## NORTH PORT FIRE RESCUE RETURN TO WORK FORM

Employee's Name: North Port Fire Dept (Please Print) Date: \_\_\_\_\_

Physician's Name: STEVE MANUSMP (Please Print) Date: \_\_\_\_\_

### TO BE COMPLETED BY AN PHYSICIAN

Sept 8, 2022

North Port Fire Rescue has adopted the 13 Essential Job Tasks as listed in NFPA 1582, Section 9.1.3, 1-13 as a standard reference of abilities required for returning to work. This form has been created to assist the physician when determining if the employee is medically able to return to full firefighting duty per S.O.G. 260.020.

### CHAPTER 9.1.3 ESSENTIAL JOB TASKS – EVALUATION OF MEDICAL CONDITION

The above listed employee is medically able to perform the 13 Essential Job Tasks listed below based on my assessment. Circle either (Yes) or (No) as appropriate.

- 1) Performing fire-fighting tasks (e.g., hoseline operations, extensive crawling, lifting and carrying heavy objects, ventilating roofs or walls using power or hand tools, forcible entry, etc.), rescue operations, and other emergency response actions under stressful conditions while wearing personal protective ensembles and SCBA, including working in extremely hot or cold environments for prolonged time periods.  
(YES) or (NO)
- 2) Wear an SCBA, which includes a demand valve – type positive-pressure facepiece or HEPA filter masks, which require the ability to tolerate increased respiratory workloads.  
(YES) or (NO)
- 3) Exposure to toxic fumes, irritants, particulates, biological (infectious) and no biological hazards, and/or heated gases, despite the use of personal protective ensembles and SCBA.  
(YES) or (NO)
- 4) Depending on the local jurisdiction, climbing six or more flights of stairs while wearing fire protective ensemble weighing at least 50 lb (22.6 kg) or more and carrying equipment/tools weighing an additional 20 to 40 lb (9 to 18 kg).  
(YES) or (NO)
- 5) Wearing fire protective ensemble that is encapsulating and insulated, which will result in significant fluid loss that frequently progresses to clinical dehydration and can elevate core temperature to levels exceeding 102.2°F (39°C).  
(Yes) or (No)
- 6) Searching, finding, and rescue-dragging or carrying victims ranging from newborns up to adults weighing over 200 lb (90 kg) to safety despite hazardous conditions and low visibility.  
(YES) or (NO)
- 7) Advancing water-filled hoselines up to 2 1/2 in. (65 mm) in diameter from fire apparatus to occupancy [approximately 150 ft (50 m)], which can involve negotiating multiple flights of stairs, ladders, and other obstacles.  
(YES) or (NO)
- 8) Climbing ladders, operating from heights, walking or crawling in the dark along narrow and uneven surfaces, and operating in proximity to electrical power lines and/or other hazards.  
(YES) or (NO)
- 9) Unpredictable emergency requirements for prolonged periods of extreme physical exertion without benefit of warm-up, scheduled rest periods, meals, access to medication(s), or hydration.  
(YES) or (NO)

**MEDICAL CERTIFICATION FOR VICTOR CLEVELAND**

I hereby certify that my patient, Victor Cleveland, is totally and permanently disabled to the extent that he is wholly prevented, by reason of his medically determinable physical impairment from rendering useful and efficient service as a firefighter due to Malignant neoplasm of sigmoid colon.
