

MEMORANDUM
City Manager's Office

TO: A. Jerome Fletcher II, ICMA-CM, MPA, City Manager

THRU: Jason Bartolone, Communications Manager *JB*

CC: Jason Yarborough, Deputy City Manager
Juliana Bellia, Assistant City Manager

FROM: Laura Ansel, APR, CPRC, Marketing & Engagement Manager *LA*

SUBJECT: Community Budget Input update

DATE: June 14, 2024

Over the past few months, the Communications Division has been collaborating with Departments citywide to solicit input from residents and business owners through the Community Budget Input process. The following report summarizes our efforts as well as the feedback received from the public for Commission review and consideration.

COMMUNITY INPUT MEETINGS

- April 16, 2024, at 1:30 p.m. Growth and How to Pay for it, virtual meeting
 - 3 attendees
 - Shared to YouTube, 205 views, average view duration 3:05 minutes, 10.6 hours watch time
- April 18, 2024, at 6 p.m. Personnel & Operating Costs, virtual meeting
 - Canceled due to technical difficulties.
- April 30, 2024, at 10:30 a.m. Millage Rate & Taxes, virtual meeting
 - Canceled due to technical difficulties.
- May 7, 2024, at 9 a.m., Fiscal Year 2025 Budget Overview, in-person meeting
 - 2 attendees in person
 - Streamed live on YouTube and Facebook
 - *YouTube*: 65 unique viewers, 72 views, 5.3 hours watch time
 - *Facebook*: 1,758 reach, 808 minutes viewed, 23 minutes viewed on average
- May 7, 2024, at 6 p.m., Fiscal Year 2025 Budget Overview, in-person meeting
 - 2 attendees in person
 - Streamed live on YouTube and Facebook
 - *YouTube*: 54 unique viewers, 60 views, 2.6 hours watch time
 - *Facebook*: 982 reach, 582 minutes viewed, 33 minutes viewed on average

CLOSING THE LOOP

COMMUNITY ENGAGEMENT REPORT *Community Budget Input Process*

BACKGROUND

The Finance Department in the City of North Port prepares the budget for the City annually on behalf of the City Manager and in cooperation with all departments. The mission of the Finance Department is to achieve community outcomes by preserving the financial integrity and fiscal management of the organization, while assuring the availability of funds to accomplish the City's goals.

The final millage rate and the budgets, including non-district, three districts, and capital improvement budget, are adopted by City Commission approved resolutions (via two public hearings in September).

Gathering community input during city budgeting is crucial. It ensures residents' priorities are heard, leading to a budget that better reflects community needs. This two-way street fosters trust and transparency, while residents gain a deeper understanding of financial constraints. By incorporating resident voices, city officials can make informed decisions about allocating resources for programs and services that truly matter to the people they serve.

HOW IS THE BUDGET DEVELOPED PRIOR TO ADOPTION?

1. The City Commission establishes budget priorities and goals based on the community's needs and desires.
2. Revenues are estimated to determine the approximate amount of financial resources that will be available to fund City operations.
3. Expenditure requests and forecasts are prepared by the various City departments and submitted to the City Manager for review.
4. The City Manager submits a recommended budget that reflects the City Commission's established priorities and goals.
5. The City Commission seeks additional public input and discusses the City Manager's Recommended Budget. Changes are proposed and approved at the budget workshops.
6. Changes are made according to the City Commission's recommendations and the Commission Tentative Budget is prepared for presentation at the public hearings in September.

INITIATIVE: COMMUNITY BUDGET INPUT

The City of North Port collects feedback annually through the Community Budget Input process. Community Conversations typically begin in the Spring, with the Assumptions, Projections and Priorities workshop immediately following. Feedback collected during that time is provided to City leadership and City Commissioners prior to the Budget workshops beginning in June. For more information, please visit NorthPortFL.gov/BudgetInput.

At any time of the year, citizens can view the City's budget online or at the City Clerk's office in City Hall. The public is a critical part of the City's budget process and is encouraged to attend meetings when the budget is discussed. If unable to attend in person, citizens can watch the budget workshops live or on the archived videos located on the City's website. The public is also invited to write, call, e-mail and visit with the City Commissioners during the fiscal year to discuss the budget.

COMMUNITY BUDGET TOOL RESULTS

We asked the community to use our online Community Budget Tool to show us how they'd spend \$100 between the City's strategic priorities. City Commission set these priorities as part of their strategic planning process. Priorities include Safe Community, Quality of Life, Economic Development & Growth Management, Environmental Resiliency & Sustainability, Infrastructure & Facilities and Good Governance.

Attendance and participation:

As of June 5, 2024, this forum had 465 visits equivalent to 9.6 hours of public comment.

The image below shows the average allocations across all 100 responses from registered users. To download a full copy of all 100 individual budgets, please visit NorthPortFL.gov/BudgetInput. Additional information about the Fiscal Year 2024 Adopted General Fund Budget can be found at NorthPortFL.gov/Budget.

Safe Community - 22% Budget Tool average allocation

Quality of Life - 14% Budget Tool average allocation

Economic Development & Growth Management - 10% Budget Tool average allocation

Environmental Resiliency & Sustainability - 18% Budget Tool average allocation

Infrastructure & Facilities Integrity - 29% Budget Tool average allocation

Good Governance - 8% Budget Tool average allocation

How the City is using residents' feedback

The feedback from this budget tool assists the City in allocating funding that is aligned with the community priorities and strategic pillars, ensuring Commissioners have a better product for review during the Budget meetings. For more information about the strategic plan, visit NorthPortFL.gov/StrategicPlan.

NorthPortFL.gov/Engage

PARTICIPANT BUDGET TOOL FEEDBACK

"I believe that fostering quality of life, environmental conservancy, and infrastructure will contribute to positive development, positive safety outcomes, and prove excellent governance. Every extra dollar spent in the quality, environmental, and infrastructure areas will pay dividends to the other three areas."

Resident

"I feel Safe Community, Quality of Life, and Environmental Resiliency & Sustainability are all going well. We just need to maintain, and maybe minor improvements."

Resident

"Infrastructure has to be the most important element of the City budget. I think this year more emphasis should be paid on quality-of-life programs to help those who are struggling with exorbitant costs for housing, food and child-care. If you want people to live and work in North Port, you will have to address their needs."

Resident

More feedback from our residents

- "Thank you for all of your continued leadership and planning. Keep up the good work! Love my City!"
- "Protecting the community is the most important and should be the largest department of the city. Keeping the infrastructure current and working should be the next biggest role of the city. The growth and governance of the city should be the smallest part of the budget and should be reviewed for waste. Keeping the City a livable place is worth spending money on as long as the services are accessible for everyone and appeal to community."
- "This is a great tool because it shows you that you cannot have everything and it's so easy to go over budget."
- "Need to pivot more to economic growth and management and the infrastructure needed to support it."
- "With the growth of the city, traffic management should be one of the highest priorities. People are turned off and frustrated if traveling to and from our city streets is a constant aggravation and safety risk. Of the highest priority should be traffic-controlled intersections at the Sumter and Toledo Blade freeway ramps for the safety of the thousands who exit and enter our city via the freeway every day!"

Statement

need to prioritize storm safety and resiliency, need to stop trying to expand, everyone who moved here did so for quiet peaceful place without too many people, you are ruining this place and people who have come here cannot afford to live and are leaving. just make a small safe town, stop trying to turn this into a real city. (those suck , remember?)

FY2025 Community Budget Tool

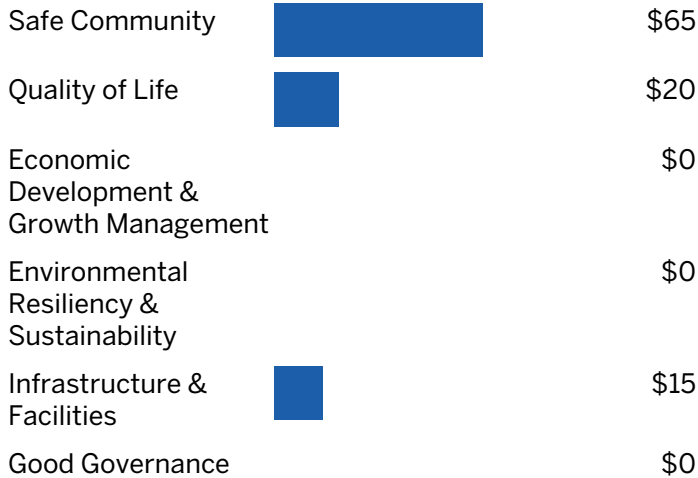

How would you spend \$100 on City Services?

Environmental Resiliency & Sustainability		\$30
Infrastructure & Facilities		\$25
Good Governance		\$10

Statement

The priorities of this city have been skewed for many years. A new focus must be placed on local conservation efforts and curtailing unchecked growth. These things done, fewer resources will be necessary for maintaining a safe community and restoring failing infrastructure - these things will settle on their own with sufficient maintenance. Far too much emphasis has been placed on expansion without any effective concern for the quality of life downturn that inevitably results.

North port (East of Toledo) where the residents feel as though their area is long forgotten with majority of funds being allocated to the west side of town to appeal to residents or wellen park etc (this is applicable from Sumter area and westward). It is very apparent that the closer to wellen park the more tax dollars are being allocated. I believe improving all main roads (Atwater, San Mateo, Haberland, Hillsborough etc) with not just pavement but trees (beautification) that these residents will drive by everyday and SEE their tax dollars going to use. And not the response to the residents that it will be reviewed annually, make the residents PROUD to live on their road which will motivate them to upkeep and fix up their homes which will ultimately improve the town. There is still work that needs to be done after ian, and its not catering to wellen park

Statement

I believe more should be focused on for environmental sustainability. Too much of the natural environment is being destroyed and ruining our environment. The new police station should NOT be done. There is much more important things to be concerned about, especially where there are areas for North Port to improve in, such as road safety, environmental education, and fixing the damage that has not been fixed from the hurricane. Help the citizens of North Port instead of giving the police more new equipment.

Statement

This city prioritizes growth too much and does not listen to the average citizen who wants very limited growth. We need to keep our city clean and free of garbage, graffiti etc. We need to preserve as many trees as possible and stop clear cutting. Safety is always a priority that needs some moderate investment. Road paving including residential streets is vital along with storm drains and bridges to make sure we are equip for rainy season.

Statement

Without public safety, you have no community and no one can be governed. Infrastructure is equally as important, to support the workforce. I would also consider increasing garbage pickup to twice a week. Quality of life, is also important and maybe consider volunteering to reduce costs. Economic development, really should be a minor role. When you establish a safe community with a rock solid group of volunteers under quality of life, business will come to you, provided we do not tax them out. Environmental that's not worth the investment. Most of that can come under community services and planning board.

FY2025 Community Budget Tool

How would you spend \$100 on City Services?

Statement

The city really needs to focus on making sure this area can handle all of the rapid development before even thinking about new growth and expansion. What good is hundreds of new businesses if there is no where to park, if they get flooded every time we have a rain storm? Roadways are not large enough for our vastly growing population and citizens are being killed every day as a result. Lets start there before we worry about how to get more people to move here and more tax payer dollars in the pockets of the big guys.

Statement

Stop the frivolous spending and fix the core infrastructure FIRST!
 Except for main roads, the majority of our side streets have NO lighting.
 Why did we need STAMPED CONCRETE on turn lanes?
 Why did we need to start with a "blue street sign" project which will take forever just "to be different"?
 Who approved a landscape layout for Biscayne Drive that included sight-blocking, fast growing hedges and oak trees that died anyway? Why not just grass and a few palm trees for easy, less \$\$\$ maintenance? SMH. Again.
 Why is it that I've lived here for over 18 years and I NEVER have seen a police car go by my house for patrol?
 Why is there a rusted out moldy car with no license plates allowed to stay on the driveway two doors down from my

FY2025 Community Budget Tool

How would you spend \$100 on City Services?

property? And when I went to City Hall was told "that house has so many liens on it..." and there's NOTHING THAT CAN BE DONE? Huh? So law-abiding citizens are cited for small infractions and leaving a waste can out but nothing can be done with a property that's a total S***hole?

Why do people constantly whine that there's nothing for kids? Did these people never have to drive more than five minutes growing up to see a movie or go bowling? And that Aquatic Center? Really?

City managers making exorbitant salaries? For what? To plant seeds for these kinds of decisions?

We need some sensibility. I am almost embarrassed to say I live here sometimes.

All present commissioners need to be voted out, and everyone I know agrees.

FY2025 Community Budget Tool

How would you spend \$100 on City Services?

Statement

Protecting the community is the most important and should be the largest department of the city. Keeping the infrastructure current and working should be the next biggest role of the city. The growth and governance of the city should be the smallest part of the budget and should be reviewed for waste. Keeping the city a livable place is worth spending money on as long as the services are accessible for everyone and appeal to community.

FY2025 Community Budget Tool

How would you spend \$100 on City Services?

Statement

With the growth of the city, traffic management should be one of the highest priorities. People are turned off and frustrated if traveling to and from our city streets is a constant aggravation and safety risk. Of the highest priority should be traffic controlled intersections at the Sumter and Toledo Blade freeway ramps for the safety of the thousands who exit and enter our city via the freeway everyday! Without the traffic controlled intersections at these freeway ramps, exiting to our city gives the impression of a rural nondescript town that lacks the population to have good traffic management at these exit and entrance points, which isn't the impression that our residents, community leaders and public officials want to represent for our city.

Name not available

ALERT

Thank you for your response. I do understand your reasoning on the Toledo Blade Resurfacing project, but maybe some money in the original design could have been better spent by adding a small berm on the Northbound land, it's only about 150 yards of two foot wide payment. This would finish out the piece that's missing up to Plantation Blvd that for some reason was never installed. This cost could have been achieved by not Resurfacing one or two of the areas that lead off Toledo Blade into a non developed wooded area that did not need resurfacing.

Good morning,

Thank you for your email. Please see the responses below from our Department of Public Works:

Question: "Why didn't the bike lane on Toledo Blade in front of the commercial bldgs near Plantation Blvd get added with the new pavement project."

Response: The City of North Port Toledo Blade Boulevard resurfacing was part of the annual Road Rehabilitation Project which consists of resurfacing, striping, curb repair and concrete turn lane maintenance, this was not a project to add bike lanes or additional traffic lanes.

Question: "Are there any talks about adding more bike lanes in NP?"

Response: The upcoming Price Boulevard Widening project between Toledo Blade Boulevard and Sumter Boulevard will consist of multimodal paths on both sides of the roadway, and the City of North Port also has an approved Mobility and Connectivity Plan that defines locations of future bike lanes as funding allows.

Hello,

Thank you for your question and input. Please see the responses below from our Utilities Department:

The proposed 2025 Budget includes \$3,000,000 for the Neighborhood Expansion project and the current 2024 budget includes \$1,329,400 for the Neighborhood Expansion Project.

The City has included the need to provide service to the individual lots outside of the current service area in Master Planning dating back to 1992. In 2020 the City contracted with a consulting firm to perform a study for the water and wastewater expansion to provide service to platted lots in the City. The consultant prepared “sewershed” maps, preliminary cost estimates, and a recommended phasing plan. A map showing the “sewershed” areas [is available on the City’s website](#). In December 2020 the City Commission directed staff to move forward with design of one portion of a “sewershed” area called Blue-Salford North. The design of a portion of the first “sewershed” is 90% complete with construction anticipated to begin in 2025. The City is also evaluating properties in the other “sewersheds” to select the most appropriate properties to locate vacuum stations to prepare for future expansion areas.

Thank you,

[ALERT]

What is the budget allocation for the water and sewer expansion? It was required over 50 years ago. Why are no actions being taken. Monies have been available through many sources over the years and currently.

Please let me know.

[ALERT]

I honestly think that the city should put the budget money in a more efficient way for the public roads and current utilities infrastructure to be updated

Good morning,

We have concluded our Community Budget Input Meeting schedule for this budget cycle. The meeting videos and presentations can be viewed online at [NorthPortFL.gov/BudgetInput](https://northportfl.gov/BudgetInput).

There will be City Commission workshops to discuss the proposed budget, tentatively scheduled for June 24 & 25, before the Commission holds public hearings to adopt the budget in the fall. Agendas will be published as we get closer to the meetings, and the full schedule can be found on our City website, [NorthPortFL.gov](https://northportfl.gov) (click on the "View City Meetings" button in the center of the page) or directly at <https://cityofnorthport.legistar.com/Calendar.aspx>

ALERT

Good morning! I see there was a community budget input meeting yesterday. I didn't know about it and I am sorry I missed it. The recordings are helpful, though.

Is there a list of future meeting dates & times? I tried to find it on the website, but I am sure I am doing something wrong.

Thank you for your help!

That is what I thought however, I hear talk that you (the City) is going to ignore this part of the Charter. Hopefully I am hearing incorrectly.

Good morning,

Thank you for the feedback. The City Charter currently prohibits the City from incurring any debt without voter approval.

For more information and answers to these and other Frequently Asked Questions about the proposed Police Headquarters, please visit NorthPortFL.gov/PoliceHQ.

ALERT

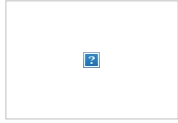

There is a rumor that the City is going to incur debt to build the new police facility without Voter approval. Please clarify. If you are unable to clarify, I am against any such idea. The voters have the right to decide if \$122,000,000.00 get spent on a building. Furthermore, I see no reason the existing building cannot be repaired and upgrade for far less than a new facility.
