I wish to serve on the Environmental Advisory Board because I care about the environment. I learned the terrible effects of humans on the environment throughout my life and wished to minimize the damage. To further my knowledge on the environment, I decided to take the AP Environmental Science course at my school. Throughout the year, we analyzed everything about the environment and ways to solve some problems. Although I may not be able to save the world, by participating in local efforts, I believe that we can make a change.
