**TO:** Honorable Mayor & Members of the North Port Commission

**FROM:** Peter D. Lear, CPA, CGMA, City Manager

**TITLE:** Discussion on research regarding nonconforming uses

### **Recommended Action**

Provide direction to staff on how to proceed with drafting an ordinance modifying treatment of nonconforming uses.

### **Background Information**

On October 9, 2019, City Commission directed staff to bring back a draft ordinance, similar to the one presented at that meeting by Vice Mayor Yates, that would allow for the expansion of nonconforming uses in commercial areas and Activity Centers. As part of this direction, staff was to research existing nonconforming uses and potential unintended consequences of allowing expansion of nonconforming uses. A nonconforming use is defined as "a lawful use of land that does not comply with the use regulations for its zoning district, but which complied with applicable regulations at the time the use was established." In simple terms, the use was permitted at the time of establishment, but subsequent changes to the zoning regulations no longer allow the use. The nonconforming use is 'grandfathered' and allowed to continue.

Staff has completed an initial round of research on this item and has found items that must be addressed by the City Commission before staff can complete the task as assigned. The details of this research and the issues at hand are detailed in the attached memo.

### **Strategic Plan**

Update the Unified Land Development Code and City Code to reflect best practices, current priorities, and legal compliance

**Financial Impact**

N/A

**Procurement**

N/A
