FROM: A. Jerome Fletcher II, ICMA-CM, MPA, City Manager

TITLE: Technology Services Agreement Between Sarasota County and the City of North Port for the County's Continued Provision of Hosting services for the City of North Port Servers and Network Equipment for the Term of One year in an Amount Not to Exceed \$4,428.08.

Recommended Action

Technology Services Agreement Between Sarasota County and the City of North Port for the County's Continued Provision of Hosting services for the City of North Port Servers and Network Equipment for the Term of One year in an Amount Not to Exceed \$4,428.08.

Background Information

Sarasota County's Information Technology Department provides data center hosting services to regional partners. The advantage of continuing this agreement with the County is two-fold. First, the cost is much less than going with a commercial vendor and secondly, the city already has an existing fiber connection from City Hall to Sarasota County's Data Center network.

Planning for disaster recovery is very important to ensure continuity of operations for City services. With the approval of the Technology Service Agreement, the City of North Port will have the ability to continue disaster recovery services.

Amendment No. 3 is for the one-year renewal of the existing agreement in an amount not to exceed \$4,428.08.

This agreement has been reviewed and approved for form and correctness by the City Attorney.
