

ULDC Re-Write History

2015

Weiler Engineering Corp. reviewed the ULDC and provided recommendations for revision, including:

- Reorganization
- Language/Content Simplification
- Condense the chapters
- Create separate technical design manuals
- Rethink development applications
- Agreement made with the University of Florida for the ULDC update.

Public Notice

- Above and beyond the requirements, holding 30 public meetings, producing podcasts, social media posts, a video FAQ series, fact sheets, and a webpage to inform the public.
- Day and evening meetings and videos are available on demand, and the public has many ways to provide comments if they cannot attend in person.
- Met with concerned residents to answer questions. We take transparency seriously and have gone above and beyond what's required to inform the public.
