

Land acquisition recommendation review

Summary of the past recommendation

Authored June 6, 2023

Purchase land adjacent to North Port Conservancy lots and North Port City owned lots that can help preserve trees and create wildlife corridors

Specific lots listed

Reiterates the EAB's charter

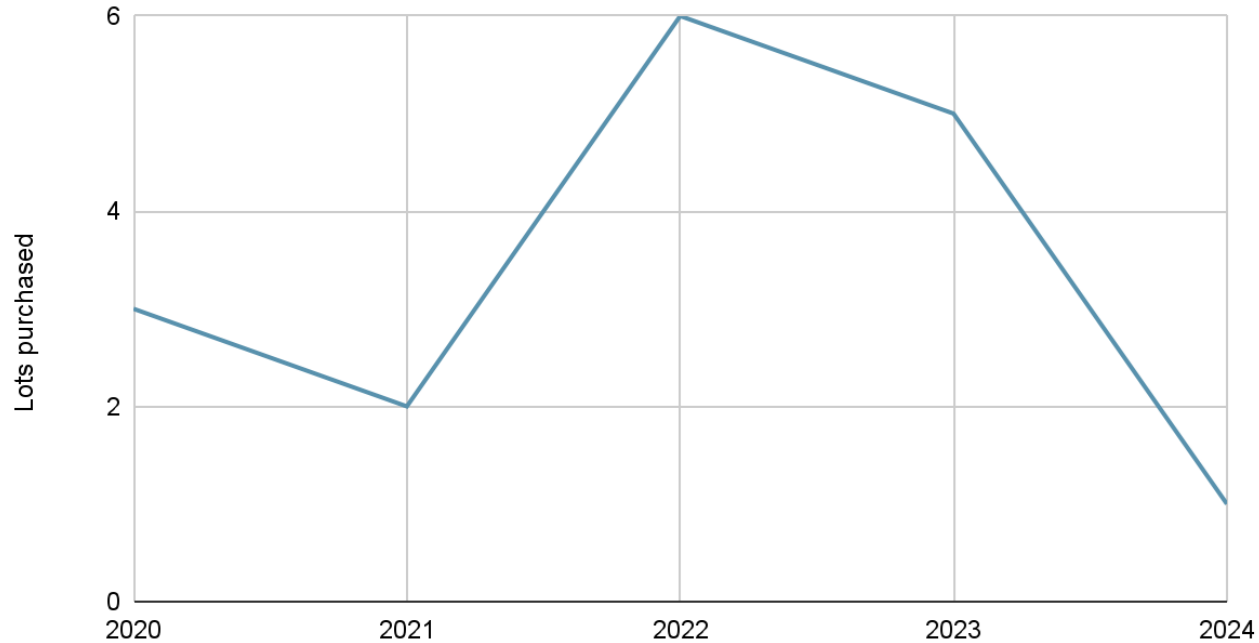

Requests Tree Fund monies be used

Definitely a worthwhile endeavor

2 of last 20 EC purchases have been in NP. Rest in surrounding areas

Environmental Conservancy

Additional thoughts for discussion.....

Are canals built in Wildlife Corridors?

Purchase properties adjacent to canals?

- Help with flood control
- Easier access for Public Works to clear debris and maintain flow
- Water sources are natural gathering places for wildlife
- Better experience for kayakers, etc.

Turn into a Tree Canopy Strategy? Plant and purchase?

Add a category Environmental Scorecard for acres under Conservation Easement?

Timing vis a vis budget process

New City Commission makeup

Examples
