Good Afternoon,

I was driving out west and found a property that was cleared recently. I am unsure if it is 1148204814 or 1148204813. Would one of y'all be able to determine the number of trees that were removed from either lot. I also found another land clear in the same area back in 2021 on 1147205611. I would like to proceed with a total land clear but if we can determine the amount then that would be the safer option.

The property is 19,477 sqft - 15K at every 10,000 sqft

\$29,250
