

ASPHALT REJUVENATION APPLICATION USING PAVEMENT TECHNOLOGY, INC.

-
- **Utilization of City of Punta Gorda Agreement No. F2014111/SCV-ASPHREJ/1415**
 - **Cost estimated at \$286,158.68 – final cost to be determined by actual application measurements when project is complete**

Definition & Benefit of Pavement Rejuvenation

Pavement Rejuvenation Definition

Asphalt pavement is rehabilitated by applying chemical products designed to restore original properties to aged asphalt. Rejuvenators reduce and minimize the formation of additional cracks.

Benefit

Applied to roads paved within last 3 years and adds 3 to 5 years of life to the road.
