OWNER BUILDER STATEMENT/AFFIDAVIT

Florida Statutes are quoted here or in part for your information to indicate the authority for exemptions for homeowners from qualifying as contractors and to express any applicable restrictions and responsibilities.

OWNERS MUST PERSONALLY APPEAR AT THE BUILDING DEPARTMENT TO SIGN THIS DOCUMENT

BY SIGNING THIS STATEMENT, I ATTEST THAT: (Initial to the left of each statement)

 I understand that state law requires construction to be done by a licensed contractor, I have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.
 I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.
 I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his name instead of my own name, I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on all permits and contract.
 I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates this exemption.
 I understand that, as the owner-builder, I must provide direct, onsite supervision of the construction.
 I understand that I may not hire an unlicensed individual person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have a licenses required by law and by city ordinance.
 I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, may be held liable and subjected to serious financial risk for injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for these injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.
 I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide workers' compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.

	I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.
	I am aware of construction practices and I have access to the Florida Building Code.
	I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at 1-850-487-1395 or at www.myflorida.com/dbpr/pro/cilb/ for more information about licensed contractors.
	I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the address listed below.
	I agree to notify the Building Department immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure or in the permit application package.
	Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board, the Department of Business and Professional Regulation and the Building Department may be unable to assist you with any financial loss that you sustain as the result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual firm is injured while working on your property, you may be held liable for damages. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's workers' compensation coverage.
Property	Address:
I,	, do herby state that I am qualified and capable of
performi	ng the requested construction involved with the permit application filed and agree to the conditions specified
above.	
Signature	e of Owner-Builder Date
Form of I	dentification: (Must be Photo I.D.)

A violation of this exemption is a misdemeanor of the first degree punishable by a term of imprisonment not exceeding 1 year and a \$1,000.00 fine in addition to any civil penalties. In addition, the local permitting jurisdiction shall withhold final approval, revoke the permit, or pursue any action or remedy for unlicensed activity against the owner and any person performing work that requires licensure under the permit issued.
