4970 City Hall Boulevard, Suite 337
North Port, Florida 34286

RE: RFP No# 2023-38 Professional Surveying Services -Continuing Contracts for City of North Port

Dear Members of the Evaluation Committee,

As a full-service surveying, mapping, and geospatial firm, we are focused on meeting community needs. For over 46 years, we have provided surveying and mapping services throughout Florida. Dewberry's large, in-house survey staff are well-versed in the rigors of on-call assignments and the immediate response time they require. We utilize state-of-the-art equipment to provide cost-effective surveying, right-of-way (R/W) mapping, utility designation, and subsurface utility engineering (SUE) for municipal, utilities, roadway, and civil development projects. **Our local knowledge and experience eliminate our team's learning curve** and provide the following benefits:

EXTENSIVE SURVEY AND MAPPING EXPERIENCE FOR MUNICIPALITIES. Our team has worked on numerous on-call contracts for multiple government agencies and municipalities. Dewberry currently holds survey contracts for a variety of public and private clients, including Orange and Volusia Counties, the Cities of Deltona, New Smyrna Beach, and Orange City, the Florida Department of Transportation (FDOT) Districts One, Two, and Five, Florida Power and Light, and the Central Florida Expressway Authority. In total, we have performed over 10,000 surveys, from a single residential lot to 23,000-acre projects and over 800 miles of roadway. **Our team's experience in providing surveying and mapping for continuing services contracts is an asset.**

LOCAL, DEDICATED PROJECT MANAGER BACKED BY COMPREHENSIVE TEAM. With the capacity of producing 150,000 man-hours annually, our team is one of the largest and most experienced surveying firms in the state. Managing this contract from our office in Sarasota, our Project Manager, **Jonathan Gibson, PSM**, will remain actively engaged on all the City's assignments and will access the full complement of Dewberry's personnel, resources, and facilities to make each project cost-effective while meeting the schedule objectives. Our local team has over 85 professionals, including nine Professional Surveyors and Mappers, 15 Survey/Remote Sensing Technicians, 19 Survey Crews, and two Utility/SUE crews. Our crews are permanently based in Florida, safety trained and certified in maintenance of traffic (MOT) as well as, E-Rail Safe and Roadway Protection Training with CSX Transportation (CSX) and Norfolk Southern.

CLIENT FOCUSED FIRM. We are committed to putting our clients first. Having provided continuing survey and mapping services for numerous agencies and municipalities throughout Florida, our team's experience, combined with our commitment to safety and quality control, provides our clients with consistent, quality services.

Thank you for the opportunity to submit our qualifications for this important contract. Should you have any questions regarding our proposal, please let me know.

Sincerely,

Jonathan Gibson, PSM
Associate, Business Unit Manager

TAB 2: Qualifications of the Consultant Firm

Tab 2

Dewberry

www.dewberry.com

QUALIFICATIONS OF THE CONSULTANT FIRM

Dewberry is a leading, market-facing firm with a proven history of providing professional services to a wide variety of public- and private-sector clients. Recognized for combining unsurpassed commitment to client service with deep subject matter expertise, Dewberry is dedicated to solving clients' most complex challenges and transforming their communities.

Established in 1956, Dewberry is a family-owned corporation headquartered in Fairfax, Virginia for 65 years, with more than 50 locations and 2,000 professionals nationwide. Dewberry has been located in the State of Florida for over 46 years.

Company Qualifications and Capabilities Location

Dewberry has extensive experience with continuing services contracts for as-needed surveying assignments. Our large, in-house survey staff are well-versed in the rigors of on-call assignments and the immediate response time they require.

We utilize state-of-the-art equipment to provide cost-effective surveying and mapping, construction staking, as-builts, utility designation, and SUE for utilities, municipal, roadway, and civil development projects.

Dewberry currently holds survey contracts for a variety of public and private clients, including the City of New Smyrna Beach, Florida Power and Light, Tampa Bay Water, the Florida Department of Transportation (FDOT) Districts One, Two, and Five, Orange and Volusia County, the Cities of Deltona and Orange City, and the Central Florida Expressway Authority. These assignments include all of the required tasks set forth in the City of North Port's RFQ, with a diverse mix of assignments.

We possess deep support in personnel, equipment, and computer processing resources to handle all survey and mapping tasks. Our services include:

- ALTA/NSPS land title surveys
- Appraisal mapping

TAB 3: Qualifications of the Project Team/
Project Management Experience

QUALIFICATIONS OF THE PROJECT TEAM/ PROJECT MANAGER EXPERIENCE

Dewberry has assembled a strong team of professionals for this contract. Our depth of experience includes local knowledge within the City of North Port and a combined support staff of more than 100 individuals, allowing for immediate response on task orders for this contract. Our team is prepared to provide the full support and dedication necessary to the City of North Port using our in-house resources and expert staff. Per the City of North Port’s request, we have included the resumes of our key personnel in this section. We will be happy to provide additional information upon request

AS ONE OF THE LARGEST AND MOST EXPERIENCED SURVEYING AND MAPPING FIRMS In FLORIDA, DEWBERRY HAS THE CAPACITY OF **150,000 MAN-HOURS OF PRODUCTION PER YEAR**

E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT

(Complete one Section E for each key person.)

12. NAME Jonathan Gibson, PSM	13. ROLE IN THIS CONTRACT Project Manager	14. YEARS EXPERIENCE <table style="width: 100%;"> <tr> <td style="width: 50%;">a. TOTAL 17</td> <td style="width: 50%;">b. WITH CURRENT FIRM 4</td> </tr> </table>		a. TOTAL 17	b. WITH CURRENT FIRM 4

15. FIRM NAME AND LOCATION (City and State) Dewberry Engineers Inc. (Panama City, FL)					
16. EDUCATION (Degree and Specialization) BS/Geomatics	17. CURRENT PROFESSIONAL REGISTRATION (State and Discipline) Professional Surveyor and Mapper/FL, AL				

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Jonathan Gibson has extensive experience in all aspects of land surveying in support of engineering design, including linear \ transportation projects, utility upgrades, commercial and residential development projects, as well as specific purpose and construction layout services. He has experience in providing certified ALTA/NSPS surveys, which involve review of title work and land use and zoning documents.

19. RELEVANT PROJECTS

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
	FPL, Redwood to Wewahitchka Route (Bay County, FL)	PROFESSIONAL SERVICES 2023	CONSTRUCTION (If applicable) N/A
a.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Manager. Dewberry performed 54 Subsurface Utility Engineering Level A soft digs each being located at proposed pole locations for the installation of power poles along the Redwood to Wewa Road 115K corridor located in Bay County, Florida. Our team excavated 8'x 8' "L" and "X" shaped trenches to a depth of 10' to locate, verify, and collect horizontal and vertical positions on any existing utilities that were located within proposed pole locations. We coordinated with Sunshine 811 to properly facilitate the excavation of these sites. Our team created test hole reports for each location that detailed found utilities and their depths. These reports included a sketch of the site showing improvements, pole location, and present utility data as well as photos of the site at all stages of the excavation and photos of all found utilities.		
	Lift Station 2 TECO (Plant City, FL)	PROFESSIONAL SERVICES 2023	CONSTRUCTION (If applicable) N/A
b.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm QA/QC. Dewberry provided professional surveying services for City of Plant City, specifically a sketch and legal description for TECO utility easement for a new transformer at City of Plant City Lift Station 2 site.		
	FPL, Holopaw Solar Site (Palm Beach County, FL)	PROFESSIONAL SERVICES 2023	CONSTRUCTION (If applicable) N/A
c.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Manager. Dewberry has provided a wide variety of surveying services for the Florida Power & Light Holopaw Solar Site project since its inception in 2017, consisting of large-scale ALTA/NSPS Land Title Boundary Survey, sketch and legal descriptions, traditional topographic surveys, LiDAR-based topographic surveys with traditional control and verification, subsurface utility engineering services, and staking services. Our involvement with the project centered around providing survey support for the acquisition of the site and providing support to the sites internal division into the desired boundaries intended to be a multi-phase solar site that includes a substation. Since 2017, we have created and maintained ALTA/NSPS Land Title Boundary Survey for the site and facilitated the creation of access easements allowing for legal access to the property. We have worked with Palm Beach County and contractors to ensure all parties are informed and operating cohesively. Our team has additionally provided topographic surveys including both traditional and LiDAR-based topographic surveys for the 2,187 acre site.		
	FPL, Cedar to Ranch (West Palm Beach, FL)	PROFESSIONAL SERVICES Ongoing	CONSTRUCTION (If applicable) N/A
d.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm QA/QC. A comprehensive scope of services that comprised a route-of-line survey and topographic survey for design purposes within the first stage the project. The second stage of the project included comprehensive sketch and descriptions of easements and boundary surveys of roughly forty parcels within Palm Beach County.

b.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Manager. Dewberry provided professional surveying services, specifically a boundary survey of the New Smyrna Beach Utilities Commission parcel used for the Airport Substation.		
	Lake Wales Water Main Replacement (Lake Wales, FL)	PROFESSIONAL SERVICES 2021	CONSTRUCTION (If applicable) N/A
c.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Survey Project Manager. Dewberry provided the survey and design of two phases of a potable force main within existing residential areas for the City of Lake Wales. Our survey group performed control and R/W surveys, as well as topographic, utility (ASCE Quality Level B field designates), wetland surveys, and SUE for the utility design. Potential conflicts and tie in locations were identified and vertical verification holes were established in accordance with ASCE quality Level A SUE guidelines. The composite survey database was created in Civil 3D format and included existing platted R/W and parcels lines and existing water facilities. Once the route selection was solidified, our mapping team prepared the easement descriptions to be used for acquisition.		
	McIntosh Wetlands Preserve Ph II (City of Plant City, FL)	PROFESSIONAL SERVICES 2022	CONSTRUCTION (If applicable) N/A
d.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm QA/QC. Dewberry provided professional surveying services for the City of Plant City, specifically wetland and topographic survey. We flagged wetland delineation of thirty-three wetlands. In addition, we provided topographic survey of the east canal, along the canal running north, south along the east side of the site, and a cross section near the southwest corner of the site.		
	Mosquito Control Parcel 101 (Orange County, FL)	PROFESSIONAL SERVICES 2022	CONSTRUCTION (If applicable) N/A
e.	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Project Manager. Dewberry provided a boundary and topographic survey for the Mosquito Control office for Orange County. Our survey group was tasked with performing a boundary survey for the site. We identified property corners and reestablished the boundary of the site. We established control and located improvements and topography of the entire site and outbuildings, for use in the topographic survey that followed. Improvements adjacent to the site were included as part of the topographic survey to produce adequate data to provide for future engineering of the site. Our team compiled a survey database in Civil 3D, platted existing R/Ws and the surrounding parcels along with developing a surface model to display contour data across the site. Utility information for the site was retrieved and a drainage network was established within the base file. Additionally, we provided an exhibit of the site for the Orange County Property Appraiser that was needed to update maps online after the parcel acquisition.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Dewberry provided the survey and design of two phases of a potable force main within existing residential areas for the City of Lake Wales. Our survey group performed control and R/W surveys, as well as topographic, utility (ASCE Quality Level B field designates), wetland surveys, and SUE for the utility design. Potential conflicts and tie in locations were identified and vertical verification holes were established in accordance with ASCE quality Level A SUE guidelines.

The composite survey database was created in Civil 3D format and included existing platted R/Ws and parcels lines and existing water facilities. Once the route selection was solidified, our mapping team prepared the easement descriptions to be used for acquisition. For the parcels that were not successfully purchased, our team prepared boundary surveys and expert witness support to the City legal team for condemnation proceedings. Prior to construction, site control was reestablished for the site contractor.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Dewberry performed 54 Subsurface Utility Engineering Level A soft digs, each being located at proposed pole locations for the installation of power poles along the Redwood to Wewa Road 115K corridor located in Bay County, Florida. Our team excavated 8'x 8' "L" and "X" shaped trenches to a depth of 10' to locate, verify, and collect horizontal and vertical positions on any existing utilities that were located within proposed pole locations. We coordinated with Sunshine 811 to properly facilitate the excavation of these sites. Our team created test hole reports for each location that detailed found utilities and their depths. These reports included a sketch of the site showing improvements, pole location, and present utility data as well as photos of the site at all stages of the excavation and photos of all found utilities

TAB 5: Project Control/Approach

PROJECT APPROACH

Once we have been given a specific assignment, we will begin by assessing the most cost-efficient technology while meeting the scope objective of the project. We will perform project research, refine the project scope, define the team and responsible support, and create the staff hours and fees.

Scheduling/Ability to Adhere to Schedules

Our in-house communication begins with weekly production meetings, schedules, and resource planning each Monday. At this time all existing projects are discussed to identify progress, schedule, budget, and challenges that may need to be addressed. All intermittent issues noted during a project are brought forth to the project manager immediately for resolution and recommendation to the client to not impede project schedules. Following the production meeting, kickoff meetings are held for new projects. Each project is assigned to a team that contains a project surveyor, survey technicians, field crews, and utility teams, if applicable.

These assignments are loaded into the project schedule and production minutes to identify the responsible party, deliverables, and due dates for each task. As **Project Manager, Jonathan Gibson, PSM**, will provide effective and continuous communication among all team members for each project assignment. Jonathan will remain actively engaged on all the City's assignments and will access the full complement of Dewberry's personnel, resources, and facilities to make each project cost effective while meeting the schedule objectives.

The Dewberry team has utilized many innovative concepts to assist our clients with their project needs. Dewberry employs SharePoint, Microsoft Teams, and other fully interactive cloud space tools to share project data with clients and other team members. We will work with the City to set up a shared and hosted server account for this contract. This technology allows the City's project manager access to project correspondence, research, and submittal items and the ability to deliver project-specific data into the portal for team use. This site will also allow the team to operate in a fluid environment without regard to email file sizes, mailing data, or meeting for minor project details.

Commitment to Safety

One of Dewberry's corporate policies is to comply with safety guidelines. Our company has weekly safety meetings and recently updated its Surveyor Safety Handbook to meet

current requirements. Our survey crew members have been provided Certified CPR/First Aid Training, MOT Training, CSX and FEC Railroad Safety Training. Any required permits will be obtained prior to commencing fieldwork. Each survey crew consists of two, three, or four members, trained in the State of Florida's MOT and Safety Program. They are experienced with working within highway corridors. Dewberry's commitment to safety is not limited to survey and office procedures alone, our process allows us to maintain an excellent safety and accident record.

Topographic Surveys

At Dewberry, we pride ourselves on the fast and accurate collection of topographic data. We have prepared topographic surveys on thousands of acres, and recently completed survey control, ground check-points, and remote sensing acquisition for a topographic survey of Everglades National Park totaling 2,600 square miles. Recently, the Dewberry Survey Team performed boundary survey for Mosquito Control Pacer 101 for Orange County. They identified property corners and reestablished the boundary of the site. This was completed on time and on budget.

Dewberry is committed to maintaining technology to obtain topographic data efficiently and quickly. Our crews are equipped with GPS equipment and the latest in all-terrain vehicles to access the harshest of conditions.

Whether the task at hand is an existing wastewater treatment facility or a vacant piece of land slated for new development, our group is trained to identify grade breaks, drainage areas, as well as physical improvements and to identify these features accurately within the design file.

Many times, tree surveys are included within the topographic parameters, and we can perform tree surveys and identify size, type, and particular species when needed.

Property/Boundary Surveys

Dewberry has a high level of competence in boundary surveys. From a single platted lot to a 23,000- acre sectional survey, Dewberry has performed several thousand boundary surveys in the past 45 years.

Our team has produced boundary surveys that require retracement of old platted subdivision blocks, sectional analysis, metes and bounds parcels, and many times a combination thereof. A great deal of research, deed and title review, field survey, and thorough understanding of

occupation and apparent physical use are all utilized in assessing the limits depicted in a boundary survey.

Dewberry currently maintains a relationship and continuing services contract with FDEP and has a clear knowledge of boundary surveys containing sovereign and submerged lands and water boundaries. All our work is performed in accordance with the applicable guidelines set forth by the Minimum Technical Standards pursuant to section 5J17-052. Recently, the Dewberry Survey Team has completed boundary survey for Holowpaw Solar Site located in Palm Beach County, FL for FPL. This was completed on time and on on budget.

Construction Layout

Dewberry has an in-depth knowledge of the construction process and construction. A successful construction project is a result of good team coordination and responsive QC. All survey layout performed by the firm is reviewed the very next morning after the staking occurs.

Our focus is to implement a team that operates as an extension of the contractor to avoid costly delays and re-work. Our crews are prepared for their staking assignments prior to getting to the project site and can make field adjustments/calculations that may become necessary on-site.

Dewberry is experienced in all facets of construction layout services whether it be control for the contractor, structure staking, or roadway staking, and can provide rapid response should the situation arise.

Global Positioning System (GPS) Data Collection

Dewberry has extensive experience with GPS surveys for data collection and the establishment of horizontal and vertical control points. We utilize the latest Trimble and Spectra GPS Technology and have the capability to run eleven simultaneous observations at one time. All data is processed through Trimble Business Center.

Static missions for the establishment of geodetic control points are accomplished through research of existing NGS quality control points, pre-mission planning for placement of new control points, determination of optimum satellite schedules, and field procedures consistent with Federal and State standards.

R/W Surveys

Dewberry has vast experience in determining and verifying existing R/W. Nearly every project we have been involved with

has contained R/W granted by deed or easement to areas of property, including surface, overhead, or underground strips or areas of land. These lands have been granted for designated uses, such as highways, drainage canals and ditches, sewers, water retention areas, and electric, telephone, gas, and water utilities.

In the survey of lands not contained in recorded subdivisions, the most important tasks are the proper determination of the original government land sections and the establishment of existing R/W. The existing R/W are evidenced through various sources, such as the public record (i.e., deeds and recorded maps and plats) and existing governmental R/W and maintenance maps. Dewberry has extensive experience in R/W surveys throughout Florida for private clients, FDOT/ Florida's Turnpike Enterprise, and numerous municipalities.

We have a clear understanding of the differences in the submittal process and preparation of deliverables for each of these entities. R/W control survey maps, R/W maps, and maintenance maps are examples of various types of maps produced.

Specific Purpose Surveys

Specific purpose surveys can be used for a variety of applications, such as wetland line determinations. These specific purpose surveys include both a graphical and tabular depiction of the wetland lines, as flagged by a biologist and approved by the appropriate agency. We have the flexibility to perform a partial boundary Survey and/or controlling land corner survey to supplement an appraisal map or to assist a managing agency. No matter how unique the specific task may be, our management team can determine the most effective methods to bring this type of project to a speedy and cost-effective conclusion.

Specialty Services

SUBSURFACE UTILITY ENGINEERING

Dewberry's staff has a complete and accurate methodology for the designation, coordination, soft excavation, and surveying of buried utilities. Our dedicated utility team includes a utility coordinator, a utility technician, two dedicated Designation and SUE teams. Our knowledgeable staff has experience in the coordination of the Sunshine One Call System, as well as the designation of utilities in accordance with Quality Level A and B Requirements, set forth by the "Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data."

Our SUE units are equipped with Utilivacs and Vermeer Soft Excavation Systems, as well as Noggin and GSSI GPRs. In addition, we employ a multitude of radio detection equipment that allow a non-invasive approach to the accurate location of a buried utility.

LEGAL DESCRIPTIONS AND SURVEY SKETCHES

Dewberry is well-versed in preparing all types of legal descriptions for easements, access, utilities, or even sovereign lands. When preparing legal descriptions, all monument and controlling calls are inserted within the legal description for clarity. A sketch, metes and bounds legal description, and key map are always provided with each legal description. Our team has prepared thousands of sketches and legal descriptions for R/W acquisition, eminent domain proceedings, and easements for utilities, access, or conservation.

SECTIONAL/GOVERNMENT LAND SURVEYS

Dewberry has performed sectionalized land surveys throughout the state and maintains expertise of Sectional and Township retracement and the resurvey of Government Lots and Government Meander Surveys abutting submerged or impassible lands. Dewberry is aware of the difficulties associated with double-section corner monumentation, staggered section lines along many of the local townships, and land grant anomalies within the region. We do the necessary research and field survey to identify and resolve any discrepancies and can provide the resources and expert witness testimony to assist the City with any sectional or land grant resolution needed. When necessary, Dewberry has the ability to restore, and document lost or obliterated corners.

GEODECTIC CONTROL SURVEYS

Dewberry has extensive experience establishing both horizontal and vertical control networks utilizing Static GPS technology, statewide FPRN and VRS networks, and conventional survey techniques.

Our management team understands that any control survey is the basis of future surveys and/ or acquisitions, therefore, quality along with proper planning organization, and research is the key to success not only for this project but also for many subsequent projects in the future. All work will follow FDEP protocols for network control and submittals

MEAN HIGH WATER SURVEYS

Planning is the key to success. It is necessary to plan and work around the tides, giving personnel the ability to safely access the site and complete their task before the tide goes out.

We have the experience and knowledge to use all three methods of tide study-- Height Difference, Range Ratio, and Amplitude Ratio and recently completed a Tide Study to establish Mean High water in Fanning Bayou for FDEP using the Range Method. The resulting elevations will be documented, depicted on aerial photography through field and photo interpretation methods and/or field staked, depending on the scope of work.

ORDINARY HIGH WATER SURVEYS

Our staff is fully capable of determining ordinary high water lines through various methods. This process begins with historical research and meeting with the Water Management District and local City officials.

We will collect data in the field, including, but not limited to, vegetation limits, high water marks on trees and shoreline features, and evidence from soil types to be determined by our Environmental Sciences Section. Coordination with the different government agencies and professional disciplines is key to success with this type of project.

AS-BUILT SURVEYS

As each construction project nears completion, an as-built survey becomes an integral part of the process. Our team is experienced at accurately collecting as-built data with both conventional and RTK Technology. All data is collected from primary horizontal and vertical control to eliminate any error to disturbed temporary positions. Once the data is collected, it is processed and incorporated into the deliverables. Dewberry supports several different softwares and can incorporate the survey data into the construction plans or produce stand-alone survey documents for the City's use. Dewberry knows the importance of project as-builts for future use and thus employs an independent field review to verify all pipe sizes, material, and inverts, and to put a fresh set of eyes on the collected data. This has proven invaluable in the quality of the product we produce. Whether an existing facility, park, or roadway, our team is ready to perform the City's next as-built survey.

REMOTE SENSING

Dewberry's remote sensing, GIS, and mapping team specializes in remote sensing services (aerial imagery, LiDAR, thermal imagery), stereo photointerpretation, field work aimed at ground-truthing, photogrammetry, digital elevation model/ digital terrain model generation, digital orthophoto creation, surveying, quality assurance/quality control (QA/QC) and

accuracy assessment, and GIS data development. Our team provides these services to local, state, and federal clients.

We currently have existing geospatial service contracts with the Southwest Florida Water Management District (SWFWMD), South Florida Water Management District (SFWMDC), St. Johns River Water Management District, (Northwest Florida Water Management District (NFWMD), U.S. Geological Survey (USGS), National Oceanic and Atmosphere Administration (NOAA), U.S. Fish and Wildlife Service, U.S. Army Corp of Engineers, and the Federal Emergency Management Agency.

GIS MAPPING

Dewberry employs over 100 personnel on our GIS production team. These resources are used for state, federal, military, and municipal mapping throughout the world. Our team has vital experience in parcel mapping, habitat identification, wildlife corridor mapping, and other environmental applications that can benefit the City. As an example, this format is useful for appraisal mapping applications by providing corridor study data within proposed trail routes. Large areas of land have been mapped and categorized, which allows the end user to access all related parcel and potential encumbrance information. GIS provides tremendous cost savings for most project applications.

Quality Assurance/Quality Control

Dewberry has made a significant commitment to QA/QC through the establishment of a multi-phase approach containing a project-specific plan for each project. It is our belief that quality assurance is a function of each staff member's daily work effort. Our goal is to establish and implement a project-specific QA/QC plan for each assignment to deliver high-quality products to the City of North Port. This focus, along with our independent peer review process, will result in achieving the quality goals for the project.

Dewberry's QA/QC Plan for this contract has been developed using three phases of activities, beginning with the daily fieldwork and continuing through the office processing, computations, and then mapping. It has been our experience that these levels develop a QA/QC process that is continuous throughout the life of the project. This process is iterative and contains the following key elements:

PHASE 1 – FIELD SURVEY QUALITY CONTROL

The accuracy and completeness of the field surveys is of prime importance in the success of this project. Our project

DEWBERRY IS FULLY AVAILABLE AND IS COMMITTED TO DELIVERING EACH TASK ON TIME AND ON BUDGET

surveyors and office technicians will begin working with the assigned field crews at the onset of data collection activities. All field data and field notes will be reviewed for completeness prior to being imported into the project database. Any items noted for clarification will be reviewed and reprocessed daily. It is standard procedure for the Project Surveyor to spend time in the field working with the field crews in order to address any issues that may arise.

PHASE 2 – MAP REVIEWS

As the mapping progresses, our Project Surveyor will perform incremental reviews. This review will include format, clarity, and level of detail to depict an accurate depiction of field evidence topography, or other scope requirements. This will confirm the mapping products being developed meet City of North Port's criteria and CADD standards.

During this phase of review all applicable legal documents encumbrances, research items, and outsourced topographic data will be reviewed and compared to the current data set. This process includes a series of checking and back-checking to confirm all corrections noted are changed. A final map set will be plotted, and a complete QA review will be performed prior to submittal. We will submit the required number of map sets along with the applicable Standards of Practice checklists. We will deliver a transmittal log with each submittal that lists each product being delivered.

PHASE 3 – QA/QC MANAGER

The final step to our QA/QC Plan for this project will be a complete quality control review using an independent quality control team. The review will include a review of the project scope, QA/QC Plan, the City of North Port's Survey Requirements Checklist, and deliverables associated with the project. The independent QC reviewer will meet jointly with our **Project Manager, Jonathan Gibson, PSM**, to discuss any inconsistencies noted during the review. Jonathan will work with staff on the final submittal preparation and perform a final QA.

Mosquito Control Parcel 101

ORANGE COUNTY, FL

Dewberry provided a boundary and topographic survey for the Mosquito Control office for Orange County. Our survey group was tasked with performing a boundary survey for the site. We identified property corners and reestablished the boundary of the site. We established control and located improvements and topography of the entire site and outbuildings, for use in the topographic survey that followed. Improvements adjacent to the site were included as part of the topographic survey to produce adequate data to provide for future engineering of the site. Our team compiled a survey database in Civil 3D, platted existing R/Ws and the surrounding parcels along with developing a surface model to display contour data across the site. Utility information for the site was retrieved and a drainage network was established within the base file. Additionally, we provided an exhibit of the site for the Orange County Property Appraiser that was needed to update maps online after the parcel acquisition.

Litigation

As a large and highly diversified firm, Dewberry Engineers Inc., is periodically named as a party to a lawsuit or participates in dispute resolutions in the normal course of doing business for a company of our size. Dewberry is engaged in a limited number of claims and disputes of the types and in amounts consistent with the size of the company and the services provided in the normal course of business. Dewberry always maintains a comprehensive insurance program which includes professional liability, workers' compensation, comprehensive general liability, automobile and umbrella policies, with limits sufficient to cover the defense and payment of all outstanding claims against Dewberry. There are currently no claims, conflicts, judgments or disputes that would interfere with our ability to perform the services for this project.

TAB 8: Additional Information

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Why Dewberry?

Knowledge and Experience within the City

As a current contract holder of several continuing surveying and mapping contracts in Central Florida, we have provided a wide range of services for a variety of projects. Our knowledge and over 50 years of direct experience within the area **eliminates our team's learning curve and allows our team to provide consistent, quality services to the City of North Port.**

Continuing Services Contract Expertise

Dewberry currently holds 100+ continuing services contracts for municipal clients and government agencies across Florida, demonstrating our extensive contract management experience. **We provide surveying and mapping services for every contract** and work alongside our engineers, planners, and environmental scientists to assist with all aspects of each assignment. Our wide range of in-house surveying capabilities, and experience managing similar contracts, will provide effective coordination and control of resources, keeping the City of North Port's projects on schedule and within budget.

Experienced Project Manager

Our Project Manager, **Jonathan Gibson, PSM**, has nearly 17 years of surveying and mapping experience. He has extensive experience in all aspects of land surveying in support of engineering design, including linear \ transportation projects, utility upgrades, commercial and residential development projects, as well as specific purpose and construction layout services. He has experience in providing certified ALTA/NSPS surveys, which involve review of title work and land use and zoning documents.

Local Survey Team

Managing this contract from our Sarasota office, we will operate as a true extension of the City of North Port's staff. Our trusted and experienced project manager is supported by an extensive survey team, including 19 survey crews and 85+ survey personnel. **Our team is fully committed to this contract.**

Dedication

As a local firm, we've demonstrated our dedication to our clients and community. We understand the impact projects have on the residents and environment, and **our team is personally and professionally invested in the success of the City of North Port's projects.**

Attachment 1.1: General Insurance

Contract #2023-38

Attachment 1.1 GENERAL INSURANCE

A. Insurance.

(1) Before performing any work pursuant to this Contract, the Contractor must procure and maintain, during the life of this Contract, the insurance listed below against all claims of injury to persons or damage to property which may arise from or in connection with its performance of the Contract work, unless otherwise specified. The policies of insurance must be primary and written on forms acceptable to the City and placed with insurance carriers approved and licensed by the State of Florida Department of Financial Services, and meet a minimum financial A.M. Best and Company, Inc. rating of no less than "A - Excellent: FSC VII." No changes can be made to these specifications without prior written approval by the City Manager or designee. The City Manager or designee may alter the amounts or types of insurance policies required by this Contract upon agreement with the Contractor. The insurance policies must remain in place until all of the Contractor's and subcontractor(s)' obligations and warranty periods in place pursuant to this Contract have been discharged or satisfied.

(2) The below insurance requirements are minimum requirements for this Contract and in no way limit the indemnity covenants contained in this Contract. The City in no way warrants that the minimum limits are sufficient to protect the Contractor from liabilities that might arise out of the performance of the work done pursuant to this Contract by the Contractor, its agents, representatives, employees, or subcontractors. Contractor is free to purchase additional insurance as it may determine necessary. The extent of Contractor's liability for indemnity of the City must not be limited by insurance coverage or lack thereof, or unreasonably delayed for any reason, including but not limited to, insurance coverage disputes between the Contractor and its carrier.

B. Workers' Compensation and Employers' Liability Insurance. Coverage pursuant to Florida Statutes, Chapter 440 must apply to all employees at the statutory limits provided by state and federal laws. The policy must include Employers' Liability. Proof of insurance must be filed by the Contractor with the City within **ten (10) calendar days** after the Effective Date of this Contract.

C. Comprehensive Commercial General Liability Insurance. The Contractor must procure and maintain, and require all subcontractors to procure and maintain, during the life of this Contract, a comprehensive commercial general liability policy, including but not limited to bodily injury, property damage, broad form contractual liability and Explosion, Collapse and Underground (XCU) coverage. The general aggregate limit must apply separately to this Contract, or the general aggregate limit must be twice the required occurrence limit.

The policy must include General Liability with a limit of \$1,000,000 for General Aggregate; \$1,000,000 for each occurrence; \$1,000,000 for Products and Completed Operations; \$100,000 for damage to rented premises; and \$100,000 for Fire Damage. Proof of insurance must be filed by the Contractor with the City within **ten (10) calendar days** after the Effective Date of this Contract.

D. Automobile Liability Insurance. The Contractor must procure and maintain, and require all subcontractors to procure and maintain, during the life of this Contract, automobile liability insurance to include all owned, leased, hired, and non-owned vehicles. Automobile liability insurance must be written on a standard ISO form (CA 00 01) covering any auto (Code 1), or if Contractor has no owned autos, hired (Code 8) and non-owned (Code 9) autos. Proof of insurance must be filed by the Contractor with the City within **ten (10) calendar days** after the Effective Date of this Contract.

E. Waiver of Subrogation. All required insurance policies, except for Workers' Compensation, are to be endorsed with a Waiver of Subrogation. The insurance companies, by proper endorsement or through other means, must agree to waive

Attachment 1.2: Professional Liability Insurance

Contract #2023-38

ATTACHMENT 1.2 **PROFESSIONAL LIABILITY INSURANCE**

The Consultant must procure and maintain, and require all subconsultants to procure and maintain, during the life of this Contract, professional liability insurance with a minimum \$1,000,000 per occurrence; and with a \$1,000,000 policy term general aggregate. Coverage shall be extended beyond the policy year term either by a supplemental extended reporting period (ERP) with as great of duration as available, with no less coverage and reinstated aggregate limits, or by requiring that any new policy provide a retroactive date no later than the inception date of claims made. The City prefers all professional liability insurance be written on an Occurrence Form; however, in the event that the professional liability insurance required by this Contract is written on a claims-made basis, the Consultant warrants that any retroactive date under the policy shall precede the effective date of this Contract; and that either continuous coverage will be maintained for a period of two (2) years or an extended reporting period (ERP) with tail coverage will be obtained and maintained for a period of two (2) years beginning at the time work under this Contract is completed.

UNLESS THE PARTIES HAVE AGREED TO AN OPT-OUT PURSUANT TO FLORIDA STATUTES SECTION 558.005(1), AN EMPLOYED DESIGN PROFESSIONAL, OR AN AGENT OF THE CONSULTANT IS NOT INDIVIDUALLY LIABLE FOR NEGLIGENCE ARISING OUT OF THE COURSE AND SCOPE OF THIS CONTRACT FOR ECONOMIC DAMAGES SO LONG AS THE CONSULTANT MAINTAINS THE LIMITS OF PROFESSIONAL LIABILITY INSURANCE AS PROVIDED IN THIS ATTACHMENT.

Attachment 3: FEMA Clauses

Contract #2023-38

ATTACHMENT 3 FEMA PROVISIONS

Section 1: Prohibition on Contracting for Covered Telecommunications Equipment or Services

(a) *Definitions.* As used in this clause, the terms backhaul; covered foreign country; covered telecommunications equipment or services; interconnection arrangements; roaming; substantial or essential component; and telecommunications equipment or services have the meaning as defined in FEMA Policy 405-143-1, Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services (Interim).

(b) *Prohibitions.*

(1) Section 889(b) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, Pub. L. No. 115-232, and 2 C.F.R. § 200.216 prohibit the head of an executive agency on or after Aug.13, 2020, from obligating or expending grant, cooperative agreement, loan, or loan guarantee funds on certain telecommunications products or from certain entities for national security reasons.

(2) Unless an exception in paragraph (c) of this clause applies, the Contractor and its subcontractors may not use grant, cooperative agreement, loan, or loan guarantee funds from the Federal Emergency Management Agency to:

(i) Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

(ii) Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

(iii) Enter into, extend, or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system; or

(iv) Provide, as part of its performance of this contract, subcontract, or other contractual instrument, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) *Exceptions.*

(1) This clause does not prohibit Contractors from providing—

(i) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) By necessary implication and regulation, the prohibitions also do not apply to:

(i) Covered telecommunications equipment or services that

i. Are *not used* as a substantial or essential component of any system; *and*

ii. Are *not used* as critical technology of any system.

(ii) Other telecommunications equipment or services that are not considered covered telecommunications equipment or services.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the recipient or subrecipient, unless elsewhere in this contract are established procedures for reporting the information.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause:

(i) Within one business day from the date of such identification or notification: The contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (e), in all subcontracts and other contractual instruments.

Section 2: Domestic Preference for Procurements

As appropriate, and to the extent consistent with law, the Contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products.

For purposes of this clause:

Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

Contract #2023-38

Section 3: Equal Employment Opportunity

(a) This section applies if the contract is for a federally assisted construction contract. As defined in 41 C.F.R. § 60-1.3:

(1) A *federally assisted construction contract* means “any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any federal program involving a grant, contract, loan, insurance or guarantee, or undertaken pursuant to any federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.”

(2) *Construction work* means as “the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.”

(3) *Contract* means “any Government contract or subcontract or any federally assisted construction contract or subcontract.”

(4) Additional definitions pertaining to this section can be found at 41 C.F.R. § 60-1.3.

(b) Unless exempted in 41 C.F.R. Part 60, the following terms apply, and during the performance of this contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

Contract #2023-38

(4) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or contract unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or contract as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: *Provided*, however, that in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

Section 4: Davis-Bacon Act

(a) This section applies when required by federal program legislation for prime construction contracts over \$2,000. The Davis-Bacon Act only applies to the Emergency Management Performance Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, Transit Security Grant Program, Intercity Passenger Rail Program, and Rehabilitation of High Hazard Potential Dams Program. Unless otherwise stated in a program's authorizing statute, it *does not* apply to other FEMA grant and cooperative agreement programs, including the Public Assistance program. Where this section applies:

(1) Minimum wages.

(i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe

Contract #2023-38

benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in § 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph (a)(1)(ii) of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the Contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii)

(A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination, and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the Contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(C) In the event the Contractor, the laborers, or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

Contract #2023-38

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the Contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) Withholding. The City shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the Contractor under this contract or any other Federal contract with the same prime Contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime Contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the Contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the (Agency) may, after written notice to the Contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the Contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

Contract #2023-38

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii) (B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the Contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) Withholding. The City shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the Contractor under this contract or any other Federal contract with the same prime Contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime Contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the Contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the (Agency) may, after written notice to the Contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the Contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

Contract #2023-38

make them available, the Federal agency may, after written notice to the Contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

(4) Apprentices and trainees -

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the Contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a Contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the Contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the Contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment

Contract #2023-38

and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the Contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(5) Compliance with Copeland Act requirements. The Contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

(6) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as the (write in the name of the Federal agency) may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

(7) Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a Contractor and a subcontractor as provided in 29 CFR 5.12.

(8) Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the Contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of eligibility.

(i) By entering into this contract, the Contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the Contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

Section 5: Copeland Anti-Kickback Act

(a) This section applies only if the Davis-Bacon Act applies (see Section 4).

(b) The Contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.

Contract #2023-38

(c) The Contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(d) A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.

Section 6: Contract Work Hours and Safety Standards Act

(a) This section applies to all procurements over \$100,000 that involve the employment of mechanics, laborers, and construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(b) Where this section applies:

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The City shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other federal contract with the same prime Contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime Contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

Contract #2023-38

(c) If this contract is only subject to Contract Work Hours and Safety Standards Act and not subject to the other statutes in 29 C.F.R. § 5.1, the following terms apply:

(1) The Contractor or subcontractor shall maintain payrolls and basic payroll records during the course of the work and shall preserve them for a period of three years from the completion of the contract for all laborers and mechanics, including guards and watchmen, working on the contract. Such records shall contain the name and address of each such employee, social security number, correct classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid.

(2) Records to be maintained under this provision shall be made available by the Contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the Department of Homeland Security, the Federal Emergency Management Agency, and the Department of Labor, and the Contractor or subcontractor will permit such representatives to interview employees during working hours on the job.

Section 7: Clean Air and Water

(a) This section applies if the contract is over \$150,000.

(b) The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq. The Contractor agrees to report each violation to the City and understands and agrees that the City will, in turn, report each violation as required to assure notification to the State of Florida, FEMA, and the appropriate Environmental Protection Agency Regional Office. The Contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with federal assistance provided by FEMA.

(c) The Contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the federal Water Pollution Control Act, as amended, 33 U.S.C. § 1251 et seq. The Contractor agrees to report each violation to the City and understands and agrees that the City will, in turn, report each violation as required to assure notification to the State of Florida, FEMA, and the appropriate Environmental Protection Agency Regional Office. The Contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with federal assistance provided by FEMA.

Section 8: Suspension and Debarment

(a) If this contract is for \$25,000 or more, or requires the consent of an official of a federal agency, then this contract is a covered transaction for purposes of 2 C.F.R. Part 180 and 2 C.F.R. Part 3000. As such, the Contractor is required to verify that none of the Contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935). The Contractor must comply with 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into. The Contractor agrees to comply with the requirements of 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C throughout the period of the contract.

(b) This certification is a material representation of fact relied upon by the City. If it is later determined that the Contractor did not comply with 2 C.F.R. Part 180, subpart C and 2 C.F.R. Part 3000, subpart C, in addition

Contract #2023-38

to remedies available to the City, the federal government may pursue available remedies, including but not limited to suspension and/or debarment.

Section 9: Byrd Anti-Lobbying Amendment

Contractors who apply or bid for an award of more than \$100,000 shall file the FEMA-required certification found at 44 C.F.R. Part 18, Appendix A (attached hereto). Each tier certifies to the tier above that it will not and has not used federally appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the federal awarding agency.

Section 10: Procurement of Recovered Materials

(a) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

competitively within a timeframe providing for compliance with the contract performance schedule;

meeting contract performance requirements; or

at a reasonable price.

Information about this requirement, along with the list of EPA-designated items, is available at EPA's Comprehensive Procurement Guidelines webpage: <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.

(b) The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

Section 11: Access to Records

(a) The Contractor agrees to provide the City, the State of Florida, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(b) The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

(c) In compliance with section 1225 of the Disaster Recovery Reform Act of 2018, the City and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States

Contract #2023-38

Section 12: DHS Seal, Logo, and Flags

The Contractor shall not use the Department of Homeland Security (DHS) seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. The Contractor shall include this provision in any subcontracts.

Section 13: Compliance with Federal Law

The Contractor acknowledges that FEMA financial assistance will be used to fund all or a portion of the contract. The Contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

Section 14: No Obligation of Federal Government

The federal government is not a party to this contract and is not subject to any obligations or liabilities to the non-federal entity, Contractor, or any other party pertaining to any matter resulting from the contract.

Section 15: False Claims

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract.

Section 16: Affirmative Socioeconomic Steps

If subcontracts are to be let, the prime Contractor is required to take all necessary steps identified in 2 C.F.R. § 200.321(b)(1)-(5) to ensure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

Section 17: Copyright and Data Rights

If the contract requires the Contractor or subcontractor to produce copyrightable subject matter or data, then the Contractor grants to the City, a paid-up, royalty-free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish, or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, the Contractor will identify such data and grant to the City or acquires on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software and/or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audiovisual works, sound and/or video recordings, and architectural works. Upon or before the completion of this contract, the Contractor will deliver to the City data first produced in the performance of this contract and data required by the contract but not first produced in the performance of this contract in formats acceptable by the City.

Contract #2023-38

Section 18: Patent Rights

If this contract is a *funding agreement* as defined in 37 C.F.R. § 401.2(a), then the standard patents rights clause at 37 C.F.R. § 401.14 is hereby incorporated by reference as if fully set forth herein.

ATTACHMENT 5: Lobbying Certification

Contract #2023-38

ATTACHMENT 5 LOBBYING CERTIFICATION

"The undersigned hereby certifies, to the best of his or her knowledge and belief, that":

STATE OF Florida

COUNTY OF Orange

This 2nd day of August of 2023

Kevin Knudsen, PE, being first duly sworn, deposes and says that he or she is the authorized representative of Dewberry Engineers Inc. (Name of the contractor, firm or individual), and that the vendor and any of its agents agree to have no contact or communication with, or discuss any matter related in any way to any active City of North Port solicitation, with any City of North Port elected officials, officers, their appointees or their agents or any other staff or outside individuals working with the city in respect to this request other than the designated Procurement Official Contact and to abide by the restrictions outlined in the General Terms and Conditions of the Solicitation. Technical questions directed to the project manager, is prohibited. These persons shall not be lobbied, either individually or collectively, regarding any questions for bid, proposal, qualification and/or any other solicitations released by the city. To do so is grounds for immediate disqualification from the selection process. The selection process is not considered final until such a time as the Commission has made a final and conclusive determination.

(a) No City appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence either directly or indirectly an officer or employee of the City, City Commission in connection with the awarding of any City Contract.

(b) If any funds other than City appropriated funds have been paid or will be paid to any person for influencing or attempting to influence a member of City Commission or an officer or employee of the City in connection with this contract, the undersigned shall complete and submit Standard Form-L "Disclosure Form to Report Lobbying", in accordance with its instructions.

Signed, sealed and delivered this 2nd day of August, 2023.

ATTACHMENT 6 NON-COLLUSIVE AFFIDAVIT

Before me, the undersigned authority ("Affiant"), personally appeared:

Cliff Wilson, PE who, being first duly sworn, deposes and says that:

1. Affiant is the Vice President
of Dewberry Engineers Inc.,
the Respondent that has submitted the attached reply;
2. Affiant is fully informed respecting the preparation and contents of the attached reply and of all pertinent circumstances respecting such reply;
3. Such reply is genuine and is not a collusive or sham reply;
4. Neither the said Respondent nor any of its officers, partners, owners, agents, representatives, employees or parties in interest, including this affiant, have in any way colluded, conspired, connived or agreed, directly or indirectly, with any other respondent, firm, or person to submit a collusive or sham reply in connection with the work for which the attached reply has been submitted: or have in any manner, directly or indirectly sought by agreement or collusion, or communication or conference with any respondent, firm, or person to fix the price or prices in the attached reply or of any other respondent, or to fix any overhead, profit, or cost elements of the reply price or the reply price of any other respondent, or to secure through any collusion, conspiracy, connivance, or unlawful agreement any advantage against (Recipient), or any person interested in the reply work.

ATTACHMENT 7: Conflict of Interest

Contract #2023-38

ATTACHMENT 7 CONFLICT OF INTEREST FORM

Florida Statutes Section 112.313 places limitations on public officers (including advisory board members) and employees' ability to contract with the City of North Port, Florida ("City") either directly or indirectly.

PART I. *[Select and complete all that apply]:*

☐ I am an employee, public officer, or advisory board member of the City.

Identify the position and/or board: _____

☐ I am the spouse or child of an employee, public officer, or advisory board member of the City.

Identify the name of the spouse or child: _____

☐ I am an employee, public officer or advisory board member of the City, or my spouse or child, is an officer, partner, director, or proprietor of Respondent/Contractor or has a material interest in Contractor. "Material interest" means direct or indirect ownership of more than 5 percent of the total assets or capital stock of any business entity. For the purposes of Florida Statutes Section 112.313, indirect ownership does not include ownership by a spouse or minor child.

Identify the name of the person and the entity _____

☐ Bidder/Contractor employs or contracts with an employee, public officer, or advisory board member of the City.

Identify the name of the employee, public officer, or advisory board member

☒ None of the Above

PART II: Will you request an advisory board member waiver?

☐ I WILL request an advisory board member waiver under §112.313(12)

☐ I WILL NOT request an advisory board member waiver under §112.313(12)

☒ N/A

The City will review any relationships which may be prohibited under the Florida Ethics Code and will disqualify any Contractor whose conflicts are not waived or exempt.

ATTACHMENT 9: Drug Free Workplace

Contract #2023-38

ATTACHMENT 9 DRUG FREE WORKPLACE FORM

The undersigned, in accordance with Florida Statutes Section 287.087, hereby certifies that the Contractor,
Dewberry Engineers Inc. (Company Name):

1. Publishes a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Informs employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Gives each employee engaged in providing the commodities or Contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notifies employees that, as a condition of working on the commodities or Contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Imposes a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6. Makes a good faith effort to continue to maintain a drug free workplace through implementation of this section.

ATTACHMENT 10: Disclosure Form (Consultant/Engineer/Architect)

Contract #2023-38

**ATTACHMENT 10
DISCLOSURE FORM FOR
CONSULTANT/ENGINEER/ARCHITECT**

Please select (only) one of the following three options:

☒ Our firm has no actual, potential, or reasonably perceived, **financial*** or **other interest**** in the outcome of the project.

☐ Our firm has a potential or reasonably perceived **financial*** or **other interest**** in the outcome of the project as described here: _____.

Our firm proposes to mitigate the potential or perceived conflict according to the following plan:
_____.

☐ Our firm has an actual **financial*** or **other interest**** in the outcome of the project as described here:
_____.

***What does "financial interest" mean?**

If your firm, or employee of your firm working on the project (or a member of the employee's household), will/may be perceived to receive or lose private income depending on the government business choices based on your firm's findings and recommendations, this must be listed as a financial interest. An example would be ownership in physical assets affected by the government business choices related to this project. The possibility of contracting for further consulting services is not included in this definition and is not prohibited.

****What does "other interest" mean?**

If your firm, or employee of your firm working on the project (or a member of the employee's household), will/may be perceived to have political, legal or any other interests that will affect what goes into your firm's findings and recommendations, or will be/may be perceived to be affected by the government business choices related to this project, this must be listed as another interest.

Contractor Name: Dewberry Engineers Inc.
Authorized Representative Name and Title: Cliff Wilson, PE
Address: 2201 Cantu Court, Suite 107 City: Sarasota State: FL ZIP: 34232
Phone Number: 850.571.1204 Email Address: cwilson@dewberry.com

A company is ineligible to, and may not, bid on, submit a proposal for, or enter into or renew a Contract with the City of North Port for goods or services of any amount if, at the time of bidding on, submitting a proposal for, or entering into or renewing such Contract, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Florida Statutes, section 215.4725, or is engaged in a boycott of Israel.

A company is ineligible to, and may not, bid on, submit a proposal for, or enter into or renew a Contract with the City of North Port for goods or services of \$1 million or more if, at the time of bidding on, submitting a proposal for, or entering into or renewing such Contract, the company is on the Scrutinized Companies with Activities in Sudan List, the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Florida Statutes, section 215.473, or with companies engaged in business operations in Cuba or Syria.

CHOOSE ONE OF THE FOLLOWING

☒ This Contract or Contract renewal is for goods or services of less than \$1 million. As the person authorized to sign on behalf of the above-named company, and as required by Florida Statutes Section 287.135(5), I hereby certify that the above-named company is not participating in a boycott of Israel.

☐ This bid, proposal, Contract or Contract renewal is for goods or services of \$1 million or more. As the person authorized to sign on behalf of the above-named company, and as required by Florida Statutes Section 287.135(5), I hereby certify that the above-named company is not participating in a boycott of Israel, is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, and it does not have business operations in Cuba or Syria.

I understand that pursuant to Florida Statutes, section 287.135, the submission of a false certification may result in the termination of the Contract if one is entered into, and may subject the above-named company to civil penalties, attorney's fees and costs.

ATTACHMENT 12: E-verify

Contract #2023-38

ATTACHMENT 12
VENDOR'S CERTIFICATION FOR E-VERIFY SYSTEM

The undersigned Vendor/Consultant/Contractor (Vendor), after being duly sworn, states the following:

1. Vendor is a person or entity that has entered into or is attempting to enter into a contract with the City of North Port (City) to provide labor, supplies, or services to the City in exchange for salary, wages or other remuneration.
2. Vendor has registered with and will use the E-Verify System of the United States Department of Homeland Security to verify the employment eligibility of:
 - a. All persons newly hired by the Vendor to perform employment duties within Florida during the term of the contract; and
 - b. All persons, including sub-contractors, sub-vendors or sub-consultants, assigned by the Vendor to perform work pursuant to the contract with the City.
3. If the Vendor becomes the successful Contractor who enters into a contract with the City, then the Vendor will comply with the requirements of Section 448.095, Fla. Stat. "Employment Eligibility", as amended from time to time.
4. Vendor will obtain an affidavit from all subcontractors attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien as defined in 8 United States Code, Section 1324A(H)(3).
5. Vendor will maintain the original affidavit of all subcontractors for the duration of the contract.
6. Vendor affirms that failure to comply with the state law requirements can result in the City's termination of the contract and other penalties as provided by law.
7. Vendor understands that pursuant to Florida Statutes, section 448.095, the submission of a false certification may result in the termination of the contract if one is entered into, and may subject the Vendor named in this certification to civil penalties, attorney's fees and costs.

ATTACHMENT 13: Certification Regarding Lobbying – Federal

Contract #2023-38

ATTACHMENT 13
CERTIFICATION REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 et seq., apply to this certification and disclosure, if any.

ATTACHMENT 15: Certification Regarding Debarment, Suspension, and other Responsibility Matter

Contract #2023-38

ATTACHMENT 15
CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS
PRIMARY COVERED TRANSACTIONS

This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000.

The Contractor certifies that, neither the firm nor any person associated therewith in the capacity of owner, partner, director, officer, principal, investigator, project director, manager, auditor, and/or position involving the administration of federal funds:

(a) is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions, as defined in 49 CFR s29.110(a), by any federal department or agency;

(b) has within a three-year period preceding this certification been convicted of or had a civil judgment rendered against it for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a federal, state, or local government transaction or public contract; violation of federal or state antitrust statutes; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) is presently indicted for or otherwise criminally or civilly charged by a federal, state, or local governmental entity with commission of any of the offenses enumerated in paragraph (b) of this certification; and

(d) has within a three-year period preceding this certification had one or more federal, state, or local government public transactions terminated for cause or default.

The Contractor certifies that it shall not knowingly enter into any transaction with any subcontractor, material supplier, or vendor who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this project by any federal agency unless authorized by the City of North Port.

The Contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

This certification is a material representation of fact relied upon by the City of North Port. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City of North Port, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer.

The Contractor further agrees to include a provision requiring such compliance in its lower tier covered transactions.

ATTACHMENT 16: Contract Changes

Contract #2023-38

ATTACHMENT 16

CONTRACT CHANGES

- A. The parties may make changes to the contract work, including additions or deletions, provided that such changes are within the general scope of the contract work. Any change affecting the contract price must be in writing and signed by both parties. The Contractor is not entitled to any increase in price or extension of time unless the contract is changed in accordance with this section.
- B. Either party may submit to the other a change proposal, which must identify any proposed changes in contract price or time, explain why the change is believed necessary, and cite to any applicable provision of the contract. Within a reasonable time, the party receiving the proposal shall respond in writing to the other party. If the parties agree to the change, they will execute an amendment to the contract changing its terms.
- C. Without invalidating the contract, the City may order additions, deletions, or revisions in the work, provided that such changes are within the general scope of the contract work. Such changes may be accomplished by a contract amendment, if the City Commission and Contractor have agreed as to the effect, if any, of the changes on contract price. If the parties cannot agree, the Contractor shall proceed with the work, or, in the case of a deletion, cease activities with respect to the deleted work, subject to the Contractor's right to claim for additional compensation or time. Any such claim must be made in writing within 14 days. Additional compensation will be limited to Contractor's actual cost of the work, plus reasonable profit and overhead. Nothing in this section shall obligate Contractor to undertake work that Contractor reasonably concludes cannot be performed in a manner consistent with Contractor's safety obligations under the contract or governing laws and regulations.

ATTACHMENT 18: Termination Clauses

Contract #2023-38

Attachment 18
TERMINATION FOR CONVENIENCE

The City reserves the right, in its best interest as determined by the City, to cancel this Contract for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Contract is terminated for convenience, Contractor shall be paid for any services performed to the City's satisfaction pursuant to the Contract through the termination date specified in the written notice of termination. The Contractor acknowledges and agrees that Contractor has received good, valuable, and sufficient consideration from City, the receipt and adequacy of which are hereby acknowledged by the Contractor, for City's right to terminate this Contract for convenience. The Contractor will not be paid on account of loss of anticipated profits or revenue or other economic loss arising out of or resulting from such termination.
