

Non-Competitive Procurement Memorandum

Date: November 19, 2024

Subject: Procurement Justification of B&E Signals & lighting for Signal Services

Rationale for the Method of Procurement: The City of North Port unilaterally initiated an assumption of contract, using the City of Sarasota's agreement, with B&E Signals and Lighting to perform emergency signal repairs to City streets.

Contractor Selected: B&E Signals & Lighting

Contract Type: Fixed price, based upon revised statements of needs from the City.

Explanation of Contract Price: The City of North Port communicated with B&E a known vendor to the City, to obtain quotes for a signal head at the intersection of Salford Boulevard and Price Boulevard to be replaced due to damage. Quotes were provided as not-to-exceeds and then revised as necessary with/for new scope.
