PROJECT:	PSPP-25-01904; Preliminary Subdivision Plat of Madera at Wellen Park
REQUEST:	Consideration of Preliminary Subdivision Plat for Madera at Wellen Park
APPLICANT:	Christopher D. Jordan, PE, Stantec Consulting Services Inc. (Exhibit B, Affidavit)
OWNERS:	Thomas Ranch Land Partners Village I LLLP (Exhibit C, Warranty Deed)
LOCATION:	North of S Tamiami Trail and west of N River Road
PROPERTY SIZE:	± 8.6 acres
ZONING:	Village (V)

I. BACKGROUND & ANALYSIS

On April 21, 2025, the Planning & Zoning Division received a Preliminary Subdivision Plat petition from Christopher D. Jordan, PE, of Stantec Consulting Services Inc., for Madera at Wellen Park. The purpose of the petition is to create a 32-unit residential townhome subdivision with drainage and stormwater management facilities, landscaping, right-of-way, access points (ingress/egress), and utilities. The construction of the subdivision will include the installation of all required infrastructure, including but not limited to water and sanitary lines, roadways, drainage, stormwater management areas, drainage, utility, landscape and street tree easements.

The subject property is zoned Village (V) with a Future Land Use Designation of Village (V). The subject property is located within Village B in Neighborhood 2 (N2) within Wellen Park. With the addition of this project, 992 residential units will be permitted within Village B, which is under the total allowance of 1,200 residential units per the adopted West Villages Pattern Book. Inclusive of this project, the density for N2 will be under 4 dwelling units per acre, as required by the adopted Village B Pattern Plan. 60% of the project site is allocated as open space.

**FLORIDA STATUTES
CHAPTER 177**

F.S. 177.073(1)(e): "Preliminary plat" means a map or delineated representation of the subdivision of lands that is a complete and exact representation of the residential subdivision or planned community and contains any additional information needed to be in compliance with the requirements of this chapter.

Findings: The subject preliminary plat meets the definition of a "preliminary plat" and contains all required information for compliance with Chapter 177. Any forthcoming final plat will be required to be consistent with the approved preliminary plat.

Conclusion: PSPP-25-01904 was reviewed and found to be in conformance with Chapter 177, Florida Statutes.

**COMPLIANCE
WITH THE
COMPREHENSIVE
PLAN**

POLICY FLU 1.8.1. IMPLEMENTING UNIFIED LAND DEVELOPMENT CODE

The City shall enforce creative, innovative land development regulations which contain specific provisions to implement the adopted Comprehensive Plan. Improvements to the land development regulation process shall focus on efficiency and effectiveness through a streamlining of procedures. Land development regulations shall, at a minimum:

1. Regulate the subdivision of land.

Findings: The subject preliminary plat application was submitted in accordance with the procedures of the ULDC and meets all requirements of the ULDC, implementing the vision of the Comprehensive Plan as required by the above Policy.

Conclusion: PSPP-25-01904 is consistent with Policy FLU 1.8.1 of the Comprehensive Plan.

POLICY FLU 2.1.1. SITE AND SUBDIVISION DESIGN

The City shall require that site and subdivision designs are developed according to a process in which the design begins with consideration of connected, integrated open space, followed by definition of development areas and locations of streets and trails to minimize impacts to natural features and environmental systems, and concludes with the establishment of lots/lot lines.

Findings: The subject preliminary plat represents a subdivision that is designed in an orderly manner that proposes development areas including residential lots, and associated roadways, stormwater management ponds, and other elements outside of environmental

systems. No impacts are planned to on-site wetlands, which are proposed to be preserved with 25' wetland buffers.

Conclusion: PSPP-25-01904 is consistent with Policy FLU 2.1.1 of the Comprehensive Plan.

Transportation Element, Policy 5.5: The City shall continue to implement the land development regulations, implementing City standards which require developers to provide bicycle/pedestrian pathways, where appropriate, in new subdivision developments

Findings: There are 5' sidewalks on both sides of all internal roadways within the proposed subdivision. The internal sidewalk network connects to existing sidewalks along U.S. 41, ensuring a continuous bicycle/pedestrian system for future residents.

Conclusion: PSPP-25-01904 is consistent with Transportation Element, Policy 5.5 of the Comprehensive Plan.

Public School Facility Element, Objective 1.6: Implement Public School Concurrency

The City shall evaluate future land use changes, rezoning, and subdivision and site plan petitions for residential development to ensure adequate school capacity is available consistent with adopted level of service standards for public school concurrency.

Findings: A School Concurrency Determination Letter of Receipt was submitted with the subject Preliminary Subdivision Plat application, consistent with the requirements of the ULDC and the processes of the Sarasota County School Board.

Conclusion: PSPP-25-01904 is consistent with Public School Facility Element, Objective 1.6 of the Comprehensive Plan.

Housing Element, Objective 1: To provide a variety of housing types and affordability levels to accommodate the present and future housing needs of North Port residents.

Findings: The proposed 32-unit townhome subdivision will increase housing options within the City, consistent with the above Objective.

Conclusion: PSPP-25-01904 is consistent with Housing Element, Objective 1 of the Comprehensive Plan.

COMPLIANCE WITH ULDC

Chapter 4 Article XII-Subdivision Standards

1. *No subdivision shall be platted or recorded, no lot shall be sold, and no building or development permit be issued unless the subdivision meets all applicable laws of the state, this ULDC, and has been approved by the City in accordance with the requirements Chapter 2, Article II., Section 2.2.9. for Preliminary Subdivision Plat and Final Plat.*

Findings: The preliminary subdivision plat was reviewed for conformance with the ULDC.

Conclusion: PSPP-25-01904 was reviewed and found to be in conformance with the required lot sizes, easements and the right-of-way dimensions set forth within the Unified Land Development Code.

ENVIRONMENTAL

A formal environmental survey has been completed on the site. All permits will be issued in accordance with State and Federal standards.

FLOOD ZONE

The site is in a FEMA Flood Zone "AE" (1% annual chance flood for which base flood elevations (BFEs) have been determined) according to Flood Insurance Rate Map for Sarasota County, Community Panel No. 12115C0370G, revised March 27, 2024.

III. STAFF REVIEW

The preliminary subdivision plat underwent a thorough review by the development review committee staff, who carefully examined its various components, including layout, zoning compliance, and environmental impact. After a detailed assessment, the committee identified no issues or concerns, indicating that the proposal meets all necessary guidelines and regulations for moving forward in the development process.

IV. LEGAL REVIEW

The City Attorney's Office reviewed and approved the proposed Resolution 2025-R-71 as to form and correctness.

V. STAFF RECOMENDATION

Recommended Action:

Approve the preliminary plat as presented by the Applicant.

Commission Options:

Option 1: Approve the preliminary plat as presented by the Applicant.

Pros:

- **Consistent with the adopted Village B Village District Pattern Plan:** The project is located within Wellen Park in Village B, an area planned for residential growth and supports the city's intent to provide a mix of housing options.
- **Stormwater Management:** Includes two new lakes designed to attenuate and treat runoff, ensuring compliance with water quality and flood control requirements.
- **Compact Housing Form:** Provides 32 townhome units, diversifying housing stock and potentially supporting affordability goals

Cons:

- **Traffic Impacts:** Additional residential units may contribute to increased traffic volumes along U.S. 41 and within the Wellen Park area, potentially requiring monitoring or future improvements.
- **Environmental Impacts:** While mitigated through stormwater lakes, increased impervious surface could reduce pervious area and tree coverage.
- **Construction Disruptions:** Construction in proximity to U.S. 41 may temporarily affect traffic flow and cause localized disturbance.

Option 2: Deny the preliminary plat as presented by the Applicant.

Pros:

- **Traffic Mitigation:** Denial would avoid adding new vehicle trips in the Wellen Park area and along U.S. 41.
- **Environmental Preservation:** Retains existing pervious surface area and tree coverage.

Cons:

- **Lost Housing Opportunity:** Denial would limit the provision of 32 single-family attached homes, reducing diversity in the city's housing supply.
- **Inefficient Land Use:** Leaves the parcel undeveloped, potentially underutilizing land within a planned growth area, adjacent to available infrastructure.
- **Interruption of Planned Development Pattern:** Creates a gap in the continuity of Wellen Park's build-out and may undermine long-range planning objectives.

VI. PUBLIC NOTICE AND HEARING SCHEDULE

Notice of Public Hearings were mailed to the owner and property owners within a 1,320-foot radius of the subject property on **October 21, 2024**. The petition was also advertised in a newspaper of general circulation within the City of North Port on **October 26, 2025**, in accordance with the provisions of Section 166.041, Florida Statutes and Section 7.06 of the Charter of the City of North Port, and Chapter 2, Article II, Section 2.2.2 of the City's Unified Land Development Code (ULDC) as amended (Exhibit E).
