Erin Eisenheimer

Dear Erin,

This past November and December. The Back Pack Angels started distributing the tote bags that the city of North Port through there Grant program " NP squared"so generously donated earlier this year. We used the Tote bags in place of our small plastic bags as a nice surprise over the Holidays for 878 children after finding they were a little to small for the large hygiene items.

Because of the generous support of the City of North Port, we are able to continue to deliver Tote bags of hygiene products to the homeless/needy children of North Port through ten public schools and seven preschools. In 2024, We packed and delivered over 1,000. bags a month.

The children we serve qualify for free and reduced lunches and is based on Family income in Sarasota County.

All of us at Back Pack Angels sincerely appreciate your kindness.

Best wishes

,Back Pack Angels President

Naomi Jodoin
