# Performance Dashboards

Presentation to the City Commission

October 8, 2024

# Purpose of the Dashboards

- Provide timely, accurate and comprehensible data to the public and City leadership on progress towards our established goals and performance targets.
- Improve and highlight the City's commitment to transparency and accountability.
- Transition the City from static data to interactive dashboards.
- Aligns performance measures and output measures with departmental core service areas.

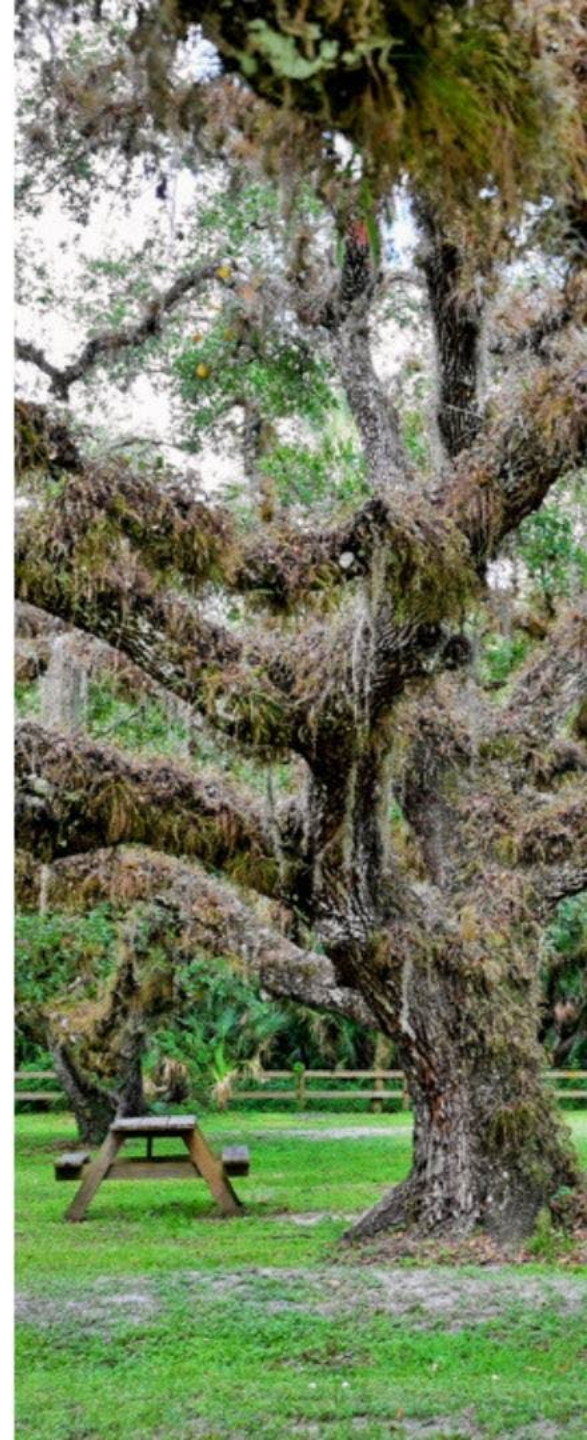

# Performance Dashboards - Departments

- Historically information was provided monthly in department reports.
- Transitioned to public facing dashboards in 2022.
- Data updated in varying frequencies:
  - Monthly
  - Quarterly
  - Annually
- Reviewing and updating as business process and best practices evolve.

# Performance Dashboards – Strategic Pillars

- New portion of the performance dashboards.
- Includes information and status updates on Strategic Vision Plan Indicators.
- Data comes from various sources:
  - Internal data collection
  - Census data
  - National Community Survey Results
- Statuses and updates are being included as data is available.

# Demonstration of Dashboards

- Accessible at any time via the City website.
