PROJECT:	PRZ-25-02428 "Ackerman"
REQUEST:	Rezoning from Environmental Conservation to Agriculture
APPLICANT:	City-initiated Rezoning
OWNERS:	John Ackerman and Veronika Ackerman (Exhibit A—Deed)
LOCATION:	West of Jennings Boulevard (Parcel ID 0840-00-1010)
PROPERTY SIZE:	± 3.3015 acres

I. BACKGROUND

The subject property is a privately-owned ±3.30-acre vacant tract of land that is surrounded by the public lands of the Myakka State Forest. Prior to the creation of this parcel in 1986, the subject land formed part of a broader area that, according to the 1988-1998 North Port Comprehensive Plan and the 1998 Myakka State Forest Five-Year Resource Management Plan, was formerly known as “Myakka Estates” and was to be developed by the General Development Corporation (GDC) in accordance with the former Myakka Estates Development of Regional Impact.

The lot has existed in its current configuration since at least June 1, 1986 (Sarasota County Official Records Book 1865, Page 1416). Furthermore, the deeds of the original 1995 transfer of the lands comprising what is now known as the Myakka State Forest excluded the subject parcel from transfer to the receiving public agencies that would own and maintain the State Forest (1998 Myakka State Forest Five-Year Resource Management Plan; Sarasota County Official Records Book 2785, Page 1904). The lot is accessed by means of a 30-foot non-exclusive, perpetual access easement (Sarasota County Official Records Book 2785, Page 1848) roughly concurrent with the dirt road visible on the aerial image of the property provided herein.

The State Forest property which adjoins the subject tract on all sides is assigned a zoning designation of Environmental Conservation, and properties to the east of the subject tract, which all lie within Charlotte County, are assigned “Residential-Single Family 3.5 Units per Acre” (RSF3.5) zoning on the Charlotte County Zoning Map.

The subject City-initiated petition is the result of an effort to correct the zoning designations of privately-held lands that are currently assigned an Environmental Conservation (EC) zoning designation, but that were not intended to be included in the EC district. The Environmental Conservation zoning district is described in the Unified Land Development Code as follows:

ULDC Section 3.1.2.C.1 – The Environmental Conservation district indicates properties with natural limitations to development due to environmental concerns. This zoning district protects environmentally sensitive lands.

The Environmental Conservation zoning district prohibits the establishment of any uses not marked with an “X” on the Use Table (see **Exhibit H** - ULDC Table 3.2.3.1) including the use of the property for the construction of one single-family residence. Due to the restrictive nature of this designation, the Environmental Conservation zoning designation is typically reserved for environmentally sensitive lands and other properties that are held publicly or are otherwise intended to be held and maintained solely for the uses listed above. The subject property was excluded from the State Forest, and from the conservation program associated with the Forest, because the property was held in separate private ownership. And while the property does contain portions of land considered environmentally sensitive, the Unified Land Development Code and existing state and federal regulations provide controls on any development proposed for the site that ensure a balanced approach to protection of those natural resources and reasonable use of the site.

The proposed Agriculture zoning designation is described in the Unified Land Development Code as follows:

ULDC Section 3.1.2.A.1 – *The Agriculture district supports very low-density residential uses and low intensity agricultural uses.*

The minimum lot size allowed in the Agriculture zoning district is three acres. Since this parcel is ±3.30-acres, the parcel could not be divided further and would be permitted a maximum of one principal single-family dwelling and permissible accessory structures. The Agriculture zoning district provides an appropriate transition that is compatible with the surrounding conservation lands due to the limited residential development permitted on the site and the comparatively limited intensity of uses permitted in this zoning designation. Furthermore, the maximum impervious surface ratio (ISR) permitted in the Agriculture zoning district is 20 percent, which serves to significantly limit the area of the parcel covered by structures or any improved surface not allowing the natural percolation of water.

A companion petition (PFLU-25-02427) to amend the future land use designation of the subject property from Conservation to Agricultural Estates will also be presented for consideration prior to the subject petition. If the companion petition is not approved, then the subject petition cannot be approved because the Agriculture zoning district is not an implementing zoning district of the existing Conservation future land use designation (ULDC Table 3.1.1.1 – Implementing Zoning Districts).

II. PETITION

Petition PRZ-25-02428 proposes a change to the Official Zoning Map of the City of North Port, changing the zoning of the ± 3.30-acre subject property from Environmental Conservation to Agriculture (see **Official Zoning Map** attached as **Exhibit B** and **Zoning Change Map** attached as **Exhibit I**). The implementing ordinance to amend the Comprehensive Plan Future Land Use Map is **Ordinance No. 2025-21** attached as **Exhibit C**.

III. NEIGHBORHOOD MEETING

Pursuant to Section 2.1.4.L.1 of the Unified Land Development Code, the City held a virtual neighborhood meeting on August 28, 2025, at 5:00 PM. Mailed notices were delivered 15 days prior to the neighborhood meeting to all property owners within a 1,320 foot radius of the subject property, and the required sign was posted in accordance with the requirements of the ULDC. The meeting documents including the required notice are attached as **Exhibit F**.

IV. REVIEW PROCESS

The City Attorney's Office reviewed and approved the proposed Ordinance 2025-21 as to form and

correctness.

V. DATA & ANALYSIS

Staff has reviewed the subject petition for consistency with the Florida Statutes, the Comprehensive Plan, and the Unified Land Development Code, for which analysis is provided as follows:

UNIFIED LAND DEVELOPMENT CODE

Unified Land Development Code Section 2.2.13 – Rezones

(C) The decision-makers shall determine whether and the extent to which the proposed rezone is:

Criterion 1: *Consistent with the Comprehensive Plan;*

The proposed rezoning is consistent with the policies of the Comprehensive Plan and particularly with the following goals, objectives, and policies:

Future Land Use Element

Policy 1.2.3(A) – Agricultural Estates

These lands are designated for agricultural related uses, very low-density residential development, supporting accessory uses, and public schools. Environmental conservation, government use including public schools, solar facilities and floating solar facilities (floatovoltaics) shall also be allowed.

The proposed Agriculture zoning district is compatible with the proposed Agricultural Estates future land use designation and is an implementing zoning district of the same pursuant to ULDC Table 3.1.1.1.

Public School Facilities Element

Objective 1.5: *Ensure Adequate School Capacity*

The City will evaluate the adequacy of school capacity when it considers future land use changes, rezonings, and subdivision and site plans for residential development. This will be accomplished recognizing the School Board's statutory and constitutional responsibility to provide a uniform system of free and adequate public schools.

Policy 1.5.1: The City will consider the School Board's comments and findings on the availability of adequate school capacity when considering proposed comprehensive plan amendments and other land use decisions as provided for

in Section 163.3177(6)(a), Florida Statutes.

Policy 1.5.2: Future land use changes, rezonings, and subdivision and site plans for residential development may be approved in areas with adequate school capacity...

School Board staff has indicated that the impacts of the proposed petition are considered de minimis with regard to school capacity. De minimis impacts are not subject to the customary school concurrency review to determine the adequacy of school capacity.

Property Rights Element

GOAL 1: To consider judicially acknowledged and constitutionally protected private property rights, as well as the right of property owners to participate in the planning and development process and in all local decision making that affects their lives and property.

Objective 1: To ensure that private property rights are considered in local decision-making.

Policy 1.2: The City shall consider the following rights in all local decision-making processes, consistent with Florida Statutes Section 163.3177(6)(i):

- 1. The right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.*
- 2. The right of a property owner to use, maintain, develop, and improve his or her property for personal use or for the use of any other person, subject to state law and local ordinances.*
- 3. The right of the property owner to privacy and to exclude others from the property to protect the owner's possessions and property.*
- 4. The right of a property owner to dispose of his or her property through sale or gift.*

Objective 2: To ensure fairness and balance for all property owners.

Policy 2.1: Vested property rights shall be protected, as provided by law.

Policy 2.3: When a specific action of the City has inordinately burdened an existing use of real property or a vested right to a specific use of real property, the property owner is entitled to relief, which may include compensation for the actual loss to fair market value of the property caused by the action of the City.

As previously mentioned, the subject property consists of a ±3.30-acre lot of record dating back to June 1, 1986. The creation of this lot predates the establishment of the Myakka State Forest in 1995 and the adoption of the 1988-1998 North Port Comprehensive Plan. Furthermore, the deeds of the original 1995 transfer of the lands comprising what is now known as the Myakka State Forest excluded the subject parcel from transfer to the receiving public agencies that would own and maintain the State Forest.

The Environmental Conservation zoning designation deprives this property of rights commonly enjoyed by other similar properties that are not intended for conservation purposes. Redesignation of this property to a zoning district that restores the ability to develop the property for uses that, provided the applicable state and local development regulations are met, would be compatible with the surrounding area is the corrective measure necessary to abide by the cited goals, objectives, and policies of the Property Rights Element.

Criterion 2: *Creating an isolated district unrelated to adjacent and nearby districts or resulting in an orderly and logical development pattern;*

While the subject petition would create an isolated district surrounded by Environmental Conservation zoning, the reason for the isolation is due to the adjacency of the subject lot on all sides to the thousands of acres contained within the Myakka State Forest. Other properties in closest proximity to the east are within Charlotte County and are characterized by a relatively low-density development pattern consisting of mostly 10,000 square-foot platted lots. Staff notes that the subject tract is an existing large private lot that has rural characteristics due to its size, location, and lack of proximity to public water and wastewater infrastructure and is therefore not consistent with the development pattern to the east.

The proposed Agriculture zoning provides a logical transition between the denser development to the east and vast expanse of conservation lands adjacent to the tract which accomplishes the intent of allowing reasonable property rights while limiting the uses that may adversely affect the surrounding conservation lands.

Criterion 3: *Capable of being served by public facilities, including adequate roadway capacity;*

The subject property is an existing lot that lies outside of the urban service boundary, and public utilities in the form of potable water and wastewater services are not proposed to be extended to areas designated Agricultural Estates on the Future Land Use Map (Utilities Element, Potable Water

Section, Policy 9.2 and Sanitary Sewer Section, Policy 8.2). The proposed zoning would not allow further division of the subject property which would limit the parcel to a maximum of one principal single-family dwelling as stipulated by ULDC Section 4.4.1.B. Furthermore, ULDC Section 1.3.3 exempts single-family structures from concurrency review, and ULDC Section 2.3.1 does not require a concurrency evaluation to be performed at the rezoning stage. However, impacts to public facilities including the adjacent roadway from which the parcel is accessed, Jennings Boulevard, are expected to be negligible due to the limited residential density and intensity of use allowed by the Agriculture zoning district and the relatively small area that is proposed to be rezoned.

Criterion 4: *Necessary due to changed or changing conditions;*

This criterion is not applicable. As mentioned previously, the subject privately-owned property was not intended to be held in conservation, and assignment of a zoning district that restores property rights afforded to other similar properties is justified by the provisions of the Comprehensive Plan.

Criterion 5: *Preventing the improvement or development of adjacent abutting property;*

This criterion is not applicable. The properties abutting the subject lot are all held in conservation and are not intended to be developed.

Criterion 6: *Granting a special privilege to an individual owner as contrasted with the public welfare;*

The present petition would not confer a special privilege to the subject property owner that is not afforded to owners of other similar properties. The approval of the present petition would restore the customary privileges associated with private ownership of property and maintain the overall public interest of protecting the City's natural resources from the intrusion of land uses of high intensity that could adversely affect those resources.

Criterion 7: *Unusable under the current zoning designation; and*

The Environmental Conservation zoning district significantly restricts the uses allowed on the subject property; a single-family residential use is prohibited by ULDC Table 3.2.3.1 in the EC zoning district. As a result, the subject property owner is unable to utilize the property for uses customarily allowed for similar properties. The proposed zoning

designation would allow limited uses which, developed in accordance with state, federal, and ULDC regulatory controls, are not anticipated to pose significant adverse effects to the natural environment.

Criterion 8: *Properly mitigating a changing scale to ensure compatibility with adjacent neighborhoods.*

The subject property is not immediately adjacent to any neighborhoods. However, as previously stated, the proposed Agriculture zoning provides a logical transition between the denser development to the east and vast expanse of conservation lands adjacent to the tract which accomplishes the intent of allowing reasonable property rights while limiting the uses that may adversely affect the surrounding conservation lands.

Based on the foregoing analysis, staff concludes that the subject zoning petition is consistent with the Florida Statutes, the Comprehensive Plan, and the Unified Land Development Code.

PUBLIC NOTICE

Notice of the public hearings and substance of the proposed ordinance was mailed to the owner as required by Florida Statutes Section 166.041(3)(c)(1) on July 30, 2025 (**Exhibit D**). The petition will be advertised at least 10-days before adoption in a newspaper of general circulation within the City of North Port pursuant to the provisions of Section 166.041(3)(a) of the Florida Statutes, Section 7.01(c) of the Charter of the City of North Port, and Section 2.1.4.L.2.f.1 of the City’s Unified Land Development Code as amended (**Exhibit E**). Notice of public hearings was mailed to all property owners within a 1,320 foot radius of the subject property 15 days of the first public hearing in accordance with the provisions of ULDC Section 2.1.4.L.3 (**Exhibit G**).

SECTION 1 – FINDINGS

- 1.01 The above recitals are true and correct and are incorporated in this ordinance by reference.
- 1.02 Pursuant to Florida Statutes Section 166.041(4)(a), the City timely posted a business impact estimate on the City’s website on or before the date the newspaper published notice of the final reading of this ordinance.
- 1.03 The City Commission finds this ordinance to be consistent with the adopted North Port Comprehensive Plan and Unified Land Development Code.
- 1.04 All exhibits attached to this ordinance are incorporated in this ordinance by reference.

SECTION 2 – REZONING

- 2.01 The City Commission hereby changes the zoning classification of the ± 3.30-acre area located in Section 24, Township 40 South, Range 20 East of Sarasota County and further described in Instrument No. 2022010157 in the Official Records of Sarasota County as shown on the boundary survey attached as “Exhibit A,” currently zoned Environmental Conservation District (EC), to Agriculture District (AG).
- 2.02 The City Commission approves the revised Official Zoning Map, attached as “Exhibit B,” reflecting the zoning change approved in this ordinance.

SECTION 3 – FILING OF APPROVED DOCUMENTS

- 3.01 The City Clerk is directed to place in the City Clerk’s files an updated Official Zoning Map in accordance with the requirements of Section 1.2.3 of the Unified Land Development Code.

SECTION 4 – SEVERABILITY

- 4.01 If a court of competent jurisdiction finds that any section, subsection, sentence, clause, phrase, or provision of this ordinance is for any reason invalid or unconstitutional, that provision will be deemed a separate, distinct, and independent provision and will not affect the validity of the remaining portions of the ordinance.

SECTION 5 – CONFLICTS

- 5.01 In the event of any conflict between the provisions of this ordinance and any other ordinance, in whole or in part, the provisions of this ordinance will prevail to the extent of the conflict.

SECTION 6 – EFFECTIVE DATE

- 6.01 This ordinance shall take effect upon the effective date of Ordinance No. 2025-22, regarding Amendment PFLU-25-02427 to the Comprehensive Plan. No development order or development permits dependent on this ordinance may be issued before it has become effective.

North American Industry Classification System (NAICS), the Institute of Transportation Engineers (ITE) manual, their successors, or another accepted professional reference.

- B. **Non-Residential Uses in Corridor Districts.** Business activity and deliveries in CT and COR are prohibited between 10 pm and 5 am. No waivers shall be granted to alter hours of operation.
- C. **Residential Uses in Corridor Districts.** Developments proposed to incorporate residential uses in Corridor districts (CT and COR) shall contain a minimum of two (2) distinct primary uses according to [Table 3.2.3.1.](#)
- (1). **Residential Uses.** Unless the City Commission approves a horizontal mixed-use alternative per paragraph a. below, residential uses in the Corridor districts shall be part of a project that is vertically integrated with non-residential uses. The residential use may not exceed 65% of the total FAR. When residential uses are included, the other uses shall be commercial, industrial, and/or office. Amenity areas provided for the enjoyment of residents or patrons shall not contribute to the non-residential percentage. A mixture of uses is not required in every structure when multiple buildings are proposed. Mixed-use buildings or commercial uses shall be oriented toward the front property line(s).
- a. **Horizontal Mixed-Use Alternative.** Horizontal mixing of uses may be authorized when the residential and non-residential uses meet all the following standards:
1. The proposed development shall have a binding concept plan approved by City Commission through the mandatory Master Concept Plan process described in [Chapter 2, Article II, Section 2.2.10.](#) of this ULDC;
 2. The residential uses include at least two distinct housing types. Single-family detached and two-family residential is prohibited;
 3. All residential use areas are within 0.25-miles or 1,320-feet from the non-residential uses;
 4. The residential and nonresidential uses are functionally integrated with:
 - i. Shared public space, parking, and amenity areas;
 - ii. Internal connecting pedestrian, bicycle, multi-use trails, and roadways; and
 - iii. Shared external access points.

Table 3.2.3.1. Use Table

Additional restrictions apply in the Conservation Restricted Overlay District, the Myakka River Protection Zone, and adjacent to wetlands per [Chapter 6, Article III.](#), [Chapter 6, Article VI.](#) and [Chapter 6, Article VIII.](#) of this ULDC.
