Modifications:

- 1. From Chapter 21 Landscape Regulations to allow SMH to utilize its experience across its various facilities to design and implement a landscape plan which meets the unique needs and layout of a medical campus facility.***
- 2. From Chapter 25 - Parking and Loading Regulations to allow SMH to utilize its experience across its various facilities to design and implement a parking layout, design, and space totals which meets the unique needs and layout of a medical campus facility which will be master planned and developed in phases.***
- 3. From Chapter 29 - Signage Regulations to allow SMH maximum flexibility for final design of the various signage to be implemented on the site as part of the***

medical campus.

4. From Sec. 53-3(G) – Dumpsters to allow SMH maximum flexibility in incorporating the onsite dumpsters into the phased development of the site. Relief is requested from the wall, gate, and associated wall height standards.

5. From Sec. 53-3(H) – Mechanical Equipment in order to allow for flexibility in the wall and design standards for mechanical equipment

6. From Sec. 53-3(I) – Lift Stations to allow SMH maximum flexibility to work with staff on incorporating lift stations into the phased development of the site.

7. From Sec. 53-3(M) – Connectivity from the subject property to nearby Balsey Street or Belladonna Avenue and the introduction of the associated daily vehicle trips on those local roadways would be compatible nor within the public interest.

8. From Sec. 53-3(O) - Lighting to allow SMH flexibility to replicate a site lighting design consistent with its other medical facility properties in compliance with applicable regulations and in a manner that will not create a nuisance for surrounding properties.

9. From Sec. 53-7(H) - Time limit on Development Master Plan to remove the two-year expiration of approval if site development and other associated activities have not occurred within this time frame.

10. From Sec. 53-106(A)(1 & 2) - Minimum Lot Requirements to allow SMH to efficiently master plan the property and potential facilities and services.

20. From Sec. 55-5(A) – Architectural Design and Public Art to remove the associated regulations concerning architectural design and public art. SMH intends to provide its own unique design and provision of visitor amenities via the facilities to be constructed on the property. Art and other aesthetically pleasing design elements will be incorporated in plans for the facilities to the benefit of the public.

21. From Sec. 55-6 – Bicycle Racks and Benches to allow SMH to provide its own unique design and provision of visitor amenities via the facilities to be constructed on the property in a manner it deems best during the phased development of the property.

22. From Sec. 55-9 – Public Art to provide relief from the public art regulations. Art and other aesthetically pleasing design elements will be incorporated in plans for the facilities to the benefit of the public.

23. From Chapter 59 - Public Art Regulations to provide relief from all applicable Urban Design Pattern Book regulations to provide the ability to have complete control over all design considerations associated with all contemplated phases of development for the property.

Conditions:

1. All proposed projects or developments shall comply with the Florida Fire Prevention Code (FFPC), 8th Edition (NFPA 1 – Fire Code, 2021 Edition with State of Florida Amendments) and the City of North Port Unified Land Development Code (ULDC), Chapters 37 and 60 as outlined prior to formal submittal.

Travel lanes to have not less than twenty feet (20') of unobstructed width and an unobstructed vertical clearance of thirteen feet six inches (13'6") to allow for unimpeded access by fire apparatus in accordance with the Florida Fire Prevention Code, 8th edition (NFPA-1 Fire Code, 2021 Edition), § 1:18:2.3.5.1.1 & 18:2.3.5.1.2 and § 60-11(B) of the ULDC.

Per § 60-12 of the ULDC, required fire lanes must be provided, with the inner edge of the roadway not less than ten feet (10') and not more than thirty feet (30') from the building, and must extend not less than thirty feet (30') on each side of the major public entrance to a building, or unit of a building.

Based upon the Risk and Life Safety factors to be considered for this type of project, it is recommended that Fire Department Access be provided for 360° of the elevations for the proposed Sarasota Memorial Hospital. Be advised that the City of North Port Fire Rescue District's largest ladder truck is approximately 75' in length. This recommendation shall be in combination with impervious and pervious surfaces and meet the requirement set forth in the Florida Fire Prevention Code

(FFPC), 8th Edition (NFPA-1 Fire Code, 2021 Edition), § 1:18.2.3, § 60-12 of the ULDC and accommodate fire apparatus.

Referencing the proposed Medical Office Building and Central Energy Plant. Per ULDC § 60-12. - Fire lanes and fire department accessibility to buildings:

E. In buildings up to two (2) stories, with fire sprinklers and alarms installed, at least one (1) elevation (side) of each building shall be accessible to the fire department.

(1) In buildings two (2) stories to four (4) stories, up to a maximum height of fifty (50) feet, with fire sprinklers and alarms installed, at least two (2) elevations (sides) of each building shall be accessible to the fire department.

(2) In buildings greater than four (4) stories, over fifty (50) feet in height, with fire sprinklers and alarms installed, at least three (3) elevations (sides) of each building shall be accessible to the fire department.

Dead-end roads more than one hundred fifty feet (150') must provide turning radii capabilities for fire apparatus as outlined in Florida Fire Prevention Code, 8th edition (NFPA-1 Fire Code, 2021 Edition), § 1:18.2.3.5.4, and § 37-32 and § 60-11(B) of the ULDC.

2. The following comments were sent with PRE-24-052 and must be evaluated and addressed at the

MAS stage:

1. Traffic impact study, along with all information and analyses requested in the comments sent with PRE-24-052, are missing from this submittal. See below for a copy of these previously sent comments. Please resubmit this package and include the information requested below:

1. Please submit a Traffic Impact Statement (TIS) that contains the following:

i. Proposed Daily Trips generated by the proposed development.

ii. Peak AM Hour Trips generated by the proposed development.

iii. Peak PM Hour Trips generated by the proposed development.

iv. Trip generation rates shall follow the criteria shown in the Institute of Transportations Engineers (ITE) Trip Generation Manual, Latest Edition.

v. A graphic distribution of trips from the proposed development to the roadway network.

vi. Perform a left turn lane warrant analysis in compliance with the National Cooperative Research Program (NCHRP) Publication 745.

vii. Perform a right turn lane warrant analysis in compliance with NCHRP Publication 279.

viii. The TIS should be signed and sealed by a professional engineer licensed by the State of Florida and qualified to prepare the TIS.

2. Perform traffic signal warrant analysis for driveway. A traffic signal is recommended to be able to stop traffic for entering/exit ambulances.

3. Evaluate compacity of Eldron Avenue and its intersection with Sumter (via La France Ave.) and Salford Boulevard. Eldron Avenue is an east-west roadway that lays just south of the future hospital site. It is possible that this will take on additional traffic due to the hospital and additional improvements such as stop signs, turn lanes, etc. may need to be completed prior to the hospital's opening.

3. The future detailed design of the stormwater management system must meet all requirements in the City of North Port Unified Land Development Code (ULDC) Stormwater Regulations. Detailed stormwater quality treatment calculations and water quantity attenuation analysis must be provided in the later detailed design applications. If the later detailed design includes hydraulic modeling that shows additional pond footprint will be needed, changes may be needed to the DMP for reapproval.

4. Minimum parking calculations be provided and supported with data for each phase of development (at the time of MAS or site development).

The motion carried on the following vote:

Yes: 5 - Commissioner Emrich, Commissioner McDowell, Mayor White, Vice Mayor Stokes and Commissioner Langdon
