Subject: Budget Workshop Follow up item - SPF Uniform Leasing
Attachments: 20190712085146846.pdf

Good Morning Lisa,

I have reached out to several uniform companies regarding the availability of SPF rated uniforms rental for employees that work in the field. I confirmed with Unifirst, our current provider, that they do not provide these items. I have also reached out to several other uniform rental companies, including Aramark, Cintas and AlSCO. Cintas does not provide uniform service to this area and Aramark did not have what we were looking for. The only company I have found that may be able to provide the items we require is AlSCO, which, according to their website, provides an option for a safety shirt that is also SPF rated (see attached).

In the past Purchasing has coordinated and issued an RFQ for the city-wide purchase safety shirts, used by both Utilities & Public Works, and were been able to get a bulk discount by buying in volume. This is something that could possibly be done for SPF shirts as an alternative to rental if multiple departments are in need.

Please let me know if you need any further information.

Thank you,

Nickie Brown
