**Re: Sarasota Memorial Hospital - North Port
After Hours Construction Work Request**

Dear Ms. Ray,

I am writing on behalf of Sarasota Memorial Hospital to request authorization to perform limited construction work outside the standard work hours established by the City's Code and Building regulations for the North Port Hospital project.

The primary after-hours activity will involve concrete pours. Conducting these pours during the nighttime or early morning hours is necessary to maintain the project schedule, ensure proper concrete curing time and conditions in Florida's climate, and minimize traffic congestion and safety impacts along Sumter Boulevard during peak daytime hours. We anticipate performing approximately three concrete pours per week during off hour periods between February 1, 2026 and January 31, 2027. To ensure flexibility and avoid repeated requests, we respectfully ask that this authorization extend through September 30, 2028, corresponding with the anticipated completion of major structural work. Sarasota Memorial Hospital will provide the City with at least one week's advance notice of each planned after-hours work.

Thank you for your consideration to this request. Should you have any questions or need additional information, please contact me at (941)340-6358.

Thank you,

Mary Lou Gutrich
