Mr. Lear noted corrections to the agreement which are 16.92% for North Port and 13.3748% for the City of Sarasota.

Discussion ensued regarding the agreements with respect to motor fuel sales, diesel sales, taxes on purchases and disposal, and the option for a one-cent municipal gas tax.

A motion was made by Commissioner Luke, seconded by Vice-Mayor McDowell to accept 5.D. with changes that have been brought forward. The motion carried by the following vote:

Yes: 5 - Mayor Hanks, Vice-Mayor McDowell, Commissioner Luke, Commissioner Emrich and Commissioner Carusone

Discussion continued regarding staff researching feasibility of implementing a municipal one-cent tax with funding being used for right-of-way drainage.

There was a consensus to research feasibility of instituting a one-cent municipal tax, including estimated revenue, estimated costs and the process to institute, including need for referendum or by resolution, the pros and cons, and if other cities in Florida have this.

- E. [19-0363](#) Interagency Agreement regarding sharing information about Juvenile Offenders.

Ms. Slayton explained the agreement is to comply with Florida State Statute (FSS) 985.04, sharing of a juvenile's criminal history with school personnel, law enforcement access to school records, and notifying teachers of probation or felony offenses.

Commissioner Carusone expressed concern that the agreement does not specify conditions for information to be shared between law enforcement and the schools, and it should be clarified to release information pertaining specifically to felony actions.

Ms. Slayton spoke to two requirements in the FSS, the first being summary of criminal history information which does not state limited to a felony offense, and the second being notification to a teacher if a juvenile has been placed on probation or commitment for a felony offense.

Discussion ensued regarding the intent to share information with schools involving threats and violent acts, and repercussions for children if information of a lesser offense is released.

Ms. Slayton reiterated the terms in the agreement and explained though section B of the agreement allows for subjectivity the FSS does not define the summary of criminal

history, and that an arrest record is kept in a criminal record unless expunged.

Mr. Garrison explained that North Port is the last agency within Sarasota County to sign the agreement, that each county is required to enact this agreement, and provided FSS history regarding release of information for juveniles notwithstanding exemptions provided in FSS 119.

Discussion ensued regarding the intent of the statute not being captured within the agreement and sharing of juvenile criminal history without specifics.

Mr. Garrison responded to Commission questions that the language specifies information regarding arrest records and does not specify disposition of a case, and the intent does not pertain to police encounters.

Ms. Slayton explained the statute requires the agreement to provide conditions of the summary criminal history information to be shared, and the statute does not delineate felony action.

Commission discussion continued regarding repeal of the statute in October 2021 unless renewed, the five-year renewal language in the agreement, and the future validity of the agreement.

Commissioner Carusone stated she will be dissenting because of her concerns with erosion of the judicial system, and protection for children and their parents.

A motion was made by Commissioner Luke, seconded by Vice-Mayor McDowell, to approve Consent Agenda item E. The motion failed by the following vote:

Yes: 2 - Mayor Hanks and Commissioner Luke

No: 3 - Vice-Mayor McDowell, Commissioner Emrich and Commissioner Carusone

Vice-Mayor McDowell stated she dissented because the agreement is ambiguous.

Commissioner Emrich stated he dissented because the agreement is vague.

Discussion ensued regarding modification of the agreement to define specifics of information to be shared and resigning by all agencies.

Commissioner Carusone suggested that she work with staff to address specifics to develop an interagency agreement to be brought back to Commission.

Ms. Slayton noted that modifications to the agreement must be agreed upon by all governing bodies, that the statute provides that each county shall enter into an interagency agreement.

There was a consensus for Commissioner Carusone to work with staff.

Ms. Slayton explained that specificity is required in the ordinance if acting on eminent domain becomes necessary, another resolution can be brought back for additional properties, various methods used to contact owners, including language in the resolution regarding property exchange, property exchange being the City Manager's discretion and dependent on parcels available, and FSS requiring a monetary offer.
