida at the expense of Developer.

SECTION 17. SEVERABILITY. If any court finds any part of this Agreement invalid or unenforceable, such invalidity or unenforceability shall not affect the other parts of this Agreement if the rights and obligations of the parties contained therein are not materially prejudiced, and if the intentions of the parties can continue to be effected. To that end, this Agreement is declared severable.

SECTION 18. AUTHORITY TO EXECUTE AGREEMENT. The signature by any person to this Agreement shall be deemed a personal warranty by that person that he has the full power and authority to bind any corporation, partnership, or any other business entity for which he purports to act hereunder.

SECTION 19. CAPACITY.

19.1 Except as otherwise may be set forth in this Agreement, the execution of this Agreement between Developer and the City does not constitute a specific reservation of capacity by

Developer. Unless and until the required capacity fees and charges have been paid by Developer, the City does not hereby guarantee that capacity will be available for Developer's project on any later date.

19.2 Any specific reservations of capacity, and the fees and charges for such reservation of capacity, must be detailed either within the body of this Agreement or in Section 20 -- Special Conditions. Such reservation of capacity shall be so reserved for a definite period of time only as long as the payment of appropriate fees and charges are made by Developer or as negotiated between the parties.

19.3 Capacity fees that are paid for by Developer for reservation of capacity, but which are not used by Developer within the period of the reservation, are not refundable.

19.4 The City reserves the right to adjust the Water and Wastewater Capacity Fees (higher or lower) in the future. Developer shall pay the adopted capacity charge that is in effect at the time of meter application for water and wastewater capacity, as well as the connection fee and security deposits as connections are required and approved by the North Port Utilities Department.

SECTION 20. SPECIAL CONDITIONS. The following Special Conditions are mutually agreed upon by Developer and the City. To the extent these Special Conditions conflict with any recitals or provisions contained in this Agreement, these Special Conditions shall prevail.

20.1 GUARANTEED REVENUE CHARGES

20.1.1 Pursuant to the Prior Agreements, and subsequent to connection to the system of the two commercial developments, Circle K and O'Reilly's Auto currently in progress, Developer has paid Capacity Fees for and reserved 123 water and 123 wastewater ERCs (collectively the "Previously Reserved ERCs"), which remain unconnected and unused as of the Effective Date of this Agreement.

20.1.2 The City acknowledges receipt of Developer's payment of all outstanding and past due guaranteed revenue charges incurred and owed as of the Effective Date of this Agreement. Accordingly, the City agrees to forgive Developer's outstanding and overdue late fees in the amount of \$213.49.

20.1.3 Developer shall continue to pay to the City the adopted guaranteed revenue charge for each unconnected or unused potable water and wastewater ERC reserved to Developer. Charges will be billed as of September 30 annually and prorated based upon the period of time during the preceding year between reservation (payment of Capacity Fees) and for as long as such ERCs were unconnected or unused. Developer will be billed for the per day charge (a prorated basis) for the number of days each ERC remained unconnected or unused during the preceding year. Developer shall have thirty (30) days from the date of the guaranteed revenue invoice to make payment.

20.1.4 As of October 1, 2016, the guaranteed revenue charge is \$205.00 per year per water ERC and \$190.00 per year per wastewater ERC. The City reserves the right to adjust the charge (higher or lower) in the future. Developer shall pay the guaranteed revenue charge in effect at the time of payment.

20.2 CAPACITY FEES

20.2.1 The City and Developer acknowledge and agree that pursuant to the Prior Agreements, Developer assumed, and still has, the obligation to pay the adopted Water Capacity Fees and Wastewater Capacity Fees for the purchase of an additional 25 ERCs ("Annual ERCs") beginning October 1, 2017 and each October thereafter, until satisfaction of Developer's original commitment to purchase a cumulative total of 2,350 ERCs for the buildout of the Property; and that obligation shall continue unless and until the City shall forgive it pursuant to Section 20.2.2 herein. Developer failed to make the payment for the Annual ERCs for October 1, 2017. Had such payment been made, City would have, as of the Effective Date, been obligated to reserve capacity for a total of 25 additional ERCs for the Developer (in addition to the Previously Reserved ERCs) as of the Effective Date of this Agreement. However, having failed to make that payment, Developer owes the City, and is delinquent in paying, a total of \$111,625.00 in capacity fees and \$5,581.25 in late fees associated with the purchase of those Annual ERCs of reserved capacity.

20.2.2 The City acknowledges that Developer has paid all outstanding and past due guaranteed revenue charges incurred and owed as of the Effective Date of this Agreement. Accordingly, the Parties agree as follows:

- (i) The City shall forgive Developer's payment of the \$111,625.00 in past due capacity fees and \$5,581.25 in late fees set forth in Section 20.2.1 herein;
- (ii) The City shall, retroactively and prospectively, relieve Developer from any obligation to pay the adopted Water Capacity Fees and Wastewater Capacity Fees for the purchase of the Annual ERCs each year, and from Developer's original commitment to purchase a cumulative total of 2,350 ERCs for the buildout of the Property, as referenced in in Section 20.2.1 herein;
- (iii) Developer shall forfeit any claim or right to the Annual ERCs that would have been purchased and reserved by the payment of the \$111,625.00 in capacity fees set forth in Section 20.2.1 herein;
- (iv) The City shall be released from any future obligation to reserve Annual ERCs for Developer; provided however, that this release shall not release the City from its obligation to honor the Previously Reserved ERCs, nor shall it excuse Developer from its obligation to pay the guaranteed revenue charges on the Previously Reserved ERCs; and
- (v) Developer may still apply for additional ERCs; however, the City shall be under no obligation to provide additional ERCs unless the City has sufficient unreserved capacity at the time of the application.

SECTION 21. DEFAULT, NOTICE, DAMAGES AND REMEDIES.

21.1 Developer shall have a five (5) day grace period before a failure to make payment as required herein shall constitute an event of default under this Agreement. Developer shall be assessed a five percent (5%) late fee to be calculated on any delinquent payment if made after the expiration of the five (5) day grace period. In the event of the Developer's failure to make timely payment as set forth herein and upon the expiration of the five (5) day grace period, the City shall, prior to declaring an event of default, provide Developer with written notice of the City's intent to declare an event of default. Upon such notice, should Developer be in default of any provision of this Agreement, and fail to cure the default upon proper notice, the City has the right to deny issuance of any building permits, certificate of occupancies or approval of any FDEP permits for utility construction associated with the project. Developer shall have an additional twenty (20) days from the date Developer receives the City's written notice within which to make the specified payment.

21.2 Should Developer fail to cure a default upon its receipt of proper notices, the City may undertake the appropriate legal actions it deems necessary to enforce its right and remedies as provided under this Agreement and Florida law.

21.3 The City and Developer agree that in the event of an uncured default by Developer resulting in termination of this Agreement, the City will suffer damages not only in the amount of any unpaid capacity fees, any unpaid guaranteed revenues and any associated late fees, but also in the amount of Developer's proportionate share of the capital investment the City has made in constructing the City's water and wastewater system made available to serve Developer, including but not limited to the debt service on bonds or other financing instruments issued for that purpose. For purposes of calculating damages related to the City's capital investment in the water and wastewater system, the City and Developer agree that such damages shall be valued at \$132.73 per year per reserved but unconnected water ERC and at \$111.82 per year per reserved but unconnected wastewater ERC, and that Developer shall be liable to the City, as liquidated damages, and not as a penalty, for three (3) years of such damages. This liquidated damages amount shall pertain only to the City's damages related to its capital investment in its water and wastewater system, and shall be in addition to the City's damages related to unpaid capacity fees, unpaid guaranteed revenues and associated late fees.

21.4 In addition to its other remedies, should Developer be in default of any provision of this Agreement, and fail to cure the default upon proper notice, the City has the right to deny issuance of any building permits, certificate of occupancies or approval of any FDEP permits for utility construction associated with the project.

IN WITNESS WHEREOF, Developer and the City have executed or have caused this Agreement, with the named Exhibits attached, if any, to be duly executed in several counterparts, each of which counterpart shall be considered an original executed copy of this Agreement.
