

Non-Competitive Procurement Justification

Project Name: IAN22

FEMA Identifier: TBD

Purpose:

I. Regulatory Basis for the Non-Competitive Procurement

The City of North Port (the City) undertook this procurement under the justification provided in 2 CFR Part 200.320(c)(3):

- “The public exigency or emergency for the requirement will not permit a delay resulting from publicizing a competitive solicitation.”

II. Brief Description of the Product or Service Being Procured

Repair of the existing License Plate Readers (LPR) in North Port.

III. Why a Non-Competitive Procurement Was Necessary

The License Plate Readers were procured from Vetted Security Solutions under the sole source procurement method. Repairs to the LPRs also fall into the sole source category. This was already known to staff when evaluating the damaged LPRs and requesting a repair quote from the Vetted Security Solutions, LLC.

IV. Duration of Non-Competitive Contract Scope of Work

These purchases were all made in the aftermath of Hurricane Ian.

V. Why a Competitive Procurement Would Not Have Been Suitable

Procurement of this service is a sole source item.

VI. Conflict of Interest Checks

Vetted is an existing vendor and has completed the City’s Conflict of Interest Form.

VII. Additional Considerations
