**Subject:** Donation of Bloodhound Puppy to the North Port Police Department

Dear Chief Garrison and Members of the North Port Police Department,

We, Keith and Ashlee Scott of High Cotton Bloodhounds, are pleased to formally document the donation of one of our bloodhound puppies to the North Port Police Department for use within the department's K9 Bloodhound Team.

It is our sincere honor to support the department's mission to serve and protect the community by providing a puppy bred specifically for working and tracking purposes. This puppy comes from a long line of AKC-registered bloodhounds on both the dam and sire sides, carrying strong genetic traits for scent detection, endurance, and temperament—qualities essential for successful K9 work.

This donation is made freely and without expectation of compensation. Full ownership and responsibility for the puppy's care, training, and service are hereby transferred to the North Port Police Department as of 10/3/2025.

We are proud to know that a High Cotton Bloodhounds puppy will contribute to the vital search and rescue, tracking, and community safety efforts of the department. It is our hope that this young dog will become a valued member of the North Port Police K9 team and serve the citizens of North Port with excellence.

Enclosed you will find the puppy's vaccinations records, along with the litter's AKC registration and bloodline.

Please feel free to contact us if additional information or documentation regarding the puppy's pedigree or background is needed.

Respectfully,

Keith Scott

Ashlee Abernathy Scott
